#### UNDP/NRA-00120365/2022/006

30 June 2022

Dear Ms Kim,

# Subject: Submission of the Synthesis report and 2021 annual certified financial statement

I would like to extend our gratitude to the Government of the Republic of Korea and Korea International Cooperation Agency (KOICA) for your generous contribution to support the National Regulatory Authority for the UXO/Mine Action Sector in Lao PDR (NRA).

With reference to the grant agreement signed on 14 May 2019, I am pleased to provide you with the Synthesis Report (May 2019 - March 2022) and 2021 annual certified financial statement.

Should you have any questions and or clarifications, please do not hesitate to contact us at any time.

Thank you again for your on-going support to the UXO sector and we look forward to continuing our fruitful collaboration.

Yours sincerely,

DocuSigned by:

Catherine Phuong Deputy Resident Representative and O.I.C.

Ms Myungjin KIM Country Director KOICA office in Lao PDR

- CC: Ms. Sisomboun Ounavong, Director General, DIC, MPI
  - Mr. Daovy Vongxay, Director General, DIO, MoFA
  - Mr. Yangkou Yangleuxay, Director General, DPC, MoLSW
  - Mr. Chomyaeng Phengthongsawat, Director General, NRA
  - Mr. Sangjun Kim, Deputy Resident Representative, KOICA

#### Attachment

- 1. Synthesis Report (May 2019 March 2022)
- 2. 2021 annual certified financial statement

Synthesis Report (2019 – 2022): Support for the Institutional Strengthening of the National Regulatory Authority for the UXO/Mine Action Sector in Lao PDR

30 June 2022

# 1. Project Summary

Project Title	Support for the Institutional Strengthening of the National
	Regulatory Authority for the UXO/Mine Action Sector in Lao
	PDR, which is part of the overall project "Moving towards
	achieving SDG18- Removing the UXO obstacles to
	Development in Lao PDR"
Organization	The National Regulatory Authority for the UXO/Mine Action
	Sector in Lao PDR (NRA), under the Ministry of Labour and
	Social Welfare (MOLSW), Government of Lao PDR.
	Sisangvone village, Saysetha District. P.O.Box 7261,
	Vientiane Capital, Lao PDR Telephone: +85621262386
Date of	30 <sup>th</sup> June 2022
Submission	
Target	Lao PDR
Country	
Project	UXO contaminated provinces
Location	
Beneficiaries	Direct Beneficiaries: the NRA Office in Vientiane, as well as
	the 13 NRA provincial offices; the 7 UXO humanitarian teams
	of the Lao People's Army.
	· · · · · · · · · · · · · · · · · · ·
	Indirect Beneficiaries: UXO operators, the UXO sector, and
	people living in UXO contaminated provinces.
Project	May 2019 – March 2022
Period	Reporting period: 14 <sup>th</sup> May 2019 – 31 <sup>st</sup> March 2022
Goal and	
	Goal: To support the institutional strengthening of the NRA in
Objectives	Lao PDR, thus enhancing the coordination and regulation of
	the UXO sector.
	Objective Contribute to achieving the actional Containable
	Objective: Contribute to achieving the national Sustainable
	Development Goal 18 (SDG18) to remove the UXO obstacle
	to development.
Project	US\$ 2,970,297 through UNDP
Budget	(2019: USD1,049,913, 2020: USD958,228, 2021:
	USD962,156) with coordination levy USD29,703
	Partner government funding: In-kind
Monitoring	Monitoring:
and	1. Track results progress- annually
Evaluation	2. Monitor and manage risk- quarterly
	3. Reflect on lessons learned- at least annually
	4. Annual project quality assurance- annually

	<ul> <li>5. Review and make course corrections- at least annually</li> <li>6. Project report- annually and at the project end</li> <li>7. Project review- biannually</li> <li>8. Joint monitoring missions</li> </ul>
	Evaluation: 1. Mid-term evaluation in 2020 2. Project final evaluation in 2021
Changes of the plan	N/A

# 2. Executive Summary

## 2.1. Background

Lao PDR is among the most heavily bombed countries per capita in the world, with over two million tons of munitions dropped on it during the Indochina War (1964-1973). This includes 270 million sub-munitions from cluster bombs, up to 30% of which may have failed to detonate. While the number of accidents has dropped markedly from 302 in December 2008 to 63 in December 2021, UXO contamination remains as a threat to the safety of population especially children, and an obstacle to rural development in poor and remote areas. Around 80% of people in Lao PDR live in rural areas, where livelihood opportunities are often uncertain, and food and nutrition security indicators are particularly poor. 42 of the 46 poorest districts in the country are UXO contaminated, UXO contamination can lead to loss of livestock, restricted access to land, food insecurity, insufficient basic infrastructure, reduced crop production, increased transport costs, disability, employment shortages, and other negative socio-economic outcomes. The exact total extent and location of contamination in the country is currently uncertain despite decades of systematic survey.

The UXO sector in Lao PDR consists of the National Regulatory Authority for the UXO/Mine Action Sector in the Lao PDR (NRA), Lao national Unexploded Ordnance Programme (UXO Lao), humanitarian Non-Governmental Organizations (NGOs), several accredited commercial companies providing UXO services, and seven humanitarian clearance teams within the Lao People's Army (Unit 58). According to the Prime Minister's Decree No: 67/PM, dated 12th February 2018, the overall coordination and sector lead from the Government side is mandated to rest with the NRA through the Ministry of Labour & Social Welfare (MLSW). Since the mid-1990s, UNDP has been the leading development partner supporting the UXO sector in Lao PDR. UNDP, with other partners, have helped create the two key state institutions in the UXO sector, namely UXO Lao (the main National clearance capacity) and the NRA (the Regulatory Authority). The Minister of Labour and Social Welfare chairs both the NRA Board and the UXO Sector Working Group. UNDP also serves as Co-Chair of the UXO Sector Working Group, together with the United States. The Sector Working Group is tasked to coordinate all partners concerned in the sector and achieve development effectiveness.

