Prior to year 2006, UNDP/PAPP operating procedures were under the umbrella of UNOPS due to the special nature of PAPP within the context of oPt.

This project was initiated as emergency project in year 2006 whereas the project formulation was carried out in full consultation with key partners and stakeholders.

However, the LPAC process for this project was not documented as the UNDP/PAPP Programme guidelines for project planning has been initiated in year 2007 and applied henceforth for all programme initiatives
