I. PURPOSE

- Present project’s goal, objectives, duration, theory of change (if available), implementing partner and responsible parties

Implementing Partner: UNDP
Start Date: 15 August 2019
End Date: 31 December 2022
Donor: Basket Fund (Foreign Ministry of Sweden, UK-DFID, Sida)
Budget: $ 5,000,000

MAP PROJECT SCOPE:
The Project is designed to strengthen the National Assembly of the Republic of Armenia (RA NA) in its new and fundamentally enhanced role within the governance system in carrying out its key functions legislative, oversight, and representation. With a long-term goal of enhancing the overall effectiveness of the Parliament as a policy-making institution, the Project is designed to support the National Assembly to take the advantage of the modern governance tools and mechanisms with a focus on improved quality, transparency and inclusiveness of parliamentary operations and enhanced parliamentary capacity for gender-responsive policymaking.

The Project has a three-pronged approach in addressing the enhancement of capacity, transparency, and responsiveness. To that end, a three-stage strategy will be applied: (i) catalytic stage of needs assessment, strategic agenda-setting, and pilots of the designed approaches, (ii) full-fledged implementation of the strategic agenda, tested approaches and activities, (iii) evaluation of the implementation, policy recommendations, and project closure.

The Project is planned for the National Assembly’s 7th Convocation (2019-2023). The project will be implemented through a basket fund model. The UNDP is directly implementing the Project with its responsible parties.

The project is implementing in three main directions:
- Enhancing capacity in law-making, policymaking, and oversight
- Increasing the transparency and inclusiveness of the legislature
- Responsiveness to the needs of constituencies and strengthening interaction with them

HOW
- Developed contemporary instruments and mechanisms of good governance
- Application of a combination of classical and innovative tools:

Strategic Level:
- Ensure that the National Assembly is fully involved in shaping, adoption, and implementation of policies: going beyond parliamentary oversight and participation
- Put in place mechanisms for sustainability through outreach toward the wider audience and CSOs: including but not limited to cross-party caucuses, CSOs secretariat support for thematic approach and parliamentary transparency
- Partnerships required to create a robust and resilient Armenian society
- The citizens at the heart of response and recovery efforts
- Emphasis on social dimensions, addressing social and economic inequalities and the needs of that furthest behind and hardest hit by the crisis.
- Global platforms participation and contribution (SDGs, IPU, OGP, etc.)

1 The report shall be evidence-based, short, and informative. Please add up information through the monitoring cycles, thus the final report will contain key information for all years. Use the results language i.e., change vis-à-vis the baseline and target informing also about a ‘so what’ aspect. Financial performance to be indicated based on CDR amount (i.e., actual not committed). A second table on commitments-based delivery is optional. UNDP Armenia timeline for monitoring action: Q1 planning – 20 January; Q1 reporting – 15 April; Q2 – 15 July; Q3 – 15 October; Q4 provisional results - 15 November; Q4 final - 20 January. Do not delete guidelines from the report. Distribution and filing: Atlas/Attachments; UNDP Armenia e-Archive/Project folder; Project Board (Annual SPR; quarterly SPRs – as per Board’s request; project files. Report filing names to be kept consistent.
Technical level
- Digital transformation: Delivering for citizens
- Business continuity and contingency planning of the National Assembly– preparedness measures to secure the Parliament functioning during the crisis
- Creating innovative avenues for citizens’ participation in decision-making.

THE RESPONSIBLE PARTIES (RPA)
The MAP Project subcontracted three prominent responsible parties to act as conveners of awareness-raising and policy dialogue, including in parliament and with citizens/CSOs. Jointly with UNDP, they maintain a dynamic relationship with the Parliament’s committees, build trust among actors and actively advocate for participatory standards.

- **Westminster Foundation for Democracy (WFD):** UK-based organisation is responsible for the activities planned to Enhance Parliamentary Oversight (committee of inquiry, Post-Legislative Scrutiny), Enhancing Parliamentary Communication, Advancing Parliamentary Openness, Peer-to-peer good practice sharing and financial oversight.

- **OxYGen Foundation:** an Armenian CSO is responsible for mainstreaming gender equality throughout the law-making processes in Armenia. Activities include contributing to gender mainstreaming in the legislative, budgeting, and oversight processes within the National Assembly through building capacities and commitments for championing gender equality principles among the MPs as well as introducing gender-sensitive practices and instruments within the structures of the Parliament.

- **International Centre for Human Development (ICHD):** Armenia – based CSO/think thank responsible for the activities under political and policy constructive dialogue based on Chatham House practice: Off-the-record (OTR) discussions, prepared and disseminated following the OTR discussions; Town Hall Meetings (THMs) and Networking Events, recommendations (e.g. on budget, post-legislative monitoring) delivered by the Expert Pool, and developing a guide on Post-Legislative Processes to be effectively used by the National Assembly.

II. RESOURCES AND FINANCIAL PERFORMANCE

- Matrix showing project’s total, annual and delivered resources and percentage by donor funds.
- Indicate amount of leveraged resources, even if as a parallel funding.

III. RESULTS, PROGRESS, INNOVATIVE AND TRANSFORMATIVE ASPECTS

- **Programme results:** (1) Indicate the project’s progress vis-à-vis UNDAF/CPD outcomes, outputs, baselines, and targets, as well as (2) UNDP Strategic Plan (SP) and (3) Sustainable Development Goals (SDG).

- **Project results:** (1) Present the narrative of the project’s progress vis-à-vis the planned deliverables of the Results and Resources Framework of Prodoc, disaggregated by years. Present additional results with a separate subtitle. (2) Update RRF of Prodoc (see in annex a sample of UNDP standard RRF).

- **Innovative and transformative aspects:** Highlight innovative practices and any transformative changes so far.