In Lao PDR, the UXO and explosive contamination challenge is highly relevant to all 17 United Nations (UN) Sustainable Development Goals (SDGs), as it places constraints on all aspects of sustainable development and poverty eradication. As a crosscutting theme across all SDGs, in 2016 the Government of Laos also adopted an 18th national-level SDG – "Lives safe from UXO". The crosscutting nature of the UXO and explosive hazard challenge places UNDP Lao PDR in a highly relevant role, as globally UNDP acts as the SDG facilitator and enabler across the UN system. The United Nations Mine Action Strategy 2019-2023 also emphasizes the role of UNDP on linking mine action to development and achievement of the SDGs and helping UXO/mine-affected communities achieve resilience and sustainable development. The new ten-year National Strategic Plan for the UXO sector, SPF III, aims at reducing the impact of UXO and guides the implementation of several important international conventions and declarations, including the CCM, the Convention on the Rights of Persons with Disabilities (CRPD) and the United Nations Economic and Social Commission for Asia and the Pacific (UNESCAP) Declaration on the Decade of the Disabled. It also details the goals of the government and its development partners over the 2021-2030 period and the planned actions for reducing the humanitarian and socio-economic threats posed by UXOs to the point where the residual contamination and challenges can be adequately addressed.

# 2.2. Operational Overview/implementation structure

# 2.3 Logical Framework of the Project

Outcome 1: Redu	Outcome 1: Reduce the number of UXO casualties from 300 to less than 40 per year							
Output 1.1	Activity 1.1.1	Indicator 1.1.1	Base- line (2018)	Target Q2 2019 - Q1 2022	Cumilative Performance 2019-2022 <sup>1</sup> (%)			
Risk Education message are conveyed by local media	Broadcasting of UXO Risk Education messages through local media	Number of provinces broadcasting local media Indicator 1.1.2 Number of listeners to the UXO Risk Education	5 Base- line 20,200	5 Target 23,700 per year	5 (100%) 5 provinces namely: Vientiane capital (VT), Khammouane (KM), Sekong (SK), Salavan (SLV) and Champasack (CHP). Cumilative Performance 2019-2022 (%) 152,360 people in total (214%) 2019: 22,800 2020: 45,160 2021: 84,400			
		radio Programme s (Number of participants in the games/quiz through radio programme s)	Deer		Since people mostly stayed home and spent more time at home ever since Covid19 hit the world, they had more time to listen to the radio programs. As more people made phone calls to answer the quiz, the number of quiz participants became higher in 2020 and 2021.			
Output 1.2.	Activity 1.2.1	Indicator 1.2.1	Base- line	Target	Cumilative Performance 2019-2022 (%)			
NRA and UXO stakeholders gain a better understanding of capacity building to village volunteers for UXO risk education	Conducting UXO Risk Education through Lao Village Volunteers in partnership with mass organisations	Number of provinces with capacity building support to village volunteers to conduct UXO Risk Education	0	2 provinces	2 provinces (100%) A training workshop for village volunteers was held on November 19-23, 2019, so they gained knowledge and skills in conducting UXO risk education activities in villages. The trained village volunteers conducted activities in 44 villages in Xiengkhouang and Khammouane provinces in 2020 and 2021 and 11,794 people benefitted from these acitivities.			
Outcome 2: Ensur treaty obligations		al and rehabilitat	ion needs o	of all UXO su	rvivors are met in line with

## **3. Performance Review**

- 3.1. Progress Review
- (I) Achievement of development agenda

Sustainable Development Goal 18: Lives Safe from UXO is a unique initiative by the Government of Lao PDR to address the problem of unexploded submunitions that have claimed the lives of tens of thousands in UXO contaminated provinces. SDG 18 strongly relates to SDG 11 on sustainable and resilient cities and communities and SDG 16 on peace and justice and strong institutions. Furthermore, the project has impacted a number of substantive development goals including SDGs 1, 5, and 13:

 SDG1 (Poverty eradication): Decent livelihoods and social protection are restricted with the contamination of UXO, which intensifies poverty and continues to kill and injure people. UXO contamination hinders food production, as communities' access to agricultural land is limited as a result of the contamination. UXO clearance is a key development priority of the GoL and is deep-rooted and a crosscutting challenge in the socio-economic development of the country. The National UXO Survey and associated Data Collection has helped the GoL better understand the extent of UXO contamination and prioritize clearance in support of national goals. Cleared areas enable safe living and give better opportunities to locals for livelihood development and jobs.

In Lao PDR, UXO is now being considered as a crosscutting issue relevant to all other sectors in the 9<sup>th</sup> NSEDP (2021-2025). Giving the UXO sector its own output ("Output 6: UXO clearance and lives safe from UXO" under "*Outcome 3: Gradually enhanced people's material and mental well-beings as per the direction of food and income security*" according to the 6<sup>th</sup> draft 9<sup>th</sup> NSEDP shared by the GoL in March 2021) would elevate the UXO issue to a national level, increase awareness and adequately reflect the importance of SDG 18. In line with this, Safe Path Forwards (SPF) III (2021-2030) has been developed and "UXO Sector Multi-Year Work Plan" (2022-2026) will be developed to ensure greater alignment with the 9<sup>th</sup> NSEDP.

- SDG 5 (Gender mainstreaming): see (IV) below
- SDG 13 (Climate action and environment protection): see (V) below

### (II) Impact on direct and indirect beneficiaries

Direct beneficiaries are defined in the project as the NRA offices both in Vientiane as well as the 13 provincial offices, in addition to the 7 UXO humanitarian teams of the Lao People's Army (Unit 58). As for direct beneficiaries, NRA personnel received numerous trainings and capacity building support that are of great importance to their work including trainings on quality assurance and control and clearance. Operators and other stakeholders including the seven UXO humanitarian teams have been supplied, through support from KOICA, with necessary trainings and equipment throughout the years from 2019 to date. UXO operators were also trained on MoU singing procedures, and other regional NRA officers were trained on information management.

