Project Overview

United Nations Development Programme (UNDP), in partnership with **Hindustan Coca-Cola Beverages Pvt Ltd (HCCB)**, **Hindustan Unilever Limited (HUL)**, **HDFC Bank and Coca Cola Foundation India (CCIF)** is strengthening existing systems and processes in India to reduce the impact of plastic waste on human life and environment. This partnership aims to promote sustainable plastic waste management practices in India, thus empowering the Safai Sathis (waste pickers) and moving into a circular economy. It will enhance segregation, collection and recycling of all kinds of plastic along the waste value chain creating resource efficiency and better accessibility to all stakeholders. This is in line with the Government of India's Swachh Bharat (Clean India) Mission, Solid Waste Management Rules, 2016 and Plastic Waste Management (Amendment) Rules, 2018.

Project Implementation Cities –

- (i) **HCCB** – There are currently **27 cities** in which the project is implemented – Bengaluru, Mumbai, Goa (Bicholim & Cacora), Hyderabad, Chennai, Bhubaneswar, Cuttack, Ghaziabad, Ahmedabad, Vijayawada, Patna, Jaipur, Dehradun, Ujjain, Aurangabad, Tirupati, Trivandrum, Jammu, Jodhpur, Pimpri-Chinchwad, Surat, Ranchi, Vadodara, Varanasi, Delhi and Howrah
- (ii) **HUL** – The project is implemented in **1 city** – Mumbai (4 wards – H-West, R-North, K-East and Suvidha Centre-Malad (Mumbai)
- (iii) **HDFC** – The project is being implemented in **6 cities** – Panaji, Delhi-NCR, Rishikesh, Dehradun, Haldwani & Uttarkashi (will be initiating the implementation of project in Uttarkashi after onboarding the Service Provider and exploring opportunities with GNIDA for initiating the project in Greater Noida)
- (iv) **CCIF** – The project will be operating in **3 cities**: Kolkata, Lucknow and Amritsar.

Project progress and activities:

- (i) **HCCB - Waste Transaction details in this Quarter** - The waste collected in this quarter is **5726.929 MT**.

Representatives from BMC and State Govt. have also participated in the workshop. <p>Cuttack –</p> <ul style="list-style-type: none"> Collection from Jagatpur MCC CMC - The collection of municipal dry waste has started from April month. <p>Ranchi – Jammu –</p> <p>Aurangabad –</p> <ul style="list-style-type: none"> Collaboration with UNDP and CARPE in Aurangabad City set up Plastic Gullak at MGM Hospital to get collect Recyclable dry waste in Gullak by People by a purpose of Dry waste management Habit. <p>Trivandrum –</p> <ul style="list-style-type: none"> Activity for Female SHGs on awareness and hygiene
2	Trainings	<p>Bhunabeshwar –</p> <ul style="list-style-type: none"> MCC Training Non-biodegradable waste including plastic waste segregation training been given to Safai sathis at micro composting center (MCC). The purpose is to provide to hand holding support to these safai sathi and starting the plastic waste collection from them. A training programme was conducted for the BOVs and LCVs driver engaged in door to door collection at TTS MRF. The main aim of the programme was to coordinate and make the drivers understand how to do transportation of dry and wet waste to the TTS MRF & MCC. CORE has conducted one training programme for safai sathis at ward no. 46 on segregation of plastic and other dry waste. As part of the partnership of CORE with BMC for dry waste collection from wards, source segregation training is being demonstrated to households at ward level. They are encouraged and motivated to segregate wet and dry waste separate at household level.