- **Present in the below table a performance snapshot of the current year planned deliverables.**
In the reporting period the following key activities were initiated:

### 2019
- Mobilization of the Project team and Responsible Partners
- Office Set-up
- RA NA Needs Assessment
- 12 capacity-building activities and platforms
- 2 Off-the-Record (OTR) meetings
- 6 one-to-one coaching sessions
- 2 policy papers
- A package of recommendations for amending the NA Rule of Procedures
- PLS Guide
- Results of support to the NA-CSO cooperation platform for gender equality
- Annual newsletter/report of the NA up to 15,000 citizens from all regions of Armenia received this booklet on the New Year eve
- 37 policy proposals and recommendations for the gender
- 3 thematic events within the NA-CSO platform
- Annual review of the NA-CSO platform
- Communiqué of NA-CSO event on Hate Speech targeting women was prepared and published;
- Report on the annual review of the NA-CSO platform was presented;
- Communiqué of NA-CSO annual review meeting with recommendations on gender equality agenda was presented.
- Established technical coordination group, organized three monthly meetings with international partners engaged in parliamentary assistance programmes, including USAID consortium (IFES, NDI and IRI), GIZ, EU, OSCE, CoE, the Parliamentary Center (Canada)
- 1 launching ceremony of the project in the National Assembly

### 2020
- Functional Analysis – (in progress)
- Gender Budgeting Workshops – CSOs (completed)
- Business Continuity Strategy and Contingency planning (in progress-3rd draft completed)
- Research and Training Centre Concept: research center roadmap (completed), training component (completed) Research and Training Centre Official Opening was launched (completed)
- 3 PLS Mobile Sessions (completed)
- 3 PLS Workshops (completed)
- 17 Technical Small Scheme Requests (12 completed)
- Code of Conduct: Ethics and Anti-corruption, mapping (completed) and survey (postponed)
- Assessment of the IT infrastructure Capacities of the Parliament (completed)
- Digitalization and e-Parliament Strategy Development (in progress-3rd draft completed)
- 3 IT certification courses (completed)
- Parliamentary Visitor Centre: Design & BoQ (completed)
- Civic Education Centre -(completed)
- Outreach Centre Roadmap (in progress)
- RA NA Website development (in progress)
- Two-way communication tools development (postponed for 2021) with Kolba Lab
- Designing innovative techniques (postponed for 2021)
- 5 Meetings within CSO-NA Platform (Women & Armed Conflict; Beijing Declaration; Domestic violence considering Covid-19; Women and Education; Labour Code for paid paternity leave) (completed)
- 3 On-line THMs-120 participants (completed)
- 4 OTR discussions and 4 policy briefs (completed)
- Custom-designed public opinion poll (in progress- questionnaire - completed)
- RA NA Gender Mainstreaming (completed)
- RA NA Participatory Gender Audit (in progress- 2nd draft completed)
- Contribution to the Interparliamentary Union’s 3rd Global Parliamentary Report in promoting the project and the Project led public consultation mechanisms (completed)
OUTCOME 1. Quality of legislative oversight and policymaking is improved
Output 1.1: Capacities of the legislature to analyse, draft and amend legislation is enhanced

Needs Assessment – (2019-2020 completed) started in 2019 and accomplished in March 2020. It was the basis for the Project work plan design for the next stage and helped to establish the baselines and main pointers for RRF.

Functional Analysis – (2020-in progress) (FA) – purposes is to reveal the effectiveness of the RA NA and define the key recommendations to strengthen it. The FA comprises four phases: a) inception, b) data collection and analyses, c) verification and engagement, d) completion, and handover.
The detailed methodology is developed, the basic information on the NA staff legal and institutional standing desk review is accomplished—the data is analyzed; three online questionnaires to collect relevant data from the NA staff, Standing Committees, and Party Factions are finalized; interviews are planned from the 10th of January 2021.

1.1.2. **Deliver capacity development and coaching programmes to the NA**

**Gender Budgeting Workshops – (2020-completed).** Gender budgeting, training on international practice in parliamentary oversight, and independent scrutiny bodies were prepared with the WFD—2 sets or workshops organized with the WFD (as responsible party on the MAP Project) for CSOs. The series of the workshops was implemented in synergy with the UNDP WiP Project.

- Introductory Session on Gender Responsive Budgeting for CSOs (30 October 2020), total participants 14 (12-w; 2-men).
- Getting Resources for Women in Armenia Using Gender Responsive Budgeting for CSOs (19 November 2020), total participants 12 (11-w; 1-m)

The e-module on Gender-Responsive Budgeting is under development and to be accomplished in March 2021.

**A Comparative Analysis of Financial Oversight functions** is under development by WFD expert and planned to submit in January 2021.

As COVID-19 Response Measures, MAP Project assembled a team of experts to design the **Business Continuity Strategy and Contingency planning (2020-in progress)** for the National Assembly. The National Assembly set a focal point to identify the necessary protocols and sessions for MPs and staff as well as liaison points between the NA and the Government structures. Business Continuity and Contingency for the NA RA - inception reports developed

**Pre-legislative and post-legislative scrutiny (2020-in progress)**

The **NA Standing Committee on State and Legal Affairs** requested the MAP support in terms of both pre-legislative and post-legislative scrutiny:

- The Committee was supported in conducting the post-legislative scrutiny of the Law on Criminal Procedure that that is being amended for the first time after 20 years of implementation. 2 sessions with 40 participants (where 29 men and 11 women) (from different government bodies) in each were organized on 18-21 September 2020 and 26-27 September 2020. **Public hearing as next step was postponed due to the post-war crisis to January 2021.**
- Assistance to the Commission in Exercising Post-Legislative Scrutiny Control on Making Amendments to the Law on the State of Emergency on the Implementation of the Law since 31 March 2020. **The mobile session and the public hearing as next step were postponed due to the post-war crisis to January 2021.**

**ICHD** initiated the process of **post-legislative scrutiny (PLS) (2020-completed)** of the RA Law on Lake Sevan with the Standing Committee on Territorial Administration, Local Self-Government, Agriculture, and Environment. The Committee was also supported with relevant expertise on environmental policy regulatory outputs, including the post-legislative Monitoring Report on RA Law on Lake Sevan as per the Post-Legislative Monitoring Guide. ICHD developed a draft set of Procedures for the PLS Working Group at the NA Standing Committee, which includes roles and responsibilities of the group members and a Work Plan.

Regardless of the challenges of the pandemic and war in Nakorno-Karabakh, as well as the change of leadership in the Standing Committee, which directly affected the hired Senior Expert it was possible ensure the preparation of the Legislative Monitoring Report and submitted to the NA on 3 December.
Post-Legislative Scrutiny (PLS) sessions with MPs (2020-completed)

Three PLS workshops took place in the organisation of the WFD, participants indicated that the training gave a good overview about the topic as a new oversight tool in Armenia:

- An Introduction to Post-Legislative Scrutiny (PLS) and Comparative Experiences of PLS in Europe (21 July 2020), total 24 participants (21 women and 2 men, - 2 MPs (1-m & 1-w)
- Introduction to Post-Legislative Scrutiny and the experience in Europe - Legislative Aspects of Post-Legislative Scrutiny (PLS) (28 July 2020), total 8 participants (6 women and 2 men, 1-MP – 1m)
- Introduction to Post-Legislative Scrutiny and the experience in Europe - Practical Steps in Post-Legislative Scrutiny (PLS) (29 July 2020), total 10 participants (8-women and 2 men, 1-MP-1m)

The e-module on Post-Legislative Scrutiny is under development and to be launched in March 2021.

