1. Did the project pro-actively identified changes to the external environment and incorporated them into the project strategy?

- 3: The project team identified relevant changes in the external environment that may present new opportunities or threats to the project's ability to achieve its objectives, assumptions were tested to determine if the project's strategy was valid. There is some evidence that the project board considered the implications, and documented the changes needed to the project in response. (all must be true)
- 2: *The project team identified relevant changes in the external environment that may present new opportunities or threats to the project's ability to achieve its objectives. There is some evidence that the project board discussed this, but relevant changes did not fully integrate in the project. (both must be true)*
- 1: The project team considered relevant changes in the external environment since implementation began, but there is no evidence that the project team considered these changes to the project as a result.

Evidence:

Les matériaux de construction devant servir à la construction des habitations détruites n'étaient pas disponibles sur place; ce qui a entraîné un retard dans la réhabilitation des habitations. Ainsi au moment du démarrage du projet, il se trouvait que certains bénéficiaires avaient déjà réhabilités leurs maisons. Ce qui a amené l'équipe du projet en étroite collaboration avec les comités locaux de gestion du projet à mener une nouvelle enquête pour identifier de nouveaux bénéficiaires. Ces changements ont été portés à la connaissance de la structure nationale de coordination de la réponse.

- 3: Systematic and structured feedback was collected over the project duration from a representative sample of beneficiaries, with a priority focus on the discriminated and marginalized, as part of the project's monitoring system. Representatives from the targeted groups were active members of the project's governance mechanism (i.e., the project board or equivalent) and there is credible evidence that their feedback informs project decision making. (all must be true)
- 2: *Targeted groups were engaged in implementation and monitoring, with a priority focus on the discriminated and marginalized. Beneficiary feedback, which may be anecdotal, was collected regularly to ensure the project addressed local priorities. This information was used to inform project decision making. (all must be true to select this option)*
- 1: Some beneficiary feedback may have been collected, but this information did not inform project decision making. This option should also be selected if no beneficiary feedback was collected
- Not Applicable

Evidence:

Un guide méthodologique de ciblage des bénéficiaires a été développé et partagé avec les principaux acteurs. Dans le cadre de la mise en œuvre et du suivi du projet, des comités ont été mis en place dans les localités affectées. Ces comités, composés d'un représentant de la commune, d'un représentant du chef des villages, de représentants des familles affectées, d'un représentant d'une association de femmes, d'un représentant d'une association de jeunes et d'un membre du comité local du Croissant Rouge. Ces comités ont accompagné le processus d'identification et de validation des familles vulnérables sur la base des critères préétablis, ont participé à la validation de la typologie pour la réhabilitation des maisons détruites et ont supervisé le processus de distribution, la répartition des kits ainsi que la réhabilitation des maisons.

- 3: Knowledge and lessons learned from internal or external sources (gained, for example, from Peer Assists, After Action Reviews or Lessons Learned Workshops) backed by credible evidence from evaluation, corporate policies/strategies, analysis and monitoring were discussed in project board meetings and reflected in the minutes. There is clear evidence that changes were made to the project to ensure its continued relevance. (both must be true)
- 2: *Knowledge and lessons learned backed by relatively limited evidence, drawn mainly from within the project, were considered by the project team. There is some evidence that changes were made to the project as a result to ensure its continued relevance. (both must be true)*
- 1: There is limited or no evidence that knowledge and lessons learned were collected by the project team. There is little or no evidence that this informed project decision making.

Evidence:

Les réunions d'échanges entre les beneficiaires des differentes localités ont permis d'améliorer les pratiques de construction et de faciliter ainsi la mise en œuvre du projet. De même les leçons apprises lors de la construction des premières habitations ont permis d'améliorer les techniques de construction.

9. Was the project's M&E Plan adequately implemented?

- 3: The project had a comprehensive and costed M&E plan. Baselines, targets and milestones were fully populated. Progress data against indicators in the project's RRF was reported regularly using credible data sources and collected according to the frequency stated in the Plan, including sex disaggregated data as relevant. Any evaluations conducted, if relevant, fully meet decentralized evaluation standards, including gender UNEG standards. Lessons learned, included during evaluations and/or After-Action Reviews, were used to take corrective actions when necessary. (all must be true)
- 2: The project costed M&E Plan, and most baselines and targets were populated. Progress data against indicators in the project's RRF was collected on a regular basis, although there was may be some slippage in following the frequency stated in the Plan and data sources was not always reliable. Any evaluations conducted, if relevant, met most decentralized evaluation standards. Lessons learned were captured but were used to take corrective actions. (all must be true)
- 1: *The project had M&E Plan, but costs were not clearly planned and budgeted for, or were unrealistic. Progress data was not regularly collected against the indicators in the project's RRF. Evaluations did not meet decentralized evaluation standards. Lessons learned were rarely captured and used. Select this option also if the project did not have an M&E plan.*

Evidence:

le template utilisé pour ce projet d'urgence est l'initiation plan.

Management Response:

le cadre de résultats comportait des indicateurs SMART qui permettaient de suivre l'état d'avancement d projet et de s'assurer de l'atteinte des résultats fixés.

It met in the agreed frequency stated in the project document and the minutes of the meetings were all on file. There was regular (at least annual) progress reporting to the project board or equivalent on results, risks and opportunities. It is clear that the project board explicitly reviewed and used evidence, including progress data, knowledge, lessons and evaluations, as the basis for informing management decisions (e.g., change in strategy, approach, work plan.) (all must be true to select this option)
- 2: *The project's governance mechanism met in the agreed frequency and minutes of the meeting are on file. A project progress report was submitted to the project board or equivalent at least once per year, covering results, risks and opportunities. (both must be true to select this option)*

The project actively coordinated with other relevant ongoing projects and initiatives (UNDP or other) to ensure complementarity and sought efficiencies wherever possible (e.g. joint activities.) (both must be true)
- 2: *The project monitored its own costs and gave anecdotal examples of cost efficiencies (e.g., spending less to get the same result,) but there was no systematic analysis of costs and no link to the expected quality of results delivered. The project coordinated activities with other projects to achieve cost efficiency gains.*
- 1: There is little or no evidence that the project monitored its own costs and considered ways to save money beyond following standard procurement rules.

Evidence:

Le suivi des propres couts du projet a été effectué d'une manière efficiente afin d'économiser de l'argent. Ainsi, pour acquérir des matériaux de construction la stratégie adoptée a été de contacter des fournisseurs locaux, mais qui ont des contrat avec d'autres fournisseurs basés à Madagascar.

There is evidence that data and lessons learned (including from evaluations /or After-Action Reviews) were used to inform course corrections, as needed. Any necessary budget revisions were made. (both must be true)
- 2: There was at least one review of the work plan per year with a view to assessing if project activities were on track to achieving the desired development results (i.e., outputs.) There may or may not be evidence that data or lessons learned were used to inform the review(s). Any necessary budget revisions have been made.
- 1: *While the project team may have reviewed the work plan at least once over the past year to ensure outputs were delivered on time, no link was made to the delivery of desired development results. Select this option also if no review of the work plan by management took place.*

Evidence:

Le projet n' a pas nécessité de modification.

Management Response:

lors de la formulation du projet d'une durée de 6 mois, toutes les dispositions ont été prises pour éviter d'éventuelles changements. Etant donné, qu'il s'agit d'un fonds pour sauver des vies.
