SECTION 2: 2019 Project Progress/Contribution to National Development Agenda

2.1 Please elaborate project’s contribution to the analysis/development/refinement of national or sectoral policies, strategies, and action plans, with consideration to the mid-term review of the 11th Malaysia Plan, and related revisions in administration and policy.

1. The proposed Gender Mainstreaming Framework (Output 2) outlined several strategies, initiatives and activities for MWFC to institutionalize and mainstream gender. These recommendations were incorporated into MWFC work plan under 12th Malaysia Plan.

2. Project findings and recommendations highlighted areas of future priority focus especially for the drafting and development of 12th Malaysia Plan processes. One of the related strategy papers prepared for 12th Malaysia Plan: Proposed Way Forward dated August 2019 is the Policy Brief on Towards Shared Prosperity: Women and the Economy.

3. The implementation and partnership networks developed during the project implementation period have made indirect contribution towards the development of the 2 draft bills on Anti-Discrimination Against Women and Sexual Harassment that are currently being drafted by MWFC. Both project consultants and project team were involved in a few consultations and dialogues.

2.2 Please indicate activities undertaken by the project to further increase awareness and understanding on key thematic issues addressed by the project.

Please see Annex 3

2.3 (Mandatory) What has the project done in 2019 to build capacity to implement or sustain systemic changes? (Capacity Development & Institutional Arrangements)

The Project has developed a “Handbook for Training on Gender Mainstreaming Towards Gender Equality”, a first training manual on Gender for Ministry of Women, Family and Community Development. The Handbook contained 3 levels and 13 topics ranging from introduction and understanding gender equality to introduction to CEDAW and gender analysis, monitoring and evaluation and gender audit and gender action plan.

Four (4) institutional capacity development activities were conducted in 2019. Two trainings were aimed to prepare the Gender Focal Team of MWFC to support the Gender Focal Point (Deputy Secretary-General) to implement the proposed Gender Mainstreaming Framework as well as to support the establishments of GFT in other Ministries. One of the trainings were conducted for all State Directors of Women’s Development Department, who were the State Women’s Affairs machineries and supporting the State Women’s Executive Councils members. Another training was conducted for the project’s Technical Working Committee Members, including representatives from Ministry of Economic Affairs, Ministry of Health,
2.4 What has the project done in 2019 to generate/develop or improve/update datasets, statistics and models? Please indicate their utilization by Implementing Partner to strengthen national evidence-based policymaking.

The Project has developed an “Advocacy Strategy Plan on Sex Disaggregated Data and Gender Analysis (2019 – 2025)” for MWFCD. MWFCD and Department of Statistics Malaysia (DOSM) has set-up a small working group to look into the recommendations of the Advocacy Strategy Plan as well as planning for datasets improvements for 12th Malaysia Plan strategies and SDG-related indicators.

2.5 (Mandatory) Please elaborate on project’s efforts to mainstream gender equality through project activities, and please reflect on the effort in 2019 in comparison to previous years’ reporting, especially if unchanged.

In addition to the planned project gender equality activities, the Project Team organized quite a few briefing and orientation sessions for the MWFCD Higher Management Team in August and October 2019. On 14 October 2019, the Project Team made a full report presentation of the Project accomplishments and achievements to the Deputy Prime Minister, who is also the Minister of Women, Family and Community Development and Deputy Minister at Parliament of Malaysia. On 13 November 2019, the Project Team gave a briefing on Gender Sensitization and Gender Equality to Malaysian Parliamentarians at Parliament of Malaysia.

2.6 What has the project done in 2019 to develop or demonstrate/pilot new and/or innovative approaches and solutions? Please indicate how they have contributed to inform decision- and policymaking, and if it has led to actual/planned upscaling or replication.

The Project Team has been actively engaging with State Women’s think-tank of Penang (Penang Women’s Development Centre/PWDC) and Selangor (Institut Berdaya Wanita/IWB) and Universities, including Universiti Sains Malaysia (USM), Centre for Research on Women and Gender (Kanita) and Universiti Kebangsaan Malaysia (UKM), Tun Fatimah Hashim Women’s Leadership Centre to continuously dialogue and promote knowledge and intellectual exchanges on women’s issues, empowerment of women through leadership, education, training, research and policy formulation.
2.7 Has the project Risk Analysis been reviewed and updated regularly? Please indicate status for 2019. (please consult with UNDP CO support)

UNDP conducted a project risk analysis exercise on the Gender Mainstreaming Project on 2 October 2019.

2.8 Please indicate any additional comments on areas of improvement that should be taken into consideration by EPU and UNDP Malaysia in the implementation of future projects.

There need to be greater political will, commitment and leadership to steer Malaysia to achieve Gender Equality, beyond the political mileage and responsibilities of MWFCD. As the Project has developed a Gender Mainstreaming Framework, it will be timely to upscale the Gender Equality agenda for adoption and implementation across key agencies and ministries as a cross-cutting strategy to address inequalities and narrow the gaps in development.