According to the final evaluation conducted in 2021, overall coordination in the sector has improved. The NRA is more active in engaging with donors and other stakeholders than in the past. The capacity of the NRA has increased during the last four years. Day-to-day operations are generally considered to be good. Survey is now evidenced-based which has resulted in more munitions being cleared per hectare. The creation and expansion of Unit 58, humanitarian clearance teams drawn from the military, has increased national operational capacity. Also, financial management and procurement have improved over the project period. Donor reporting has improved, and information is now shared regularly on NRA and UXO Lao websites. Information management has improved at the national level and further support is planned.

As for ultimate beneficiaries, the project conducted activities aiming at reducing the number of UXO causalities significantly. In 2019, only 25 causalities were reported from a total of 20 incidents, which resulted in 9 death and 16 injuries. A setback was noticed in the following year, 2020, where the number of reported causalities increased to 33 people. Nevertheless, the number was still below the target set by the National Strategic Plan's Mid-Term Review in 2015 for the UXO sector of 40, which is also below the target set by the 8<sup>th</sup> National Socio-Economic Development Plan. In 2021, the number of reported causalities increased from 33 to 63 (47 injured and 16 killed) – the highest number in ten years. The working theory behind the increase in numbers is the informal expansion of land usage for agriculture production by residents without UXO clearances. Five incidents have been reported so far as of March 2022. The hike in numbers of causalities highlights the need to continue supporting the UXO sector to ensure the elimination of all harms associated with UXOs.

In addition to that, risk education was spread and mainstreamed through mass organizations in partnership with the NRA. In 2020-2021 for example, village volunteers, trained in 2019, conducted activities in 44 villages in Xiengkhouang and Khammouane provinces and 11,794 people benefitted. A total of 152,360 people has been reached through radio programs in five provinces Vientiene capital, Khammouane, Sekong, Salavan, and Champasak.

The radio programs in MRE reached the people more than planned during the project implementation. The reason was that people mostly stayed home during the lockdown; they had more time to listen to the radio programs. Many people made phone calls to

answer the quiz, and therefore the number of quiz participants became high. "I always listen to your programs, but never had a chance to call because it's not always convenient to call during fieldwork" (a quote from one quiz participant).

## (III) Spin-off effects

There are two spin-off effects to the project that were not anticipated in the original project conception. Firstly, in regard to equal opportunities in employment, we have seen a surge in the recruitment of seven women as operators in Unit 58 (Humanitarian Army Team) which gives effect to women empowerment. Secondly, regarding the regional expansion, throughout the past years, the coverage of the project has expanded from only working on Bolikhamxai province, to focusing on other affected provinces where there are no operators.

## (IV) Gender mainstreaming

The harm caused by UXOs was not gender neutral. Hence, the project invested early on in the mainstreaming of gender rights. In early 2019, the NRA has worked closely with UN Women and Lao Women's Union to produce a training manual entitled "Manual for Trainers on Gender Mainstreaming in the UXO Sector Lao PDR". The manual was printed in both Lao and English and was distributed to the NRA provincial offices, as well as being made available at the NRA central office and on the NRA website through the following link:

http://www.nra.gov.la/resources/Manual%20for%20Trainers%20on%20Gender/BOOK% 20UNWOMEN%20ENG compressed.pdf.

The manual was also presented at the regional workshop on Gender Equality and Empowerment in ASEAN Mine/Explosive Remnants of War Action, with copies being made available for participants in both the Lao and English language. A representative from the NRA VA Unit was in attendance at this workshop, enabling an enhanced understanding of how to effectively mainstream Gender within VA activities. The UNDP and NRA have secured funds for Gender mainstreaming activities from 2022 onwards, under the phase three of KOICA's support to distribute this manual further and hold training seminars to instruct training personnel within the UXO sector on how to better mainstream Gender into all their activities, planning and strategic planning.

#### (V) Environmental consideration

Positive steps were taken towards environmental protection by the NRA in the years reported. In 2019 for instance, there has been a significant reduction in the use of plastic bottles, which could be seen at the Project Board meeting and the TWG meetings, with a plan of moving towards being completely plastic-free by 2021. There was a move away from the use of plastic information banners (now using bio-degradable) at any NRA event, as well as a sizeable decrease in the number of handouts being printed and distributed to participants. This progress was preserved in the following years.

# 3.2. Implementation Strategy Review(I) Sustainability

In the onset of the project, the smooth and sustainable transfer of outcomes to the national partners was at the heart of the project. This was achieved by the contentious investment in the capacity of the governmental partners. This was achieved early on by the support of KOICA in 2019 which witnessed the establishment of a new, long-term approach towards UXO clearance through the training and equipping of five humanitarian teams of the Lao People's Army. The sustainable element is furthered by the fact that the salaries of these teams are covered by the Ministry of Defense. The teams conduct survey and clearance in Bolikhamxay province, a UXO-contaminated province where no other UXO Sector operator is present. In 2019, a further two additional teams were trained and equipped under Phase two of KOICA's support. Since 2015, KOICA has been the unique development partner to provide financial support to these humanitarian UXO clearance teams through United Nations Development Programme (UNDP) oversight management. From its side, the UNDP provided Technical Advisory Support to the NRA through the deployment of a Chief Technical Advisor (CTA), Finance Technical Advisor, a Monitoring and Evaluation Specialist and a Programme and Partnership Support Officer, all of whom provided full-time support to the NRA as needed and support strategic planning, project management and financial management of the NRA.

(II) Participatory/ Consultative processes

The project prioritized a participatory approach in the engagment of all relevant stakeholders in order to foster a local ownership and ensure the sustinability of the project. Article 9 of the CCM requires State Parties to draft legislation to implement the CCM provisions. Through support from KOICA throung UNDP, the NRA have organized several consultative meetings with line Ministries on this matter and have also held two workshops to initiate the legislation drafting process in September and December 2019. The meeting minutes are available in the Lao language NRA website: on the http://www.nra.gov.la/resources.html

Through support from KOICA and UNDP, the NRA organised, throughout years, tens of consultative meetings with UXO stakeholders including line ministries, local authorities, UXO operators and development partners in terms of coordination and facilitation. The NRA organized two consultative workshops in September and December of 2019 in order to draft a concept paper and work plan for drafting a UXO Decree, and a series of workshops on the preparation of the new UXO Sector National Strategic Plan 2021-2030, in 2020 and 2021. These workshops were aimed at brainstorming and discussing ideas from the relevant stakeholders concerned as to the new draft UXO Sector National Strategic Plan 2021-2030, to ensure that the strategy is updated and appropriate to reality.

