

# Social Standards Appraisal

**Project n° 8364-00/2018**

## **Final Conclusion**

All relevant social standards have been considered within the project, nevertheless improvements are recommended.

**Marker Poverty (POV):**

**Marker Participatory Development&Good Governance (PDGG): 1**

## **Social standards considerations**

**Comments for implementation and monitoring:** The objective of the project is to strengthen local policies, capacities and infrastructure which enable climate and disaster resilient development at the community Level. The project follows a human rights based approach working with the potentially affected community and relevant local authorities. The social adviser has been involved in the project planning phase. Comments which were not incorporated are to be addressed by the project partner in the inception phase (see recommendations).

<b>Recommendations, Conditions, Remarks</b>
<b>8364-00/2018 Empfehlung Sozial Nr. 1</b>
<b>Recommendation</b>
The ProDoc mentions that additional mapping of NGOs for persons with disabilities and disabled people's organizations (DPOs) will be conducted during the implementation phase. The project partner should refer to the results of this mapping in the first progress report.
to be followed until: 11.11.2019
<b>8364-00/2018 Empfehlung Sozial Nr. 2</b>
<b>Recommendation</b>
In the Prodoc it is mentioned that the details of the support scheme/packages will be described in the initial phase of the project based on UNDP wide successful experience to disburse and implement such support packages. The partner needs to ensure that the content of the packages is easily accessible and understandable – also for vulnerable persons (e.g. available in minority languages, e.g. Russian, understandable for persons with difficulties to read and understand, readable for blind persons, etc.). The project partner should kindly refer to this topic in the first progress report.
to be followed until: 11.11.2019
<b>8364-00/2018 Empfehlung Sozial Nr. 3</b>
<b>Recommendation</b>
It is mentioned that the needs of the people with disabilities, visual and hearing impairments, certain targets groups such as children, minorities etc. will be taken into consideration during the campaign and the preparation of the awareness materials. The project partner should kindly refer in the first progress report how this issue was addressed.
to be followed until: 11.11.2019