		<ul style="list-style-type: none"> To strengthen the door to door collection in Bhubaneswar, CORE has received 15 LCVs from BMC. This will scale up the plastic waste collection from household source. Moreover, female safai sathis will be deployed as driveres for these LCVs <p>Cuttack –</p> <ul style="list-style-type: none"> CYSD in collaboration with CORE initiated the skill training programme for family members of Safai Sathis. Under the training programme the selected candidates will be trained on hospitality and tele-retailing and in addition spoken Hindi/English, data entry in excel sheets. CORE with the help of UNV of Utthaan Programme identified the eligible candidates for enrolment and had an initial discussion with the trainers. SK. Khursid case study for Utthaan Project 20 Safai Sathis were formed on to two SHGs and engaged in operation of vehicles for collection of segregated waste in different wards of Cuttack city. Under Utthaan project these Safai Sathis were linked and have been formed into SHGs, the UNV is working to link these SHG to bank and open accounts.
3	Health Check up/Camps	<p>Mumbai –</p> <ul style="list-style-type: none"> 10 Health camps were conducted in 10 locations of Mumbai
4	Webinars/Virtual Roundtables	<ul style="list-style-type: none"> Case study of a transgender engaged in collection of waste and vehicle operation in CMC.
	Swachhta Kendra Visit	<p>Bhunabeshwar –</p> <ul style="list-style-type: none"> UNDP India Procurement head Mr. Arun along with Mr. Prabhakar and Mr. Sanjeev (UNDP) has visited the TTS MRF. During their visit the team made them understood how the recording keeping is currently happening at the MRF. Mr. Jayanta Kumar, Head Equilizer Venture has visited TTS MRF to understand the types of plastic coming to the MRF and processing technique. <p>Mumbai –</p> <ul style="list-style-type: none"> Mr. Kailash Watekar has taken the charge as new AE of T ward visited the T ward Center to on 29th May 2021. In this visit they observed the Whole process of Dry waste management, the work system of Swachhta Kendra and discussed with Safai Sathi, Operators, Helpers and Supervisors as well as give the positive feedback. <p>Jammu –</p> <ul style="list-style-type: none"> Mayor Jammu Municipal Corporation Shri Chander Mohan Gupta visited MRF today to review the operations and he also laid foundation stone of toilet complex. JMC Mayor Chander Mohan Gupta along with Commissioner JMC kick start construction work of Weigh bridge at Bandurakh

		<p>for the smooth functioning at MRF. Also, they oversee the operations going on in MRF and appreciated the collection and segregation process going on in Swacchta Kendra.</p> <ul style="list-style-type: none"> Team from IIT Jammu visited today in our SK to understand our program as they are also into some research project on plastic waste management.
	COVID Relief Activities & Vaccination	<p>Bubhaneshwar –</p> <ul style="list-style-type: none"> Keeping the sudden spike in number of Covid-19, CORE has distributed 1000 nos. of N-95 masks to safai sathis, MCC workers and citizens in Bhubaneswar. 16 nos. of safai sathis were vaccinated for Covid-19 with support from Bhubaneswar Municipal Corporation. Moreover, Covid-19 on duty ID cards are issued to safai sathis by BMC for their free movement during the lockdown. Mask, gloves and sanitizers were distributed to safai sathis and LCV drivers by CORE in Bhubaneswar through co-financing SATO hand washing equipment has been distributed among safai sathis. It requires less water for hand washing and very much user friendly. This is through co-financing. <p>Cuttack –</p> <ul style="list-style-type: none"> CORE distributed Soap, Mask and SATO hand washing station to 50 Safai Sathis working with us for collection of plastic waste. 18 Safai Sathis have been vaccinated who are directly engaged with the PWM cuttack project <p>Aurangabad –</p> <ul style="list-style-type: none"> Relief activities and awareness activities for community CARPE - Considering the government regulations 10 safai saathis over 45 years of age were vaccinated under UNDP and CARPE. A vaccination awareness was conducted with the he Safai Saathis prior to their vaccination. <p>Ranchi –</p> <ul style="list-style-type: none"> An awareness campaign in consequence of Covid-19 was conducted in April 2021 among Safai Sathi and RWA (Residential Welfare Association) members. There were masks made available by UNDP through co-financing with Reliance Foundation. The masks were distributed among 25 onboarded safai sathi and over 50 members from various RWA.

G-South (Stree Mukti Sanghatana)			
1	Team Meeting	A meeting was organised to formally introduce the team members of UNDP and SMS who will be involved in PWM project at G South ward. The SMS team was briefed on the basic information like project outline, project objectives and expected results. Project strategies, baseline survey, Swachhta Kendra layout and design, machinery procurement, vehicle contract with BMC were some other points of discussion during the meeting.	16 personnel attended the meeting. The SMS team received a first-hand information on the project structure and expected deliverables under the project.
2	Meeting with Architects	A meeting was conducted with Mr. Sameer Shinde, an Architect, along with his 2 colleagues to discuss the layout and structural design for the proposed Swachhta Kendra to be established at G-South.	8 personnel attended the meeting. Different possibilities around Swachhta Kendra structure were discussed in detail. The Architects will be visiting the proposed site in weeks' time. The decision and details on structural design will be finalized post site visit.
3	Meeting with ward officials	A meeting was conducted with ward officials at G-South. Mr. Pandit, Asst. Engineer, Mr. Vivek Athawale, Sub-Engineer, Mr. Krishna and the officials from UNDP and SMS attended the meeting. During the meeting, permissions on shed hand-over, requirement of water and electricity connections, vehicle arrangements for municipal dry waste and other essential requirements were communicated.	6 personnel attended the meeting. The meeting was helpful in conveying the required support from ward authorities for initializing the project activities. The existing shed at G-South is constructed through the local municipal funds of Mr. Datta Narvankar, Corporator, G-South so wards officials suggested to seek the consent of local corporator.
4	Meeting with ward officials	A virtual meeting was conducted with Mr. Sharad Ughade, Assistant Commissioner, G-South to discuss the process and procedures of hand-over of existing shed at G-South for PWM project operations. Plans were discussed for hand-over of shed in the possible presence of Mr. Aditya Thackeray, Cabinet Minister of Tourism and Environment on 5th Jun 2021. Mr. Vivek Athawale, Sub-Engineer and Ms. Aparna	3 officials from UNDP and SMS attended the meeting. Mr. Sharad Ughade, Assistant Commissioner, G-South expressed his view on visiting the site identified for Swachhta Kendra operations.