## (III) Quality of partnerships with stakeholders

Since its inception, the project has maintained and expanded its strategic partnerships with the government counterparts, donors, CSOs, and implementing partners. Several

activities and events were carried out to that end. In 2019, the Grant Arrangement signing ceremony between the NRA, KOICA and UNDP was held on the 14<sup>th</sup> of May 2019 in Vientiane capital. The ceremony was attended by representatives from MOFA, MoLSW, MPI, representatives from the Republic of Korea Embassy to Laos, KOICA office in Lao PDR, and from UNDP. The ceremony was organised by both KOICA and UNDP, strengthening the existing partnership between the two agencies. A press release was also issued subsequent to the ceremony and was made available.

The NRA hosts quarterly Technical Working Group (TWG) meetings with interested stakeholders in the sector for four of the NRA's main areas of operation, these being Clearance, Information Management (IM), Mine Risk Education (MRE) and Victim Assistance (VA). Biannual UXO Sector Working Group (SWG) meetings were held on twice a year during the last three years.

In 2020, representatives of the KOICA office in Lao PDR were invited and joined the biannual UXO Sector Working Group (SWG) meeting on 18th August and 30th November 2020 and the annual Project Board meeting on 30<sup>th</sup> November 2020 for project reviews to assess the yearly performance, to review the 2021 AWP to ensure realistic budgeting over the life of the project. UNDP Lao Country Office (CO) also organized UXO informal Development Partners (DPs) meeting at the UN house on 18<sup>th</sup> May and 24<sup>th</sup> November 2020 to have deeper discussion with DPs, and KOICA office in Lao PDR joined the discussions. Furthermore, a field visit for the KOICA representative was organized to Borlikhamxay and Xiengkhouang provinces in 2020. Several articles and media posts were published during the year detailing the work of the sector. KOICA's contribution to the UXO Sector was acknowledged through various media in Lao PDR. Also, the KOICA logo was displayed on the NRA and the humanitarian team of Lao People's Army equipment. For smooth communication with Korean partners, a KOICA funded full-time KOICA Multilateral Cooperation Officer (KMCO) was based within the UNDP UXO Unit since January 2020. As a Programme Specialist and liaison officer between UNDP and other development partners, including the KOICA office in Vientiane, this staff member supports the country office's oversight efforts of UNDP's UXO programme and remained as a focal point of the NRA project. The formal KMCO has now been hired as a UXO portfolio manager and will remain working on the implementation and overall quality assurance of the project management to the extent possible.

As of the past year, the project has conducted several activities to extends and solidify its partnerships including through conducting UXO risk education through Lao village volunteers in partnership with mass organisations, inviting representitives from the KOICA office in Lao PDR to join the biannual UXO SWG meeting on 25<sup>th</sup> June and 11 November 2021, and the annual Project Board meeting on 23 June and 30 November 2021 for project reviews to assess the yearly performance, to review the 2022 AWP to ensure realistic budgeting over the life of the project. Efforts were similarly made to include other partners in the process of follow-up. Between 31 March to 2 April 2021, the NRA led by Vice Minister of Labour and Social Welfare, Vice Chairman and standing as the NRA Board together with UXO Xiengkhouang Provincial Regulatory Authority brought the development partners (UNDP, Republic of Korea, KOICA, UK, Turkey, US, Luxemburg, Thailand), line ministries concerned, media organisations from Vientiane Capital and local media of Xiengkhouang province visited the clearance site and joined the detonation of 30 items of Unexploded

Ordnance (UXO) in Latbouak Village, Pek district, Xiengkhouang province. The mission delegations observed UXO clearance site of UXO Lao in the village. After that, the mission delegations also observed UXO/Mine Risk Education (UXO/MRE) activities in the village and toured around UXO exhibition booths. The mission delegations had the opportunity to meet with 2 UXO survivors who received assistance through Quality of Life (QLA) after a UXO accident who are now able to make income from vocational training and animal raising.

## (IV) Accountability

The project has defined and implemented various strategies to ensure, among other goals, transparency. From 2019 onwards, the NRA began publishing on its official websites the meeting minutes of the various consultations and meetings it has held. That includes for example the consultative meetings held in 2019 regarding the drafting of the implementing legislation for CCM and other Technical Working Group (TWG) meetings. To reach wider audience, the meeting minutes are available in both Lao and English through: http://www.nra.gov.la/resources.html.

To ensure national ownership the project promoted joint decision-making with national counterparts and joint monitoring and evaluation through board meetings and monitoring missions. For example, annual Project Board meeting was held in 30<sup>th</sup> November 2020 for project reviews to assess the annual performance, to review the 2021 AWP. Also, the NRA organised NRA board meetings on 9<sup>th</sup> September and 25<sup>th</sup> November 2020 and 22<sup>nd</sup> June and 10<sup>th</sup> November in 2021 as an internal decision-making process. From the 15<sup>th</sup> to 18<sup>th</sup> March 2021, the NRA organized a meeting to monitor UXO sector work plan implementation of Q1 2021 and agreed on the priorities for the rest of the year with Provincial Regulatory Authorities (PRAs) at Vangvieng district, Vientiane Province. In this meeting, NRA and PRAs discussed the ways of achieving the targets and tracking the process in a timely manner.

