

V. Result and Resource Framework

Results Framework¹**UNSD Outcome 6:** By 2022, the resilience of the people in Pakistan, especially key populations, is increased by addressing natural and other disasters, including climate change adaptation measures and the sustainable management of cultural and natural resources

CPD Outcome 2: (UNSD Outcome 6): Enhanced resilience and socioeconomic development of communities.

UNSD indicator Number of integrated policies/ strategies/ plans operationalized which increases their ability to protect the environment and population as well as adapt and mitigate the adverse impacts of climate change, and foster climate resilience and low greenhouse gas emissions development in a manner that does not threaten food production (SDG 13.2.1)

Baseline: 01 national climate change policy

Target: 01 national CC action plan, 2 provincial strategies, 08 projects

RELATED STRATEGIC PLAN OUTCOME 5: Countries are able to reduce the likelihood of conflict and lower the risk of natural disasters, including from climate change.

Project title and Atlas Project Number: Climate Change Adaptation and Mitigation-II; Number: 00116110

EXPECTED OUTPUTS	OUTPUT INDICATORS ²	DATA SOURCE	BASELINE		TARGETS (by frequency of data collection)						DATA COLLECTION METHODS & RISKS	
			Value	Year	Year 1	Year 2	Year 3	Year 4	Year ...	FINAL		
Output 1: Legal and regulatory frameworks and policies are in place, and institutions capacitated for effective climate risk management	1.1 Extent to which gender responsive national/provincial climate change policies/plans/strategies are revised, developed and implemented	GOP Records and programme data	0	2018	0	1	1	1			03	Plans, strategies, project reports, desegregated data, assessments, evaluations& surveys

¹UNDP publishes its project information (indicators, baselines, targets and results) to meet the International Aid Transparency Initiative (IATI) standards. Make sure that indicators are S.M.A.R.T. (Specific, Measurable, Attainable, Relevant and Time-bound), provide accurate baselines and targets underpinned by reliable evidence and data, and avoid acronyms so that external audience clearly

	<p>1.2: Extent to which disaster and climate-risk management is integrated in key sectors such as development planning, environment, water resource management, health, education</p> <p>1.3: Extent to which data is collected including detailed geographical coverage, desegregation, gender analysis, vulnerable groups and target actions</p> <p>1.4: Existence of strengthened capacities for achieving energy transformation at scale: Volume of investment leveraged from public and private sources through UNDP support for national programmes/initiatives</p>		0	2018	01	02	01	01		05	
			0	2018	0	03	02	02			
			0	2020	0	0	\$95,000	00		07	
										01	
<p>Output 2:</p> <p>Improved measures towards climate change adaptation and mitigation which promote sustainable use of natural resources and includes disaster risk reduction</p>	<p>2.1: # of new projects /action plans developed and implemented</p>	<p>GOP Records and programme data</p>	0	2018	02	02	02	02		08	<p>Plans, strategies, project reports, desegregated data, assessments, evaluations& surveys</p>

understand the results of the project.

²It is recommended that projects use output indicators from the Strategic Plan IRRF, as relevant, in addition to project-specific results indicators. Indicators should be disaggregated by sex or for other targeted groups where relevant.