		Susarla, Project Officer, UNDP attended the meeting.	
5	Meeting with Corporator, G-South	A meeting was conducted with Mr. Datta Narvankar, Corporator, G-South ward to update him on the ongoing PWM project operations in the city and the organizations associated with the project- The meeting was attended by Mr. Pandit, AE, G-South, Mr. Athawale, SE, G-South and officials from UNDP and SMS.	Mr. Narvankar expressed his interest in visiting the identified site and any other operational Swachhta Kendra to understand the project operations. The same day Mr. Narvankar accompanied to the Swachhta Kendra at Chembur managed by SMS to know more about the operations. Mr. Narvankar enquired about the machineries, process flow, Safaii Saathis and other day to day operations at Swachhta Kendra. Mr. Narvankar liked the idea of making products from MLP laminate boards.
6	Meeting with Assistant Engineer, SWM, G-South	An introductory meeting was conducted with Mr. Pandit, Assistant Engineer, SWM at G-South ward office to seek support in getting the list of Junior Overseers (JOs), bulk waste generators (BWGs) in the ward, route map of dry waste vehicle and to discuss the possibility on issuance of an ID cards for the SMS team.	4 personnel attended the meeting. The SMS team received a listing of Junior Overseers (JOs), bulk waste generators (BWGs) in the ward.
7	Meeting with Sub Engineer SWM, G-South	A meeting was conducted with Mr. Athawale, Sub-Engineer, Mr. Krishna Kamtekar, Junior Engineer and Mr. Umesh Vegda, ML Chowky JO at newly inaugurated G South Swachhta Kendra at Mahalaxmi, to introduce them about the project framework, objectives, planned activities and to seek their support and cooperation in smooth implementation of the project activities within the ward. Officials from SMS and UNDP attended the meeting.	9 personnel attended the meeting. The ward officials received an information on the project framework and assured the support to the project. During the meeting, the contact details of the concerned Junior Overseers and other ward officials were received, and WhatsApp group was formed to regularly update on the project implementation activities.
8	Training on Microgreen	A medical check-up camp on 14th June 2021, resulted that majority of Safaii Saathis have low level of Haemoglobin in blood. Taking a note of this serious medical issue, SMS management and team organized an informatory training session on microgreens in order to create awareness about	23 personnel including staff and Safaii Saathi attended the training. During the training session, staff and Safaii Saathi were sensitized about the importance of good Hb level and were demonstrated on how to grow microgreens.

		<p>nutritional value of microgreens in routine diet. Microgreens (micro greens) are a tiny form of young edible greens produced from vegetable, herb or other plants. They range in size from 1" to 1 ½" long, including the stem and leaves. A Microgreen has a single central stem which has been cut just above the soil line during harvesting.</p>	<p>5 staff members from SMS, 2 staff members from UNDP along with 16 Safaii Saathi attended the training session.</p>
9	<p>Exposure Visit to Swachhta Kendra at R North</p>	<p>An exposure visit was organized for SMS team at Swachhta Kendra at R North managed by RaddiConnect. The objective of the visit was to understand the day-to-day Swachhta Kendra operations, types of machineries, work management and other administrative procedures followed at Swachhta Kendra. Team of 4 members (Male=2, Female=2) from SMS visited the Swachhta Kendra.</p>	<p>The visit clarified the Swachhta Kendra operations, sorting of collected dry waste material into various categories, maintenance and machinery operations, registers and documents maintained at Swachhta Kendra, concerns of citizens and their expectations were among the specific learnings during the visit.</p>
