Date: 11.05.2022
Travel Dates: 11.05.2022

Purpose of Travel:

Monitoring the distribution of medical products (condoms and lubricants)

Brief Summary:

At the time of the visit, the organization distributed medical products (condoms and lubricants) to 4 outreach workers working with MSM (Zhorobek u B., Sarybaev B., Kurmanbaev.). The distribution was carried out by Tyupin Vladimir, the employee responsible for the warehouse, 2 outreach workers took the medical devices in the morning.

Condoms and lubricants are distributed by outreach workers without boxes, by the piece. Boxes of condoms and lubricants are cut into pieces.

The distribution of medical devices is carried out according to the employment of employees.

At 100% employment, 360 people are covered, at 75% - 270 people, at 50% - 180 people, at 25% - 90 people.

Medical products (condoms and lubricants) are issued for a week.

For one week of condoms, 3 standard condoms, 1 flavored condom and 1 lubricant are provided.

Recommendations:

For NGOs:

1. Continue the practice of distributing condoms and lubricants without boxes, boxes are destroyed after breaking.
2. Continue enhanced monitoring of the distribution of medical supplies to outreach workers.

Distribution:
