II. MANAGEMENT ARRANGEMENTS

- The management arrangement will remain same as specified in the approved project document. The Ministry of Environment, Forest and Climate Change will be responsible for the technical implementation of the project as a whole. Given the size and complexity of the project, MoEFCC coordinates the project activities through a project management unit. A National Project Director (NPD) supported by a Project Management Unit (PMU) is responsible for implementation of the work programme and coordination of the various activities.

Fund Flow Arrangements and Financial Management:

- Under the National Implementation (NIM), as per the existing programme management arrangements, funds will be channeled through the accounts of the Government of India i.e. UNDP would transfer funds to CAAA as per the approved Annual Work Plan. IP shall make suitable provisions in its annual budget to receive UNDP funds.

- Funds would be reimbursed to CAAA based on the request from the IP. The request from IP will come on the standard Fund Authorization and Certificate of Expenditures (FACE) form duly signed by the National Project Director or person assigned/delegated by IP. No funds shall be released by UNDP without prior submission of a duly filled and signed FACE form. Unspent funds from the approved AWP's will be reviewed in the early part of the last quarter of the calendar year and funds reallocated accordingly. Only after 80% of last advance and 100% of all the previous advances are spent will the next advance be released. Also Partner needs to report interest earned immediately to UNDP through next submitted FACE Form.
- Funds can be transferred as: a) direct payment to vendors or third parties for obligations incurred by the Implementing Partners on the basis of requests signed by the designated official of the Implementing Partner; and b) direct payments to vendors or third parties for obligations incurred by UN agencies in support of activities agreed with Implementing Partners
- Separate books of account shall also be maintained in order to ensure accurate reporting of expenditure and providing a clear audit trail
- The Implementing Partner may request UNDP to provide support services for project implementation. These services may include procurement, recruitment, purchase of goods and services, and organisation of training activities and workshops. UNDP recruitment and procurement rules and regulations will apply for the services provided. All direct costs which are attributable to the provision of these services (direct project costs) will be charged to the project in accordance with in accordance with the policies decided by UNDP decided by UNDP's Executive Board.

Audit: In support of fiduciary good practice and to facilitate scheduled and special audits, each Implementing Partner receiving funds from UNDP will provide UNDP or its representative with timely access to: a) all financial records which establish the transactional record of the fund transfers provided by UNDP; and b) all relevant documentation and personnel associated with the functioning of the Implementing Partner's internal control structure through which the fund transfers have passed. The findings of each audit will be reported to the Implementing Partner, DEA and UNDP. As part of the process, each Implementing Partner will: a) receive and review the audit report issued by the auditors; b) provide timely statements of the acceptance or rejection of any audit recommendation to the UNDP that provided the funds; c) undertake timely actions to address the accepted audit recommendations; and d) report on the actions taken to implement accepted recommendations to the UNDP on a quarterly basis.

Project Closure: Project Closure: The project will be closed as per UNDP norms and assets (if any) will be disposed of or transferred to IP in consultation with them during the life cycle or at end of the project.

III. MONITORING FRAMEWORK AND EVALUATION

In accordance with the programming policies and procedures outlined in the UNDP User Guide, the project will be monitored through the following:

- A. **QUARTERLY PROGRESS REPORT:** The Implementing Partner, in consultation with the project teams, will provide brief quarterly updates on progress against planned activities and budgets. These reports will be provided in the format provided in Annex 1. These reports will be consolidated, as required, by UNDP's quality assurance team for progress review meetings.
- B. **ONE TIME RISK LOG:** Based on the initial risk analysis, a risk log shall be activated in Atlas and regularly updated by reviewing the external environment that may affect the project implementation. This will be completed by UNDP project assurance team in consultation with the Implementing partner. Use the standard [Risk Log template](#)
- C. **QUARTERLY FINANCIAL REPORT:** The Implementing Partner (IP) will make use of the Funding Authorization and Certificate of Expenditures (FACE) to request for advances and report on expenditures made on a quarterly basis, or more frequently if agreed. The implementing partner must submit the FACE at the end of each quarter, within the first 10 days of the following quarter. Together with the FACE, the project has to send a copy of the bank statement as up to the date of the end of the period reported and the itemized cost estimates of the activities to be funded. The FACE form has to be certified by the designated official from the IP.
- D. In case a project **EVALUATION** is required, please indicate the justification and proposed timing for the evaluation. A project evaluation is required only when mandated by partnership protocols such as GEF. However, a project evaluation may be required due to the complexity or innovative aspects of the project. Midterm evaluation is planned in 2016 and final evaluation in year 2018.
- E. **ANNUAL REVIEW REPORT:** An Annual Review Report shall be prepared by the Project Manager and shared with the Project Board and the Outcome Board. The reporting format in Annex 2 will used to provide brief description of results achieved in the year against pre-defined annual targets.
- F. **ANNUAL PROJECT REVIEW.** Based on the above report, an annual project review shall be conducted during the fourth quarter of the year or soon after, to assess the performance of the project and appraise the Annual Work Plan (AWP) for the following year. In the last year, this review will be a final assessment. This review is driven by the Project Board and may involve other stakeholders as required. It shall focus on the extent to which progress is being made towards outputs, and that these remain aligned to appropriate outcomes.
