Project Description:

Initiation plan to strengthen RBLAC's capacity for strategic engagement and collaboration with the UN System, to improve the effectiveness of its work in LAC.

The UNDP Administrator has called on us to be disruptive, to do things differently and better, and to actively shape the Next-Generation UNDP. In order to succeed in meeting this important goal, we also need greater capabilities—particularly for promoting engagement and collaboration across and within the UN system. While in the process of building these capabilities internally, RBLAC will require the strategic support of external actors to ensure that it can continue to effectively support our partners in the region in achieving their development aspirations.

Initial resources from UNDP funds will be allocated for the first year of operation. It is expected that additional resources will be mobilized from the RBLAC's Strategic Partnerships Unit for the second year, targeting current and new partners/donors
