RIGHTS, EMPOWERMENT AND COHESION (REACH) FOR RURAL AND URBAN FIJIANS PROJECT

Reach the furthest behind first

From
the People of Japan

Empowered lives.
Resilient nations.

The REACH Project aims to promote peace building, social cohesion and inclusiveness.

The Project conducts awareness raising of the social, economic and legal rights enshrined in the Constitution of the Republic of Fiji, provides access to the services associated with these rights, and also strengthens institutional capacity to deliver these services. A mobile service delivery approach is undertaken to reach communities throughout all of Fiji with the focus to reach the furthest behind first.

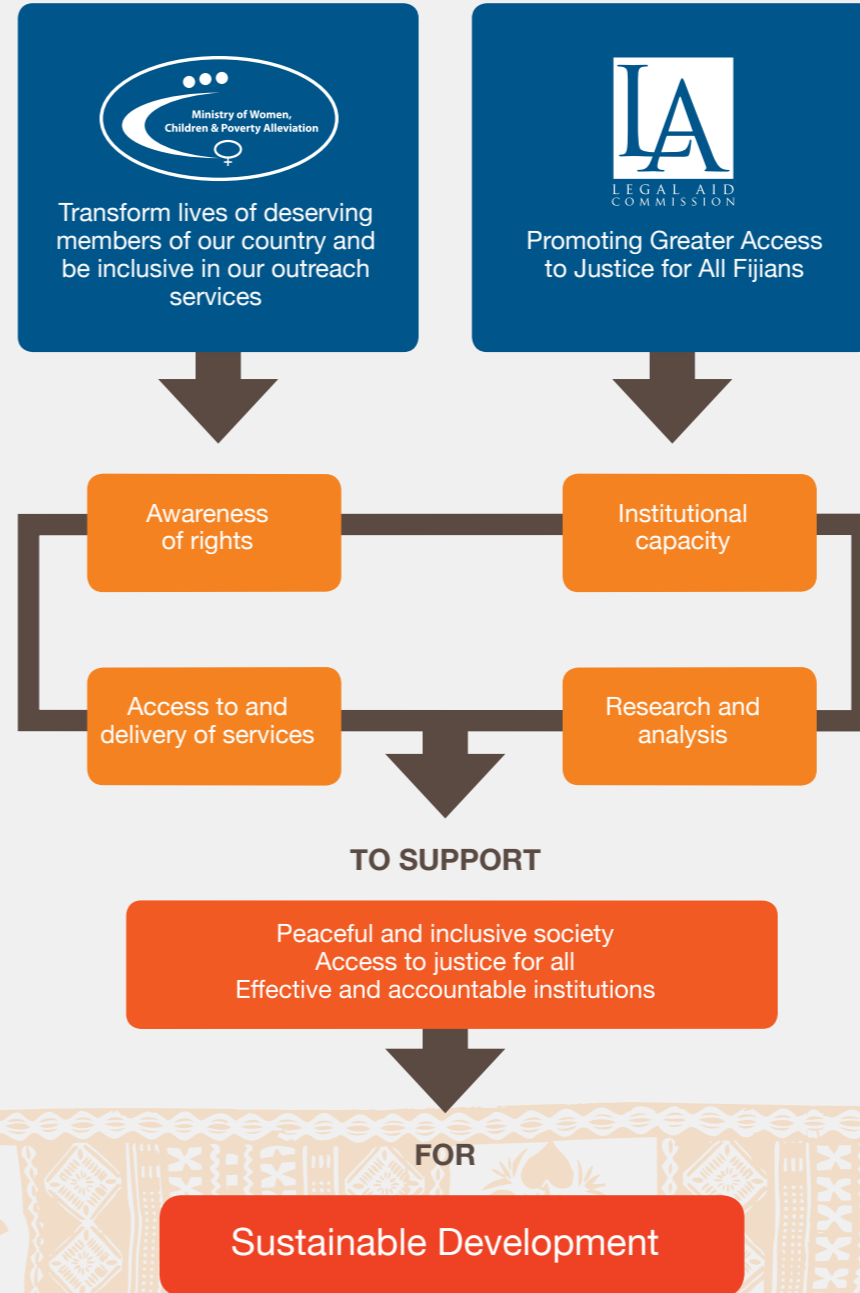

The Fiji Government has endorsed the global Sustainable Development Goals which aim to ensure that no one will be left behind and endeavour to reach the furthest behind first.

At **Goal 16** there is commitment to promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels. At **Goal 5** there is commitment to achieving gender equality and empowerment of all women and girls.

The REACH Project supports the achievement of these goals.

- Increased awareness in urban, rural and maritime communities, of constitutional rights in the areas of social and economic wellbeing and justice, focusing on legal aid, through the provision of mobile teams.
- Enhanced delivery of the services provided by the Ministry of Women, Children and Poverty Alleviation, and the Legal Aid Commission through the provision of mobile teams visiting urban, rural and maritime communities.
- Strengthened capacity of the Ministry of Women, Children and Poverty Alleviation, and the Legal Aid Commission through support to strategic planning, monitoring of results and support of coordination for effective and coordinated service delivery to urban, rural and maritime communities.
- Policy making informed and based on evidence through research and analysis through a pilot initiative utilizing an innovative approach to track service delivery from start to finish and building on successful global initiatives being accessed through South-South Cooperation arrangements.