## (V) Communication and publicity

After the signing ceremony of phase two, held of the 14<sup>th</sup> of May 2019, the UNDP published subsequently a press release on its website, acknowledging KOICA's efforts, under the title "Republic of Korea continues its support to UXO sector". The press release can be accessed via <u>https://www.undp.org/laopdr/press-releases/republic-korea-continues-its-support-uxo-sector</u>. Throughout the project implementation from 2019 to the 1<sup>st</sup> quarter of 2022, several media efforts were made to increase the visibility of KOICA'S involvement in the project. For instance, after the UXO field visit (see above) with KOICA, a number of public and media outlets have highlighted KOICA's involvement in the project. The included press releases, on social media and official websites, of the Lao People's Army News, Ministry of Labor and Social Welfare, the NRA, in addition to more than 6 different coverages by Lao National TV and Vientiane Times. Media coverages, about donors and development partners including KOICA, continued in 2021 covering their field visits and substantive support for the project – with at least four more media outlets covering the project this year.

# 3.3. Management Effectiveness Review

## (I) Project design

This project built on the previous support provided by Korea International Cooperation Agency (KOICA) to the National Regulatory Authority for the UXO/Mine Action Sector in Lao PDR (NRA) and the five humanitarian teams of the Lao People's Army from the year 2015 to 2018. This project is aimed at increasing the capacity of the national regulator of the UXO sector in Lao PDR, the NRA, to deal with the problem of remaining UXO in order to reduce the humanitarian threat and to remove barriers to productive and sustainable use of land. In addition, this project provides the support necessary for national regulator within the Unexploded Ordnance (UXO) sector to achieve the targets contained within the 8<sup>th</sup> and 9<sup>th</sup> National Socio-Economic Development Plan (NSEDP), national ten-year UXO sector strategic plan (Safe Path Forward II), as well as the National Sustainable Development Goal 18 (SDG18).

## (II) Timely delivery of outputs

Project's outputs were delivered according to the approved schedule and meet the project indicators as demonstrated in the Logical Framework above (2.3). The following paragraphs below provide details of the outputs achieved in addition to what was explained in the Logical Framework.

UNDP has strengthened NRA's capacity to overall manage and regulate the sector through the development and finalization of the ten-year National Strategic Plan for UXO/Mine Action Sector for 2021-2030. Increased coordination will inevitably increase effectiveness of UXO activities, contributing to sustainable human development within the UXOcontaminated communities. These achievements are as a direct result of UNDP's efforts to strengthen our implementing partners' capacities in terms of sector management and coordination, thereby increasing the UXO sector's contribution to human development in UXO-contaminated areas.

Feedback received from all communities during monitoring and evaluation missions by UNDP team members indicate that the work has improved their safety and living conditions. The adoption and use of the evidence-based survey methodology has led to better identification of CHAs. This enhances prioritization of subsequent clearance of CHAs which enables the most safe, effective and efficient land release contributing to increases in livelihood opportunities.

NRA QM team with funding support from KOICA conducted 64 QA/QC missions<sup>2</sup> of UXO humanitarian operators to undertake quality assurance by the national authority on cleared land throughout the project implementation.

<sup>&</sup>lt;sup>2</sup> QM mission reports are available on the NRA website at: <u>nra.gov.la/resources.php</u>

In addition the Quality Management (QM) team of the NRA attended all of the clearance TWG meetings and contributed to the agenda items for these TWGs and shared their experiences in the open discussion.

In 2019 the NRA reviewed several MoUs from UXO operators and organized the training on Regulations and MoU Process for the UXO Sector on 29th September 2020. The participants included Ministry of Foreign Affairs, Ministry of Labor and Social Welfare, Ministry of Planning and Investment, NRA office and UXO humanitarian operators. The highlights included:

- MoU process consideration and timeframe
- MoU coordination mechanism
- MoU format.

#### (III) Monitoring and evaluation

The UNDP has been committed to a stringent, transparent, timely, and continuous monitoring and following-up with KOICA regarding the project and its outputs and outcomes. On its part, the NRA held, during the past years, monthly meeting with UNDP management to monitor the progress of the project and to discuss and resolve any issues or delays. In 2019, four monthly meetings were held, in July, September, October, November, at the NRA office between the UNDP and the NRA. In 2020, the monthly meetings continued monthly – for eleven months, from February to December 2020. The meetings further contintued in 2021 and 2022 to cover each month of the year from January to December in 2021 and from January to March in 2022.

The NRA, together with UXO Lao, also conducted the bi-annual Project Board meetings every year in cooperation with UNDP to review the year's progress, as well as to approve the following year's Annual Work Plan (AWP) of both the NRA and UXO Lao. Furthermore, in early 2020, UNDP conducted a Mid-term Evaluation (MTE) of the UNDP support UXO programme since its inception in 2017, which included review of the phase one and two of KOICA project.

In addition, NRA, UNDP, KOICA and Korean Embassy representatives together with other development partners of the UXO sector visited UXO-contaminated provinces, in Xiengkhouang and Borlikhamxay provinces, for joint monitoring purpose in 2020 and 2021.

Late 2021 the project hired a team of evaluation consultants to conduct the final evaluation of the UXO project during the reporting period to assess the effectiveness of the UNDP support program, project title " Moving towards Achieving SDG 18- Removing the UXO Obstacle to Development in Lao PDR (UXO Lao)". The results of the evaluation<sup>3</sup> were shared with all stakeholders and the recommendations were accepted for implementation.

<sup>&</sup>lt;sup>3</sup> The final evaluation report is available here; <u>Evaluation Detail (undp.org)</u>

## (IV) Technical capacity

The project quality assurance and support were delivered by the UXO Portfolio Manager, working under the direct supervision of the UNDP Deputy Resident Representative, and were supported by Programme Officers and a Programme Associate.

UNDP's direct technical support were provided by a team led by the CTA (Chief Technical Advisor), Financial Technical Specialist, and a M&E and Reporting Specialist. All technical advisors were based in the offices of the implementing partners (NRA and UXO Lao). In particular, UNDP technical team supported NRA in reviewing and finalizing the Annual Work Plan and in the preparation of the Procurement Plan for each financial ear, as well as in monitoring the implementation of these plans, preparation, and finalization of year end for implementing partners' financial reports.

