

United Nations Development Programme

Region: Asia and the Pacific

Project Document

Asia-Pacific Regional Crisis Prevention and Recovery

Expected RP Outcome(s): Improved and effective capacity of Governments and CSOs to prevent, manage and respond to conflict and natural disasters
Enhanced capacity to carry out socio-economic activities for early and sustainable post-conflict/disaster recovery

Expected Output(s): Regional, national and CSO staff with knowledge and skills to proficiently use conflict risk analysis and gender responsive assessment tools and methods
Personnel from national and regional institutions have knowledge and skills to integrate conflict and disaster risk analysis & risk management tools into national plans, strategies and budgets
Regional Surge operational capacity to respond to natural and man-made crisis developed in Asia-Pacific Region
Guidance Note on strategic direction and programme tools on economic recovery developed and results in sustainable post-conflict/disaster economic recovery programming

Implementing Partner/Executing Entity: UNDP/RCB

Responsible Parties/Implementing Agencies: UNDP/RCB

Narrative

To address the persistence of conflicts and disasters in the region, the project will give primacy to building regional and national capacity to prevent conflict, manage risk, respond to and recover from crisis. The project will: (i) develop gender responsive conflict analysis methods and approaches; (ii) strengthen national and regional capacity to integrate conflict and disaster risk assessments into regional and national policies and strategies; (iii) build regional surge operational capacity for rapid response and immediate damage assessments; and (iv) restore the foundations of development by providing technical advisory services for sustainable economic recovery. Proposed activities will be supported by building on the current Regional Program for Capacity Building for Risk Reduction and Recovery in Tsunami affected countries; the Pacific Crisis Prevention and Recovery regional project, and through systematic exchange of lessons learned and good practices.