Small scheme technical support (2020 - completed) to the National Assembly’s Standing Committees (SCs); the project provides technical support to the National Assembly’s SCs in conducting on-demand research and policy analysis. The process for filtering the requests includes an initial decision at the committee level before consideration by the Cabinet of the Speaker and then UNDP. In the reporting period the following requests were accomplished:

- **Standing Committee on Health Care and Social Affairs**: the tool of PLS was in place to sustenance the committee on oversight survey on the implementation of articles on social and health issues on the Law on Local Self-Government in 10 urban and rural settlements of Armenia examined the level of oversight of the implementation of the Law on Local Self-Government articles on social and health issues. The Committee approved the methodology and the questioner, the survey to be implemented in mid-December 2020 and the report of the findings to be ready by mid-January 2021.

Findings will serve for the Committee to make the necessary amendments in the current law if needed.

- **Standing Committee on Regional and Eurasian Integration** technical support was provided to set basis for the action plan and basis for the legislative amendments where needed, in terms of:
  - study and analysis of logistics-refrigeration economy in the Russian-Georgian parts of the Lars checkpoint – the report is completed and submitted to the Committee's consideration;
  - analysis of the economic expediency of the operation of the Meghri free economic zone—the report is completed and submitted to the Committee's consideration;
  - study of international experience in the formation of free economic zones; Harmonization of EEU market regulations in energy, RA citizens (labor) in the territory of the EEU member states, and Opportunity for the participation of legal and natural persons registered in the territory of the Republic of Armenia—the report is completed and submitted to the Committee's consideration;
  - analysis of the draft Law on "Maritime Code of the RA"—the report is completed and submitted to the Committee's consideration;
  - defining the barriers for the subcommittee on cooperation with the regions of the EEU member states-postponed due to the martial state in the country.

It is planned a presentation on 16 December 2020 of the key findings of the conducted studies to the Committee members, to hold a Q&A session and finalize the reports. The key findings will be used by the Committee to priorities the activities of executive bodies for effective integration.

- **Standing Committee on Protection of Human Rights and Public Affairs** was provided with the requested analysis on hate speech, including mapping of hate speech laws, peer review of the draft Equality Law, review of criminal law and draft legislative reforms proposals, review of civil and administrative laws, the study of laws governing the internet and social networks. This will give the opportunity to review the laws and amend accordingly. The first draft is submitted to the Committee. It is planned to have a presentation meeting in mid-December 2020.
Standing Committee on Financial-Credit and Budgetary Affairs. The MAP experts jointly with the Committee members, prioritized the following topics planned for technical support to strengthen the capacities of the committee members.

- Proposals for Public Procurement and Property Legislative Reforms;
- Review of the Law on Audit Chamber;
- Report on baseline study on the budget process in Armenia.

The reports were submitted to the Committee and the presentation of experts was held on 07 December 2020, during which the key findings and key recommendations were presented. The committee members shared the comments and the 2nd round of discussion is to be held by the end of December after which the SC will set its priorities for action for 2021.

1.1.3. Support capacity development through the provision of training, expertise, and consultancy for the parliamentary inquiry mandate for overseeing the executive in line with the expanded Rules of Procedures

Review of and improvement of current processes, practices, and methodology of inquiry committees commenced the WFD. The Revision of the existing guides were done, and WFD working on best practice overview. Develop guidelines and the new set of recommendations is to submit in January 2021.

1.1.4. Enhance ethical and procedural standards of Standing Committees by drafting ethical reform proposal and guides on conflict of interest, respective rules, and procedures

Code of Conduct for MPs support/platform (2020-completed). The Project engaged consultancy for Human Rights mapping and the Transparency International Armenia for anti-corruption contribution to the Code. The CoE and OSCE are part of the team assisting the National Assembly in setting the ethics standards. Both reports were finalized and have been shared with the Parliament’s focal point at the end of June. The mapping set out the ethics system and development of legislative and regulatory processes to provide the application of requirements for MPs. The mapping was divided into two subject areas: a) anti-corruption aspects of integrity and accountability; and b) respect for human rights and ethical behavior. Based on the results and positive feedback, the request from the NA was sent for the initiated activities and lead the process to the drafting the respective law. The request was to conduct a Survey of MPs on Parliamentary Integrity within UNDP’s Modern Parliament for a Modern Armenia Project. In this reporting period the respective activities commenced, and the results were presented to the NA for consideration.

1.1.5. Provide high-level advisory support to the Presidium of the NA on strategic leadership, planning, oversight, management and - possibly – Parliament’s role in donor coordination

In the frames of the Advisory support to the NA Council the project works the expertise support is provided through the technical assistance described in 1.1.2.

Additional support to the committees shall be enabled through synergies between the UNDP Project as well as UN Agencies. The provision of all technical support and strategic advice is organized under close consultations and through a cross-party approach (planned for 2021).

Output 1.2. Deliver capacity development and coaching programmes to the National Assembly

1.2.1 Develop an organigram for a Research Center and validate with the beneficiaries (e-Learning, e-Archiving and data visualization for preparation of policy briefs, legal analysis, and background research

The Centre is very important for the National Assembly since it will serve as the point for the MPs for research, PLSs, studies, analysis and be the center for the answers of the MPs’ questions to be ready for the legislative reforms of the country. In this regard the development of the concept was crucial and in the reporting period the project accomplished the development of the Center. The aim was to provide research and analysis capacity to the NA and its MPs and to enhance the capacity of MPs and staff in law-making and policymaking through research and training components. The MAP Project produced a comprehensive roadmap, based on appropriate international best practices, which is realistic and feasible, affordable and sustainable, and considers the role and staffing of the current Expertise and Analytical Department, development of initial learning materials, and designing an initial set of training modules – both for in-class and online courses.
One of the key derived results of the Project is to set the RA NA Research and Training Centre (2020-in progress).
The MAP Roadmap recognizes two components of the Centre: Research and Training that will work independently but with certain synergies.
The concepts of the Research and Training components Roadmap developed. Induction seminar for MPs outline developed.
The next stage is to develop the action plan and the operational processes of the Center to commence from January 2021.

The Research Centre Roadmap indicates that the establishment of the Training Component of the Research Centre is expected to insure to the benefit of the RA NA, the nation, and the sub-region, by contributing immensely towards the deepening and sustenance of parliamentary democracy. Among others, the following specific benefits and outcomes are envisioned:

- Improved MPs and staff access to the knowledge and skills required to enable them to be innovative and effective in the performance of their roles and responsibilities.
- MPs and staff learning, and development are systematic and linked to the strategic and performance objectives of Parliament and their career development.
- CSOs, government institutions, and other stakeholders have access to training on the ethos of parliamentary democracy and relevant knowledge to engage in parliamentary governance effectively.

