### Brief Description

The objective of the Green Climate Fund (GCF) Readiness Programme is to support the Government of Ghana in strengthening their national capacities to effectively and efficiently plan for, access, manage, deploy and monitor climate financing in particular through the GCF once it is fully operational. The Programme will target two important aspects of the GCF approach, access to funds and private sector engagement, both of which will require significant preparatory work in many countries before GCF financing will be possible at scale. The GCF Readiness Programme will focus on a range of preparatory activities to a) build and strengthen the institutional capacity of national entities in Ghana, with a focus on enabling direct access; and to b) help Ghana prepare climate change mitigation and adaptation investment strategies, programmes and projects, including through the active involvement of the private sector.
