**Analysis of Current Situation:**

Since the establishment of the United Arab Emirates in 2 December 1971, UAE adopted a balanced foreign policy on Arab, regional and international levels. In line with the of the late sheikh Zayed bin Sultan Al Nahyan, (May Allah bless his soul). Which built on bridges of cooperation, solidarity, familiarity and other respect among world peoples? The aim is to find a common understanding enables all people to live in peace, welfare and prosperity. For 40 years, UAE has helped others giving them relief and enhanceing development projects in several countries and regions generously. Accordingly, UAE has deserved to be ranked by OECD of one of the best countries giving foreign aid in 2012.

Taking this into consideration, UAE grants foreign aid as per international priorities specified by international relief organizations that meet development targets including, but not limited to, combating poverty, ignorance and diseases.

**Strategy:**

The Ministry of Development and International Cooperation endeavors enhance and developing its abilities in the fields of development, international cooperation, and foreign aid, preparing reports and studies for all sectors under its supervision, desires to cooperate with the United Nations Development Program in UAE (hereinafter referred as the parties) to develop, cooperate and coordinate with the program in development, international cooperation and foreign aid related to objectives and strategy of The Ministry of Development and International Cooperation.

This project coincides with United Nations Development Program to build and empower national capacities to qualify and train human resources. The aim is to raise the proficiency of the ministry work and to set our goals that meet current requirements in accordance with a specific timeline.

Definition concerning required technical enhance; human resources training on foreign aid, preparing reports and periodical publications of aid; strengthening donors and countries in need; qualifies UAE relief work team are the focal objectives of the project.

This strategy will be in the line with the Ministry operational and strategic plan. This project will also prepare the executive plan specifying the roles of national and international experts in the project activities performance as per a system.

United Nations Development Program will enhance The Ministry of Development and International Cooperation to prepare and implement the following work plan:

- appoint specialized experts for developing UAE policy and strategy of foreign aid;
- appoint technical and administrative staff as required to the project;
- Train some Ministry staff at UNDP for specific periods in the field of control and evaluation of development aid and Millennium and sustaining development targets. .
- Conduct workshops for donors and UAE human organizations. These workshops to evaluate the development aid.
- Organize field visits in coordination with UNDP to developing countries to observe evaluation of development projects and recovery plan.
- Participate in preparing and reviewing development projects control and procedures manual.
- Organize a joint international conference for designing development programs inviting international organizations.
- Develop joint electronic portal for international organizations in UAE reflecting their news and activities.
- Cooperate with UNDP to know anticipated results after 2015 concerning development aid and inviting governmental departments and ministries to the international discussion in this regard.
- cooperate with UNDP for training UAE nationals at the program: “Junior Professional Officers Program”
- Consult UNDP to arrive at the best international practices concerning policies and strategies of human resources development and designing development program.
- Prepare, translate and print common publications including information about ministries and international organizations working in UAE.
- Provide the Ministry with the best studies and lessons learnt from past experience at international development, recovery plans, raising readiness and how to prepare for overcoming disasters.

- To train students of UAE universities at UNDP's offices during academic practical training period.

Monitoring process will focus on results and contributions concerning expected results. Information concluded from monitoring process will be a start for taking appropriate actions. There are several monitoring mechanism will be adopted such as monitoring visits and provisional reports. Triple revision will be performed before fulfilling this project. In addition, this project will be subject to revision and examination one time at least in accordance with NEX regulations.

## Legal Framework

Project regulations shall be a reference as per article one of SBFA (Standard Basic Framework Agreement” between UAE government and United Nations Development Program signed on 19 Jan. 1977.

The executive agent in the host country shall review the description mentioned in the agreement regarding cooperative government agent due to achieving the best interest of the agreement.

Following revision methods may be performed on the project document at the same time of signing by representative of United Nations Development Program provided that the other signatures do not conflict with proposed changes.

# Revision or additions of any related attachments.

# Revisions that do not include substantial changes in direct targets, results or activities of the project are important such as rearrangements of approved items. On the other hand, expenses increase due to inflation and obligatory annual revision may restructure approved project items taking into consideration flexibility and easiness of agreement.