OUTCOME 2. Increased transparency and accountability of the National Assembly

The MAP Project commenced road-mapping digital transformation and e-parliament and continued with the provision of technical support in the development of software and design for a new parliamentary website with innovative apps for two-way communication with citizens.

Output 2.1 Tools for increased accountability and transparency of the National Assembly

2.1.1. Provide technical support in the development of software and design for a new parliamentary web-portal with the search engine per the national security standards and requirements established for information systems exposed to the Internet

Assessment of the IT infrastructure Capacities of the Parliament (2020-completed) of the Republic of Armenia. The assessment includes the status of the data center, server equipment, network, and IT staff capacity analysis. Concrete recommendations for enhancing the National Assembly’s IT infrastructure toward the implementation of new digital tools and systems are also provided. The list of action plan was developed based on the outlined recommendations.

Based on the assessment of the existing technical capabilities for digitalization of internal processes the Project prepared TORs for developing a strategy on “digital transformation” for the National Assembly aimed as COVID-19 Recovery Measure Technology transfer for a remote deliberation system as well as for development of a concept paper and solutions for an e- Parliament system tailored to the National Assembly’s needs.

Digitalization and e-Parliament (2020 inception stage completed) - The assessment of the existing technical capabilities for the digitalization of internal processes set a base for developing a strategy on “digital transformation” for the NA.

This team of digital experts worked on preparing necessary specifications for the development of the e-Parliament system.

- Digital Transformation: inception reports developed
- E-parliament: analysis of the legislation, amendments to the ROP and process design developed.

A presentation of the initial stage was presented at the NA in December as an introductory to the concept.
2.1.2. Provide equipment to support the operation of the portal and media site. The list of equipment and specifications (servers, network equipment, firewalls, switches, storage items, etc.) for the mentioned purposes will be produced through a technical assessment to Based on the IT assessment the list of equipment was developed, and the detailed specifications and the respective activities are envisioned in 2021.

2.1.3. Upgrade an Intranet system for digitalization of internal processes (upon request), the introduction of e-Learning tool and digital tools for MPs which will be applied in the capacity building process

The Project conducted special IT certification courses (Course 20740C: Installation, Storage, and Compute with Windows Server 2016 (2 participants-m); Course 20741B: Networking with Windows Server 2016 (2 participants-m); Course 20744-C: Securing Windows Server 2016 (2 participants-m) (2020-completed) for IT staff members of the National Assembly. These courses included the core aspects of IT infrastructure support and maintenance following the IT infrastructure assessment report. The Project also identified the area of advisory support for NA, including the security assessment, installation of the network, and implementation of the IT security policies.

2.1.4. Conduct technical and infrastructure assessment for the Parliamentary Visitor and Information Center (including equipment and library resources) during the inception phase.

The Project is providing support to establishing the National Assembly’s Centre on Parliamentary Democracy comprising:

- **Parliamentary Visitor Centre designed to facilitate citizen access to the National Assembly’s and to facilitate in person meetings with MPs (2020-completed).**
  The NA included the BoQ amount in 2021 parliament budget to launch the construction of the Parliamentary Visitor Centre.

- **Civic Education Centre is designed to promote civic education amongst the youth.** The Project engaged the Eurasian Partnership Foundation (EPF) to develop a methodology and curriculum for Civic Education (with the focus on youth) (2020-completed).
  The report was submitted to the NA for review. It is planned to launch the operation/launch of the concept in 2021.

- **The Outreach Centre is to improve awareness, processes, and relevance of the parliamentary work of the Institution of Parliament to increase levels of engagement between the public and the National Assembly (2020-in progress).** Given that historically the Parliament in Armenia has not focused on direct engagement with the public, the project will support the process to facilitate implementation of new and emergent technologies that could be used to transform the processes of parliament and, in particular to enhance engagement with the public. The respective company and expert were selected and the activities for the concept and operation is commenced. The first draft is submitted for review.
Output 2.2. Public awareness of parliamentary activities is enhanced

2.2.1 Design and implement campaign(s) to promote the web-portal and expand the scope of its visitors

Website (2020 in progress): The Project engaged a web development company to develop the new NA website. During the reporting period, the first stage is finalized relating to the frameworks and construction of the subpages. The design of the homepage is pending contracting of a branding development company currently underway. The development of the website started in May and is expected to be complete by the end 2020.

The first demo of the website is launched.

2.2.2 Support to the NA in developing a communication strategy and building capacity of the PR department

Development of branding and messaging guidelines for the parliament, particularly in relation to its engagement with the public. This will involve detailed engagement with staff and MPs on their ambitions for promoting the parliament within Armenia, and work with them on central messaging, and principles for an overarching marketing strategy.

MAP Project finalized the tender procedure for procuring services for designing innovative techniques for supporting the NA work, outreach, MPs’ peer-to-peer workshops, guides for constituencies and visibility and standards as well as online courses for the Training Centre. This is a process that will commence in the next reporting period but will last beyond March 2021.

OUTCOME 3. Legislative responsiveness, inclusivity, and participatory approach is embedded in MPs work

The Project contributed to fostering dialogue between the CSOs engaged in the Project as RPAs, as well as CSOs working with the NAs on budget, ethics and transparency matters through convened forums through various events allowing for CSOs to present their findings and raise various matters before MPs. One event was organized between the Committee on Finance and the consortium of CSOs that had signed the Memorandum of Understanding and the Committee and other under the auspices of the Responsible Parties.

The Project devised a system for periodic polling of public opinion to examine the impact of the legislative responsiveness and inclusivity.

Output 3.1 Dialogue and collaboration with civil society and citizens is improved

3.1.1 Capacitate the MPs to experiment with the latest thinking in user-centered design and behavioral approaches to make informed and evidence-based decisions

The MAP project established a synergy with the SDG lab to experiment with the latest thinking in user-centered design and behavioural approaches to make informed and evidence-based decisions. The discussions and planning of the activities and the scope was discussed and the definition of the areas to be launched in January 2021.

3.1.2 Support from three to five behavioral experiments to foster citizen engagement by both digital and traditional channels to articulate, aggregate and prioritize issues, to increase civic activism, engage in agenda-setting and decision-making processes.

During 2020 CSO-NA platform meetings hosted 259 representatives from different organizations: 41 MP’s, 44 participants from the international organizations, 15 state officials and 159 local CSO’s (44-m; 215-w).

- During the NA-CSO Platform meeting: “State support programs for the improvement of the demographic situation and childcare”, held in February 2020, jointly decided to present a legislative proposal to the Government aimed to expand the number of beneficiaries included in the Government social program supporting families with a child under 2 years. OxYGen provided later expertise support to strengthen the justifications of the proposal, as well as the statistics and financial calculations, but the Proposal, discussed in the MLSA and due to the lack of financial resources, was rejected.

