2nd SUBSTANTIVE REVISION

PROJECT BRA/16/004 – Support to Technical and Vocational Education and Training in Haiti through the Establishment of a Vocational Training Center and Related Institutional Strengthening

CONTEXT

Project BRA/16/004 – “Support to Technical and Vocational Education and Training in Haiti through the Establishment of a Vocational Training Center and Related Institutional Strengthening” addresses the imperative to pursue the expansion of technical and vocational education, job generation and social promotion in Haiti.

The project rests on four pillars of intervention: (i) building a fully equipped vocational training center; (ii) performing institutional strengthening actions to support *Institut National de Formation Professionnelle* (INFP); (iii) offering a training and educational program for the target population, supported by a set of community outreach activities carried out by the National Services for Industrial Learning (SENAI), from Brazil, with the support of INFP and other partner entities with a view to raise boys’ and girls’ interest to pursue technical and vocational education; and (iv) project management, monitoring and evaluation.

A thorough analysis of the Haitian labor market will be considered to identify current demand and map future demand for skilled workers by local industry and the potential for self-employment. In this sense, the project will promote exchange of good practices in education between Brazil and Haiti, learning from the Brazilian experience with its nationwide network of vocational schools offered by SENAI.

Project implementation refers to UNDP Brazil as the project implementing partner, SENAI as the provider of technical expertise and the Brazilian Cooperation Agency (ABC) as the responsible party for the monitoring, evaluation and project co-coordination, and UNDP Haiti as the implementing agency of specific outputs of the project. Direct beneficiaries of the project include the INFP and the *Ministère de l'Education Nationale et de la Formation Professionnelle* (MENFP).

The rise of the Covid19 pandemic by the end of the first quarter of 2020, brought new challenges to the project, not only causing further delays on the construction of the Vocation Center of Les Cayes, but also forcing the project to develop creative alternatives to implement both the hard and soft components, such as online training.

UNDP-Brazil, SENAI and ABC proposed to carry out online training courses until December 31, 2020, in parallel to the construction of Les Cayes to improve project execution. The proposal was approved by the project board at the Fifth Steering Committee Meeting held on 29 July 2020. The

On July 1st 2021, the 6th Steering Committee Meeting was held and the following decisions were made:

- The budget to complete the works of the Vocational Center at Les Cayes and also the Vocational Center at Fort Liberté, including the retaining wall, was approved. The Vocational Center of Saint Marc will no longer be built. The substantive revision will be approved to reflect the budget, including the transfer of the budget from the soft component to the hard component.
- The substantive revision of the project will include budget for SENAI to act as an Implementing Agent in the amount of USD 2,421,551.73.
- The continuation of the training activities proposed by SENAI was approved. An amendment to the current Letter of Agreement will be signed in order to reflect those activities.
- The purchase of equipment for Fort Liberté and additional actions proposed by the INFP (small purchases, air conditioning, generator set, inverter, furniture, and equipment) was approved.
- The substantive revision of the project will be validated in letter form and the signatures collected electronically by the Docusign platform.

REVISION OBJECTIVES AND JUSTIFICATION

The Steering Committee approved the completion of works of two Vocational Centers: Les Cayes and Fort Liberté. Due to time and security constraints, the third Vocational Center at Saint Marc will no longer be built. Not only the Vocation Center of Les Cayes will be equipped, but also that of Fort Liberté.

The Steering Committee decided to approve the continuation of the training activities carried out by SENAI during the last quarter of 2020. The 30 instructors and 12 managers and administrative support staff, selected by the *Institut National de Formation Professionnelle* (INFP), were trained and will be able to act as multipliers to train other Haitian government professionals, as well as to give courses to its community.

The online training courses held in 2020, due to the context of the Covid19 pandemic, were considered successful and for this reason, the training courses held by SENAI using the same platform will be continued. Nevertheless, in-person training courses will be carried out in Brazil (technical stage) in order to consolidate the knowledge acquired throughout the online courses.

UNDP Brazil will be in charge of purchasing the equipment for both Vocational Centers at Les Cayes and Fort Liberté and will count with SENAI's technical assistance to receive the equipment and provide guidance to the local team regarding the installation and operation of the equipment.

In order to complete the works of the two Vocational Centers and the retaining wall of the Les Cayes VTC, budget from the soft component will be transferred to the hard component. The new budget will be reflected in the present project substantive revision.

This project revision has the following objectives:

- Extend the project duration until December 31st, 2022.
- Include SENAI as an Implementing Agency partner (IA Code 014196) and reflect the training activities proposed by SENAI at the 6th Steering Committee. The total budget foreseen for the proposed activities is USD 2,421,551.73.
- Update the activities for 2021 and 2022 and the Annual Work Plans.
- Reflect the new project budget as proposed by the project board at the 6th Steering Committee.

BUDGET

The new project budget will be distributed as follows: USD 10,230,000.00 for the hard component and USD 6,600,000.00 for the soft component. The total amount of the project budget remains the same.