In 2019-2020 UNDP provided Technical Advisory Support to the NRA through the deployment of a CTA, Finance Technical Advisor, a Monitoring and Evaluation Specialist and a Programme and Partnership Support Officer, all of whom provided full-time support to the NRA as needed.

In 2021 UNDP provided Technical and Programmatic Advisory Support to the NRA through the deployment of a Finance Specialist and a Programme and Partnership Support Officer, all of whom provided full-time support to the NRA as needed.

(V) Cost-effective use of inputs

The project management ensured that the use of inputs in terms of both financial and human resources aligned with the Multi Year Work Plan of the UXO national institutions supported through KOICA funding.

The project has been audited in accordance with the UNDP National Implementation Modality (NIM) Audit policies and procedures, as per the UNDP Harmonized Approach to Cash Transfers (HACT) assessment framework.

- NIM audit of the UNDP Implementing Partners for 2019 on 21<sup>st</sup> July 2021.
- NIM audit of the UNDP Implementing Partners for 2020 on 25<sup>th</sup> Nov 2021.
- NIM audit of the UNDP Implementing Partners for 2021 in Q1-2022.
- HACT Micro Assessment on 31 March 2021

## 4. Lessons learned

Some of the key lessons learnt from the project implementation are as follows:

- Securing the financial resources in advance is considered very important for the government partners when designing of a project. Open-ended arrangements, where significant amount of financial resources is left to be mobilized later creates a number of risks which undermine the integrity and consistency of the project. In addition, a project with a wide scope of areas and activities covering too many issues, and so needing sufficient financial resources to support its implementation. With budget constraints, it is important that concerned parties are more strategic in planning out activities. Therefore, there is a need to narrow down the objectives and focus areas of a project to fit with the available resources.
- UXO project needs to have a clear resource mobilization strategy and an exit plan. It
  needs to be clear up front which activities will continue after the project ends and which
  activities will stop, and how this will be achieved; more attention should be paid to
  capacity building and training in all elements of support.
- More attention to be given to issues of staff turnover and continuity of project activities. Backup plans on how to address these should be developed.
- The role of development partners remains essential for clearing UXOs in Lao PDR. Sector-level fora such as the Sector Working Group and the Sector Forum offer an opportunity for development partners to clarify their intentions and ensure successful alignment of support.
- Some of the planned activities were delayed in 2020 and 2021 due to the Covid-19 outbreak, especially the MRE activities that needed the physical presence of people Lessons learned from this is that access to technology is necessary, so we are considering the possibility of using digital tools to raise awareness of the dangers of UXO in the future.

## Annexes Annex 1. Success stories of activities and beneficiaries

Technicians from the humanitarian teams of the Lao People's Army carefully removing a large bomb to a demolition site in Borlikhamxay province. One of the humanitarian teams of the Lao People's Army preparing to move to a UXO operation site. The equipment for this team was kindly provided for through KOICA support.

Technicians from the humanitarian teams of the Lao People's Army carefully removing a large bomb to a demolition site in Borlikhamxay province

The humanitarian teams of the Lao People's Army MRE team conducting MRE activity at the school.

Between 07- 13 December 2021, the Humanitarian Unexploded Ordinance Demining Teams of Lao People's Army Unit 58, has detonated 60 Unexploded Ordinance (UXOs) including a 250-pound bomb, 7 bomlets (bombie), a mine and 51 other UXO.

The monitoring and clearance were conducted in Nasu, Phosidam, Houamueang, and Hinngohn Villages of Kasi and Vang Vieng District, Vientiane Province. Through the National Regulatory Authority for UXO/Mine Action Sector in Lao PDR (NRA), with the support from KOICA and UNDP, such meaningful efforts are being implemented to reduce the risk of UXOs for safer livelihoods of the people in the community as a contribution to the country's social-economic development.

## Media Clippings 1 – in Republic of Korea

20th June 2020

#### UNDP, 코이카와 라오스 불발탄 제거사업 지원에 박차 - 매일경제 (mk.co.kr)

MK뉴스 인쇄하기 해 소 UNDP, 코이카와 라오스 불발탄 제거사업 지원에 박차 지속가능한 라오스 불발탄 제거를 위해 라오스 군 내 인도주의적 제거림 지원 확대 김역식 기자 압력 : 2020.06.10 09:58.53

유엔개발계획(UNDP)이 한국국체협력단(코이카)과 함께 라오스 내 불발탄(UXO) 제거 사업 지원에 힘을 기울이고 있다고 10일 밝혔다. 라오스는 세계에서 일인당 가장 많은 폭탄이 투하된 나라로, 9 년 간의 인도차이나 전쟁(1964-1973) 동안 매 8분마다 폭격이 일어났으며 이로 인해 약 2백만론 이상의 폭탄이 두하된 것으로 알려져 있다. UNDP에 따르면 이 중 약 40%에 해당하는 8000만개 이상이 불발탄으로 남아 오늘날까지 라오스인의 삶을 위협하고 있는 상황이다.

에 UNDP와 코이카는 지난 2015년부터 불발탄을 없애기 위해 '군 내 인도주의적 불발탄 제거됨 지원사업'을 위해 협력해있다. 라오스 군 내 인도주의적 제거팀은 2013년 라오스 국방부와 불발한 제거청이 협력하여 총 두 개 팀으로 구성됐다. 이후 2015년부터 UNDP를 통한 코이카의 단독 지원 으로 운영되면서 2019년 총 7개의 팀으로 그 규모가 획대됐다.

고카이스 큰 내 인두주이적 불법한 패거팀이 불법한 주사를 하고 있다. (사진=오앤개법개리(Iblife)

리까르다 리거 UNDP 라오스 사무소 대표는 "라오스 국토의 3분의 2가 불발탄에 오염된 것을 고 려할 때 불발탄 분포 조사와 제거는 여전히 라오스가 직연한 가장 큰 도전과제 중 하나"라며 "불발 탄 분포 범위와 향후 몇 십 년 또는 몇 백 년동안 불발한 제거를 위해 지속적으로 필요한 인적, 물 적 자원을 감안할 때 라오스 정부 내 불발한 제거 역량을 갖추는 것이 여전히 큰 과제이며, 이런 측면에서 코이카의 인도주의적 제거팀 지원의 의미와 중요성이 매우 크다'고 강조했다.