- The Ministry of Labor and Social Affairs of the RA has preliminary approved the proposal submitted by the Platform in 2019 to make the paid leave also for the fathers for up to two months. The suggestion was welcomed but it was suggested to present an additional discussion among the stakeholders to calculate the possible financial burden conditioned by the issue and give a realistic regulation. During the above mentioned meeting on February, 2020 the issue was readdressed and as a result a draft law was initiated by a group of MPs, among which were MPs Sona Ghazaryan, Tsovinar Vardanyan, Lusine Badalyan, who were actively participating in the Platform discussions. The law was ratified on Sept. 25, 2020.

- As a follow up to the Platform meeting on DV issues in the light of COVID-19 pandemic, held on April 2020, the Deputy- speaker of the Parliament, Lena Nazaryan, informed the Platform members that a special letter was addressed to the Police and a meeting was held with the head of the Police to discuss the main problematic issues highlighted during the meeting by the SCOs and a woman who became a victim of DV.

You keep your finger on the pulse:
Heriknaz Tigranyan, MP from "My Step" faction referring to the Platform "Women and Armed Conflicts" discussion.

Zhanna Andranasyan, Deputy Minister of Education, Science, Culture, and Sport, in her speech emphasized the importance of the selected topic of the meeting for the country. She noted that the women’s rights agenda and its promotion in the field of education is one of the most important issues. She also welcomed the discussion on this topic within the framework of the CSO-NA platform, stating that it allowed having a profound discussion on the need to address the issues.

3.1.3 Create opportunities for MPs to shadow and experience the decision-making processes of the citizens most concerned by the draft legislation, explore the most relevant ones

The ICHD delivered three online Town Hall Meetings (23, 24, and 25 September 2020-completed) with about 120 participants (80-w; 40-m) from communities of Armatir, Syunik, and Gegharkunik, which were attended by the Chair of the Standing Committee on Territorial Administration, Local Self-Government, Agriculture and Environment. Overall, the THMs were a success, as indicated by the high rate of attendance, low drop-out rates, and positive comments by the participants. This has provided progress towards the expected output in terms of engaging NA Standing Committees in multi-stakeholder facilitated discussions.
All three THMs were well-attended, with about 40 participants on average in each. Overall, about 600 messages were generated during the discussions, which were analyzed and shared with the Standing Committee for their reference. The results are to be used for the respective legislative amendments in the sector or to organize public hearings. Given the political crisis in the country, the planned THMs for these Standing Committees have been postponed until the next quarter. The relevant change will be reflected in the revised project document to be prepared by the end of December.

Under the MAP Project the ICHD organized the following 6 OTRs and respectively 6 policy papers were issued:

Output 3.2. Citizen engagement in parliamentary processes is enhanced

A system for regular feedback and polling on the Parliament is being conceptualized to enable inputs on the National Assembly’s functioning and the use of project developed tools and resources. Innovative tools are introduced:

- **Public opinion poll**: the results to be seen by the end of December 2020
- **Youth engagement**: strengthening the engagement of youth through reviving a youth parliament and considering youth camps is under discussion between the NA and UNDP MAP in synergy with UNDP WEGE team
- **CSO-NA platform meetings**: OxYGen Foundation mapped the potential priority topics for CSO-NA platform meetings targeting Parliament factions (letters to MP’s, heads of NA factions) followed by: a) Selection and contracting of the expert team members for the development of a gender equality knowledge product for MP’s and their advisory staff; b) Planning of an online information campaign ahead of SDG HLPF 2020 targeting MPs, and; c) Updating and revision of the CSO-NA Platform website.
- **Town Hall Meetings**: ICHD finalized the adaptation of the Townhall Meetings (THM) on-line format, developed the scenarios, and initiated activities including negotiations with regional partners, details are presented in the section 3.1.3.
- **OGP**: “Introductory Session on Open Parliament within the Open Government Partnership for CSOs (23 October 2020), total 10 participants (8-w, 2-m) and “Introductory Session for Civil Society: Co-creating Open Parliament Commitments Under OGP” (11 November 2020), total 6 participants (5-w, 1-m)
- **Cooperation with SC**: The project convened a session between the Standing Committee on Financial-Credit and Budgetary Affairs and CSOs that have signed the memorandum of understanding with the committee but have not been able to find an avenue to engage directly with the Committee. The Project facilitated the meeting and raised the need for more exchange and engagement that will be developed in the coming months and especially in terms of budget oversight.
- **Interparliamentary Union**: Contribution to the 3rd Global Parliamentary Report in promoting the project and the Project led public consultation mechanisms.

### 3.2.1 Conduct rounds of campaigns through both traditional and innovative formats, to introduce digital tools for citizen engagements.

As one of the important indicators of the NA work, the Project procured a company to develop a custom-designed public opinion poll. During the reporting period the survey is conducted and the key findings to be released by the end of December 2020.

**Output 4. Project Management**

During the reporting period, the Project transitioned into the its second stage of full-fledged implementation of the strategic agenda. For this purpose, the detailed AWP on the project’s implementation was developed based on available funds.

Under the scope of the Project’s implementation and mobilization, the following was achieved:

- The project team recruited
- Synergies with other UNDP projects created: Human Rights, Rule of Law, Disaster Risk Reduction, Women in Politics, Kolba Lab, SDGs Lab, Environmental Portfolio, Impact Accelerator.
- Detailed work plan, budget, and contingency planning developed based on COVID-19 and Martial situation created
- The project governance and the management bodies were set
IV. GENDER MAINSTREAMING, CROSSCUTTING RESULTS, TARGETING

- Indicate the project’s alignment with the corporate Gender Equality Strategy Outcomes and Strategic Entry Outputs (page 16 GES).
- Indicate the project’s gender marker (GEN0-3) and gender-responsive and gender-transformative results vis-à-vis the prodoc framework (N.B. UNDP Country Programme Documents requests that all projects be designed and implemented at GEN2-3 level).
- Indicate also the project’s crosscutting results (e.g., youth empowerment, risk-informed development schemes, integrated development schemes), as well as the project’s contribution for Leaving No One Behind (LNOB) indicating particular target groups.

The project’s Gender Marker is 2 (significant contribution to gender equality). In particular, the project has facilitated implementation synergies with the UK/GGF-funded “Women in Politics” programme implemented jointly by UNDP and the OxYGen Foundation to strengthen integrated policy analysis and input, as well as cross-learning between both programmes. More specifically, UNDP, via the GGF-funded Women in Politics project will engage and support the National Assembly - NGO platform on issues related to gender equality and women’s empowerment facilitated by the OxYGen Foundation, including leadership advancement schemes for female parliamentarians, policy support work, and programmatic components of bottom-up dialogue platforms. In addition, the project, in partnership with OxYGen, is enhancing the scope of the topics to be discussed within the platform as well as through support of a series of complementary activities including policy dialogue, advocacy, etc. OxYGen facilitated and supported CSO-NA cooperation for gender-sensitive agenda for the Armenian Parliament. The Project developed recommendation for gender mainstreaming through short, mid and long-term approach as evident, where one of the first steps is conducting the Gender Audit (Assessment).

The Project is presently discussing the platform for policy dialogue with the UNDP Project Women in Politics on women represented in local councils. It will be demand-driven thematic approach.

Gender Mainstreaming of the RA National Assembly (2020-completed) aimed at enhancing parliamentary capacity for gender-responsive policymaking and the capacity of the Parliament to better understand gender concepts, equality, and gender mainstreaming, to better scrutinize legislation. Key findings: a strong system of interventions should be developed for gender equality-focused parliamentary assistance to avoid activities implemented in an ad-hoc and inconsistent fashion without a comprehensive understanding of their capacity for change.

Participatory Gender Assessment (Audit) (in progress-2020- 2nd draft is completed) As a follow up on the Gender Mainstreaming Analysis’ recommendations, the MAP Project launched from June to November 2020 to support the RA NA to identify and understand gender patterns within their composition, structures, processes, organizational culture, management of human resources, and in the design and delivery of policies and services.

Gender audit addressed the following five key areas: (i) gender issues in the context of the RA NA, and existing gender expertise, competence, and capacity-building; (ii) gender in RA NA’s objectives, programming, and implementation cycles, and choice of partner organisations; (iii) information and knowledge management within RA NA’s, and gender equality policy as reflected in its products and public image; (iv) decision-making, staffing, and human resources, and organizational culture; and (v) Based on the Gender Assessment the OxYGen Foundation will develop the implementation plan.
Gender equality electronic reference library (2020-completed) [havasar-infohub.am] webpage is in the advancement process. The new structure is being processed in line with the Project/donor visibility guidelines. The webpage consists of 5 main parts: “About us”, “NA-CSO Platform”, “Library”, “Be informed” and “Campaign”, which itself unites more than 10 sub-blocks. The library comprising of more than 600 key documents, research pieces and knowledge products accumulated under the 10 critical thematic parts is also a part of the webpage and is in the stage of digitalization.

The Gender Equality Toolkit (2020-completed) - it consists of a glossary of key terms, simple methodological guides (step-by-step TO DO manuals) on gender vocabulary and principles, as well as basic information on mechanisms and relevance of the gender mainstreaming, gender budgeting, gender impact assessment, gender audit, etc. The Kit provides with basic knowledge and tools and help to realize the importance of a serious expertise for better results.

CROSSCUTTING RESULTS AND TARGETING:

<td>7.</td>
<td>Gender Audit</td>
<td>National Gender Mainstreaming Expert was recruited and has produced an interim gender report in the catalytic stage of the project.</td>
<td>Support to Gender Responsive Budgeting – training and consultations</td>
</tr>
</tbody>
</table>
V. RISKS AND CHALLENGES

- Present the project’s issues, challenges and bottlenecks along with the suggested solutions.
- (1) Update the Project Risk Log in this report (2) and in Atlas (see a sample of UNDP standard risk log attached). N.B. Risks that are no further relevant shall not be deleted from the Log but a respective statement to be made in Risk treatment/management. SESP risks to be monitored in Risk Log.

The reporting period was marked by the COVID-19 first wave that affected the country at the unprecedented way as left the socio-economic impact. From the State of Emergency being extended until September, the NA continued to work throughout despite many MPs contracting the COVID-19 and three women MPs returning their MPs mandates. As a response UN supported the Government of Armenia in developing the Socio-Economic Impact Assessment on COVID-19 that the MAP Project served as a platform for presentation for the NA and including the Parliament in the shaping of policies that were traditionally reserved for the Executive Branch. The subsequent abolition of the State of Emergency for COVID-19 in September was followed by the 2nd wave of the pandemic as well as the outbreak of conflict in Nakorno-Karabakh on 27 September. The Project has in technical terms, continued with the implementation of activities per the AWP 2020. The NA MPs and the Cabinet of the Speaker continued to work on all project activities except the public events or events that foresee any live gatherings.

During the reporting period the MAP Project recorded the following risk:

- Escalation of conflict in the region disrupts implementation by diverting both the attention and resources away from the parliamentary support. **Mitigating measure in place:** Maintain and expand formal and informal networks (the Cabinet, Secretariat, Committees, and informal cross-party caucuses) with a broad spectrum of champions (MPs and Staff) across and within the project stakeholders and CSOs. In addition to convening regular risk updates, the Senior Management in close communication with the Speaker. Reassess the Contingency Plans should the conflict escalate.

The Project held consultations with experts and teams working on processes and the Responsible Parties. While some live activities such as training and town hall meetings, for example, are postponed, other activities, that require the least engagement of the national partners and online work, are in place. Should the conflict situation continue, the Project will immediately notify the Project Board of our next proposed plan of activities. Also, the National Assembly is not significantly affected by the conflict crisis, other than the need to hold urgent sessions, which were encouraging information for us. Hence, all activities planned in the Contingency Plan are ongoing with minor delays.

- Covid-19 pandemics and the State of Emergency-1st wave. An unprecedented risk has been posed by the outbreak of COVID-19 worldwide and in Armenia. After the WHO announced the global pandemic, and in light of the preventive measures against the spread of Coronavirus Disease (COVID-19), the Government of Armenia adopted restrictions on entry to Armenia, effective from March 2020 to September 2020 which was revoked in September 2020. During the reporting period, another wave with a precipitous rise of infected occurred. **Mitigating measure:** The Project Contingency plan and Adaptive Management Measures already in place. The Project switched to an online format, on-line meetings with teams of experts and events with CSOs and MPs took place as evident above in the Report. On-demand studies, analysis, strategies, apps are being developed. Innovative approaches for programme implementation continue to be sought after by the Project.

VI. PRODOC CHANGES, HORIZON SCANNING

- Present the analysis in your project’s field (horizon scanning) regarding new opportunities, emerged stakeholders/donors, etc and hence the necessary changes recommended to the project document.
- State changes to the project document (both proposed and approved by Project Board). For substantive revision, a documented LPAC endorsement is to be presented to the Project Board. [N.B. Necessary actions regarding revised prodoc will follow].
The Project is in the full implementation of its **contingency plan and adaptive management**. The purpose is to keep the project implementation’s second stage at a high level of performance and achievement of the defined targets. It is important to note that scope-wise, the project AWP has not substantively deviated from the project document, with some nuances occurring through the suggested COVID-19 response and contingency activities currently under consideration.