총양 평통사왓 불발탄 제거청장은 "그 동안 코이카의 단독 치원으로 라오스 군 내 인도주의적 제 거팀이 지속적으로 그 역량과 규모를 확대할 수 있었다"면서 라오스 내 불발탄 제거를 위해 지속 적으로 협력하고 있는 코이카에 큰 감사의 뜻을 전했다. 이어 그는 "현재 라오스에는 30여개의 불 발탄 제거 단체가 활동 중인데, 그 중 라오스 국내 단체는 불발탄 제거청 산하의 '유엑스오 라오 (UXO Lao)'와 군 내 인도주의적 제거팀이 유일하다. 그러나 UNDP와 코이카를 통해 군 내 불발한 제거팀의 규모가 지속적으로 확대된다면, 머지 않아 라오스 정부가 직접 유액스오 라오와 함께 라 오스 불발탄 제거사업을 이끌어 갈 수 있을 것"이라며 큰 기대감을 나타냈다.

한국일보

땅에서 나온 불발한 잔때. [사진+유엔개발개립

오성수 코이카 라오스 사무소장은 "인도자이나 전쟁 이후 불딸반은 라오스의 개별과 성장을 먹 가장 큰 걸림들로 자리해 없다. 이에 코이카는 2014년부터 UNDP를 통해 지속적으로 라오스 불 한 제거청을 지원해 왔으며, 2015년부터는 군 내 인도주의적 불발한 제거님에 대한 지원도 구준 늘려왔다" 데 "고이카는 일으로 불량한 관계록 제거지원 부분 뿐만 아니라, 한력대상구의 평화요 변명으로 이어질 수 있도록 지원하는 "매공 평화마을 프로그램을 현재 구상하고 있다. 이에 따라 과오스 또한 불만한 제거 지역을 대상으로 피해자지원사업 및 농촌개봉사업과의 연계를 확대할 예정이다"라고 당했다.

Government officials and representatives of the Korea International Cooperation Agency (KOICA) and the United Nations Development Programme (UNDP) on Tuesday visit UXO clearance areas in Khamkeuth district, Borikhamxay province to monitor the work of the Humanitarian UXO teams of the Lao People's Army and land usage after clearance. The visit was led by Head of Office of the National Regulatory Authority for the UXO/Mine Action Sector in the Lao PDR, Mr Chomyaeng Phengthongsawat.

Humanitarian UXO teams of the Lao People's Army on Tuesday teach children at Thongviengkham primary school in Khamkeuth district, Borikhamxay province about the dangers of unexploded ordnance. The activity is part of the project: Support for the Institutional Strengthening of the National Regulatory Authority for the UXO/Mine Action Sector in Laos, which is part of the overall project "Moving towards achieving SDG18 – Removing the UXO Obstacle to Development in Laos". The project is funded by KOICA through UNDP.

#### Times Reporters

The Lao government and Food and Agriculture Organisation of the United Nations (FAO) launched a project on Thursday aiming environment for responsible environment for responsible investment in agriculture and food systems.

investment in agriculture and food systems. The project, funded by the Federal Government of Germany, aims to strengthen the skills of policymakers and other key actors to support responsible agricultural investment. Speaking at the project-launch workshop in Vientiane, FAO Representative in Laos, Mr Nasar Hayat said, "To unlock the potential of the agricultural sector, Lao PDR needs USS41 million per year in additional investments to achieve the first two Sustainable Development Goals by 2030, and US\$34 million

of that investment should be spent on agriculture". The launch workshop was attended by policymakers and representatives from relevant ministries and institutions related to agricultural investment, as well as development stakeholders in aligning the legal, institutional and investment-incentive frameworks to the Asean Guidelines on Promoting Responsible Investment in Food, Agriculture and Forestry. The Asean Guidelines reflect the priorities and characteristics of the region and are grounded in the Committee on World Food Security (CFS) Principles

well as development partners. The agricultural sector is a cornerstone of Laos development strategy. Even though it employs two-hirds of the population, agriculture contributes only 16 percent of the country's GDP dae to low productivity and lack of modernisation, among other issues. "Both private and public investments are needed to raise agricultural productivity and incomes, particularly in rural areas. It sequally important to ensure that these investments are responsible and contribute development strategy, Even

## KOICA provides further assistance to UXO victims

Phomphong Laoin Xieng Khuang province: The Korea International Cooperation Agency (KOICA) is rolling out the second phase of a project at a cost of USS2.5 million to help victims of UXO-related accidents in Xieng Khuang and Huaphan provinces. Last year, the Korean agency provided USS5.5 million for the second phase of a UXO project in Laos running from 2019-2022. The project is taking place in line with the terms spelled out in a document signed by the National Regulatory Authority for the UXOMine Action Sector in the Lao PDR (NRA) under he Ministry of Labour and Social Welfare, KOICA, and the United Nations Development Programme (UNDP). (UNDP). KOICA is providing

KOICA is providing its contribution in two packages, with USS3 million being used for the institutional strengthening of the National Regulatory Authority for the UXO/ Mine Action Sector in the Lao PDR, through UNDP. The other part of the second phase of the project, with funding of USS2.5 million, will focus on the victims of UXO explosions. Bilateral cooperation

victims of UXO explosions. Bilateral cooperation between KOICA and the NRA, with a focus on helping UXO victims, will underway in Xieng Khuang and Huaphan provinces. Implementation of the plan was reported on during a field visit last week by officials from NRA, KOICA and UNDP to Xieng Khuang province.