The new modified **Results and Resources Framework (RRF)** attached agreed with the donors in the reporting period and now incorporated the MAP Project findings and analysis, such as the Needs Assessment, Gender Mainstreaming Analysis, and Research and Training Centre Analysis amongst others. The new RRF introduced new qualitative, quantitative, and gender-sensitive indicators. The new RRF was reviewed in a consultative process with the National Assembly in terms of collecting inputs and benchmarks, Interparliamentary Union’s (IPU) set benchmarks and indicators were also used and well as the lessons learned from other UNDP Projects in transitional parliamentary democracies.

Agile and adaptive management of the MAP project goes beyond COVID-19 and is informed by the overall set of circumstances in which this project operates. Namely:

- First NA after the reforms of the political system in Armenia;
- The first comprehensive, multiannual project dedicated to the NA in Armenia, and;
- Overall fragile institutional and political setting in the country.

**Contingency Planning stressed the following:**

- Business continuity plan of UNDP
- Revision of workplan in line with new realities
- Change of the sequence, timeline and nature of activities
- NA still fully operational, digitalization of tools and services for inclusion
- Readiness to assist the NA to develop Crisis Management Plan

**VII. PARTNERSHIPS, COMMUNICATION, KNOWLEDGE MATERIALS**

- **Present planned and already conducted international, cross-sectorial and inter-agency cooperation instances. Differentiate by categories e.g., “South-South Cooperation”, “Inter-agency cooperation”, etc.**
- **Present a summary of communication and visibility activities with evidences (in line with Communication plan). It is recommended to include a table presenting events and links.**
- **Present the project’s analytical and knowledge products in a similar table as in the above bullet point.**
National and International partners were defined:

<table>
<thead>
<tr>
<th>Direct Partners and Donors</th>
<th>National:</th>
<th>International:</th>
</tr>

- WFD

The MAP Project makes several important platforms being embedded within the entire Legislative Branch as oppose to other projects working mainly with one ministry or an institution. Hence, the Project facilitates a myriad of opportunities for partnerships and synergies:

- **The MAP Project Platform for Socio-Economic Recovery** after COVID-19 gathering all UN Agencies in Armenia for a thematic approach with the NA Committees.
- **The MAP Project Parliamentary Development Partners’ Platform** – the Project initiated facilitation of quarterly meetings with partners supporting the work of the National Assembly of the Republic of Armenia and the NA representatives. The composition is USAID, IFES, GIZ AM, IRI, NDI, OSCE/ODIHR as well as the MAP Project Partners: the UK Embassy in Armenia, the Embassy of Sweden in Armenia. The platform provides space for exchange and identifying synergies.

Bilateral Cooperation:

- **OSCE**: cooperation around the requests of the NA SC on Defense and Security for the comparative analysis in the process of constitutional reform in the field of security.
- **COE**: cooperation around the Code of Ethics
- **DCAF**: cooperation around the requests of the NA SC on Defense and Security
- **EU**: cooperation for the request from the RA NA SC on Protection of Human Rights and Public Affairs on hate speech.

20
X. VALIDATION OF RESULTS (FIELD VISITS) AND QUALITY ASSURANCE

- Validation of results (field visit) document is to be prepared during Q2 and Q4 (i.e., Annual) reports. Include in the report the last field visit document.
- Formulate lessons learned in highly strategic way.
- Update quality assurance report in the system for ongoing projects quarterly (to be cleared by programme manager and endorsed by portfolio manager (Assurer role). It is submitted and approved in the Corporate Planning System annually (Q4) for the approval of UNDP Programme Manager (RR/Approver role), with prior clearance by Assurer/Portfolio manager. For closing projects, Project Closure quality assurance reports to be prepared and approved in the system and presented to the last Project’s Board Meeting along with the Final Report of the Project.

Lessons Learned

- Adaptive Management and Contingency planning for COVID-19 remained valid and even more sought after as a modality given the 2nd wave of pandemics and the armed conflict. Digitalization and digital online modalities remained high on the agenda and proved vital to avoid the postponing all the workshops and travel to 2021. As a result, the NA remained highly participatory in the Project Activities. One of the main events semi-live (launching of the Research Centre) was entirely prepared online through zoom interviews and meetings to be finally semi-online launched.
- Engagement of MPs in the very initial stage of the CSOs’ Platform meeting agenda setting proved to be very productive. For example, MPs from both positions and opposition contributed to the development of the Platform agenda as a result of which their involvement in the discussion was very active and contributing.
- Active involvement of Government representatives, which have been proposed during previous Platform meetings by MPs and stakeholders was addressed and during the OxYGen meetings where three Government representatives, out of which two Deputy Ministers participated in the event, thus triggering the attention and motivation of MPs to be involved in the discussions.
- Technology transfer: COVID-19 response under the caveat of the current situation is not business as usual and we proactively proposed solutions which lead to the same outcome we originally hoped for (e.g., support the NA to develop “crisis preparedness” strategy, action plan and protocols). Addressing accountability, human rights and rule of law issues but also the socio-economic impact and recovery made the Project a platform for engagement.
- Absorption Capacity: Online workshops were organized despite some initial reluctance by MPs for workshops, however testing and extension of the pandemic led to the online workshops become a new modality of functioning. These new modalities opened the door for digital transfer and demand that the Project will be exploring in the coming period.

XI. FUTURE ACTIONS, WORK PLAN

- Indicate key actions ahead and attach the multiyear AWP from Prodoc (UNDP template is attached).

The detailed AWP 2020 was developed and endorsed by the Project Board. The 2021 AWP will be finalized in January 2021 and presented to the Project Board approval.

Due to the situation raised there will be possible of 2 scenarios of the further developments in the country that may influence the project’s further possible implementation.

- National Assembly continues in current convocation
  - All activities go as originally planned with the full implementation of the Contingency Plan and Adaptive Management for COVID-19 and with possible minor delays in reaching MPs for interviews and meetings.
- National Assembly pre-term election
  - In this case the Project implements the adaptive programming whereby it would focus on working with the parliamentary staff, CSOs, international and national consultants. All initiated activities continue such as Digital Transformation, Business Continuity, e-parliament, research and training centre, outreach centre etc.
All parliamentary development programmes work with the pre-term elections possibility and have that in planning of their activities. Hence, the Project during those months/weeks focuses on:

- Work with the parliamentary staff, CSOs, citizens, expert analysis and research
- Develop the Induction Seminar for new MPs
- Develop set of follow up trainings for new MPS
- Publications and translations
- Outreach tools and techniques
- Innovative techniques for MPs trainings
- Digital modalities
- Training of parliamentary staff

Should the situation escalate further and affect the project activities more, the new proposed plan of activities will be for the Project Boar approval.