The field visit was led by the Director General of the NRA office, Mr Chomyaeng

Mr Chomyaeng Phengthongsawat, Mr Sangjun Kim, Ms Catherine Puong and officials meet a woman who lost a leg in a UXO-related accident in Xieng Khuang province.

in a UXO-related accident in X Phengthongsawat; Deputy Resident Representative of the KOICA Office in Laos, Mr Sangjun Kim; and Deputy Resident Representative of UNDP in Laos, MS Catherine Puong. During the visit they met a woman who had lost her leg in a UXO-related accident that occurred in 2014 in Nadi village, Paek district. The project leaders took stock of the assistance provided to the woman and others who had been injured through KOICA assistance. Mr Sangjun Kim said KOICA had been supporting the UXO project since 2016 and the initiative was now in its second phase with funding of USSS.5 million. Of that amount, USS2.5 million has been allocated for victim assistance.

for victim assistance.

"We are preparing to implement activities in relation to UXO victim assistance and will assess their actual needs. The assistance provided to UXO victims in the second phase of the project will not be different from the first phase, under which financial support was provided to those who suffered We are preparing to

injuries. The Quality of

injuries. The Quality of Life Association is doing this work now and is also providing medical support," Mr Kim suid. "We hope that more UXO victims will benefit from our support," he added. Directorofthe Labour and Social Welfare Department in Xieng Khuang province, Mr Bounheuang Soulixay, said 1,824 people in the province had been disabled in UXO accidents, most of whom were heads of families and children. In Xieng Khuang, and estimated 20,000 people have survived out of more han 50,000 who were tilled or injured between 1964 and 2008.

Based on data recorded in the NRA Dashboard, in the NRA Dashboard, Xieng Khuang has recorded the highest rate of UXO accidents in Laos, with 206 accidents occurring between 2008 and 2018, resulting in 292 casualtes. This has inflicted immeasurable psychological strain on families and communities, while also creating urgent medical needs for those who survive accidents.

Vientiane court sentences drug dealer

#### Translated by Meuangkham Noradeth

A Vientiane people's court has sentenced a drug dealer, Mr Bounchan, 27, from Tangkong village, Pakngum district, Vientiane, to life imprisonment and fined him 500 million kip.

Mr Bounchan confessed that he had been dealing in drugs since 2020. He bought drugs from a dealer, Mr Noy, 30, from Thapha village, Hadxaifong district, Vientiane,

four times each time buying 6,000 amphetamine tablets. Mr Bounchan sold the tablets to Mr Ky, 27, from Nafay village, and Mr Kong, 19, from Donhay village, Pakngum district. On July 8, 2020, Mr Bounchan went to buy 6,000 amphetamine tablets from Mr Noy

On the same day Mr Vy, phoned Mr Bounchan to buy drugs. Mr Bounchan borrowed the motorcycle of his brother in law Mr Phout to take the drugs to Mr Vy, but police detained him near Sangsay village and seized the drugs from him.

--Khuamsangob Daily, March 31

Foreign ambassadors together with representatives of development partners and donor countries on Wednesday visit Xieng Khuang province to learn about UXO clearance The visit was led by Deputy Minister of Labour and Social Welfare, Mr Padeumphone Sonthany, and Director General of the National Regulatory Authority (NRA) for UXO/ Mine Action Sector under the Ministry of Labour and Social Welfare, Mr Chomyaeng Phengthongsawath. The visitors were welcomed by the Governor of Xieng Khuang province, Mr Bounchanh Sivongphanh.

Vientiane Times

Representatives of development partners and donors last week visit Xieng Khuang province to better understand about UXO clearance operations and acknowledge donor contributions. The visit was led by Deputy Minister of Labour and Social Welfare, Mr Padeumphone Sonthany, and Director General of the National Regulatory Authority (NRA) for UXO/Mine Action Sector under the Ministry of Labour and Social Welfare, Mr Chomyaeng Phengthongsawath. The visitors understand about the impacts of UXO on local communities, the need to raise awareness about the dangers of UXO, and the need for more resources to address the remaining unexploded ordnance issues.

Deputy Minister of Labour and Social Welfare, Mr Padeumphone Sonthany (*right*), and British Ambassador to Laos Mr John Pearson use UXO detection equipment in Latbuak village, Paek district, Xieng Khuang province last week.

#### UXO clearance authority seeks more funding

The government has called for more support for UXO clearance operations, with 132,000 hectares of land having been surveyed and confirmed to be contaminated with unexploded ordnance.

Director General of the National Regulatory Authority for UXO/Mine Action Sector under the Ministry of Labour and Social Welfare, Mr Chomyaeng Phengthongsawath, told reporters during a field visit to Xieng Khuang province recently that the authority is sourcing more funding and technical assistance for UXO clearance in nine provinces.

In recent years, about US\$30 million per year has been provided through the United Nations Development Programme and other international organisations for use in UXO clearance. Laos is heavily affected by unexploded ordnance. Of the estimated 270 million cluster munitions dropped on Laos during the Indochina War, about 30 percent failed to explode. But only one percent of these devices have been removed since 1996," Mr Chomyaeng said

The authority's plan calls for UXO to be cleared from 10,000

hectares of land each year but only an average of 8,000 hectares has been cleared each year due to limited funding and equipment. UXO clearance is difficult because most cluster munitions were dropped in mountainous areas, in rivers and forests, Mr Chomyaeng said.

However, the authority will continue to work with ministries, other sectors and local authorities to set priority areas for clearance, especially land that can be used for development purposes as well as residential areas, to support social and economic development. When land has been cleared, the authority will consider its appropriate use.

UXO clearance is currently underway in the provinces of Huaphan, Luang Prabang, Xieng Khuang, Khammuan, Savannakhet, Saravan, Champassak, Xekong and Attapeu. Clearance operations aim to free up land for activities that will enhance the well-being and livelihoods of impoverished rural communities.

UXO is an obstacle to economic and social development, contaminating land that could otherwise be used for agriculture, industry, tourism and the construction of infrastructure.

Laos is the most heavily bombed country in the world per capita. Throughout the Second Indochina War (1964-1973), over 2 million tonnes of ordnance were dropped on Laos. Over 270 million cluster munitions were dropped from American aircraft, leaving an estimated 80 million live bomblets (bombies) scattered and buried around the country.