Key Activities:

- Whistle-blowers and Witness protection- overview of the best parliamentary practises will be conducted by WFD expert.
- Induction seminar for new MPs
- Research Centre development 2nd Phase
- Define and implement the new service’s knowledge management requirements.
- Database to track and manage work done.
- Initial six to twelve-month business plan
- Establish a process for quality control within the new service, involving its senior staff
- Training for staff
- OGP obligation – forming all-party caucus and developing two-way communication tools for citizens. Co-creation MPs and CSOs. Training of staff and MPs
- Master classes for MPs
- Communications and Outreach Strategy for the National Assembly
- Parliament and budget – online toolkit for MPs and Staff
- Constituency Guide
- Training Centre components interviews with the MPs and Parliamentary Management, finalisation, and presentations.
- Functional Analysis – finalisation
- Digital communication with citizens report by WFD
- Training on gender budgeting and by WFD
- Digital transformation and e-parliament roadmap
- Business Continuity and Contingency Planning of the Parliament meeting with IT staff and the Secretariat
- Town-hall meetings by ICHD
- CSO-platform meetings by OxYGen
- Continued work on the Code of Ethics
- PLS development of online tools
- Website of the NA – app for two-way communication with citizens
- Socio-economic recovery plan – MAP project platform to facilitate the NA role in policymaking on a thematic basis with the NA Committees
- Finalize the modalities of operation and the work plan of the Civic Education Centre
Results Framework

**Intended Outcome as stated in the 2016-2020 UNDAF/Country Programme Results and Resource Framework:**

**Outcome 2:** “By 2020, people benefit from improved systems of democratic governance and strengthened protection of human rights”.

**Output 2.4:** Frameworks and dialogue processes engaged for effective, transparent engagement of civil society and citizens in national and local development

**Outcome indicators as stated in the Country Programme Results and Resources Framework, including baseline and targets:**

*Indicator: Number of mechanisms in place for meaningful citizen participation in policymaking at local and national levels*

**Baseline:** 3 (Institute on Youth Studies, SMS polling tool, Kolba) 2013

**Target:** 6 (2020)

**Data:** Government data and reports, UNDP programme annual reports, media, Facebook, Twitter, evaluations

**Applicable Output from the UNDP Strategic Plan:**

2.2.2 "Constitution-making, electoral and parliamentary processes and institutions strengthened to promote inclusion, transparency and accountability”.

**Project title and Atlas Project Number:** 00082042-00091127 Modern Parliament for a Modern Armenia 2019-2022

1 UNDP publishes its project information (indicators, baselines, targets and results) to meet the International Aid Transparency Initiative (IATI) standards. Make sure that indicators are S.M.A.R.T. (Specific, Measurable, Attainable, Relevant and Time-bound), provide accurate baselines and targets underpinned by reliable evidence and data, and avoid acronyms so that external audience clearly understand the results of the project.

* Cost definitions and classifications for programme and development effectiveness costs to be charged to the project are defined in the Executive Board decision DP/2010/32.

** Changes to a project budget affecting the scope (outputs), completion date, or total estimated project costs require a formal budget revision that must be signed by the project board. In other cases, the UNDP programme manager alone may sign the revision provided the other signatories have no objection. This procedure may be applied for example when the purpose of the revision is only to re-phase activities among years.

### Output Verification Template

**Field Visit Report Format**

The content of the field visit report varies depending on the purpose of the visit. At a minimum, any field visit report must contain an analysis of the progress towards results, the production of outputs, partnerships, key challenges and proposed actions. **This format may be slightly adjusted.**

**Date of visit:** 14 December 2020  
**Subject and venue of visit:** Project 00082042-00091127 “Modern Parliament for a Modern Armenia” (MAP) Project office, on-line  
**Purpose of the field visit:** End-year review of project results

| 1. Quality of legislative oversight and policymaking is improved | During the planning of the second stage of implementation, the project drafted a contingency plan that considers the plausibility of the originally planned activities under the project scope, and several responsive measures to the COVID-19 and the war of Nakorno-Karabakh crisis and emergencies that the country appeared. | 1.1: Capacities of the legislature to analyse, draft and amend legislation is enhanced  

Output 1.2. Deliver capacity development and coaching programmes to the National Assembly | All COVID-19 second wave that affected the country at the unprecedented way as left the socio-economic impact. From the State of Emergency being extended until September, the NA continued to work throughout despite many MPs got sick. As a response UN supported the Government of Armenia in developing the Socio-Economic Impact Assessment on COVID-19 that the MAP Project served as a platform for presentation for the NA and including the Parliament in the shaping of policies that were traditionally reserved for the Executive Branch.  

The outbreak of conflict in Nakorno-Karabakh on 27 September, the Project has in technical terms, continued with the implementation of activities per the AWP 2020. The NA MPs and the Cabinet of the Speaker continued to work on all project activities except the public events or events that foresee any live gatherings. | The interviews and surveys put back some of the outputs to get the progress as targeted due to:  
- Martial state of the country for the war  
- COVID restrictions | - New platform was created in 2019 for dialogue of stakeholders to meet every 3 months: 2 (in May and October) meetings were possible to hold and 1 is planned by the end of December 2020.  

- Develop the AWP 2021 considering all the risks and get ready for the PBM and approval of the AWP. |
| 2. Increased transparency and accountability of the National Assembly | | 2.1 Tools for increased accountability and transparency of the National Assembly  

Output 2.2. Public awareness of parliamentary activities is enhanced | | | |
| 3. Legislative responsiveness, inclusivity, and participatory approach is embedded in MPs work | | 3.1 Dialogue and collaboration with civil society and citizens is improved  

Output 3.2. Citizen engagement in parliamentary processes is enhanced | | | |
PROJECT PERFORMANCE—IMPLEMENTATION ISSUES
[If the person conducting the field visit observes problems that are generic and not related to any specific output, or that apply to all of them, he or she should address the ‘top three’ such challenges.] List the main challenges experienced during implementation and propose a way forward.

The key challenge of the project to achieve the targets and delivery:
- Internal political developments after war in Nagorno-Karabakh, which may disrupt the preparations for and implementation of the project: the project has 2 acceptable scenarios
- Delays in decision-making on key needs by the counterpart: to keep the daily communication with the focal point to get the approvals on key deliverables
- Escalation of the conflict further: to adapt the project activities according to the overall UNDP security guidance

LESSONS LEARNED
Describe briefly key lessons learned during the project:
- Adaptive management and Business continuity as key for assessing the project progress on weekly basis and adapt accordingly

Participants in the field visit:

Biljana Ledenican, UNDP MAP Project CTA

Alla Bakunts DG Portfolio Manager
