

**Project Title:** Energy Efficient Production and Utilization of Charcoal through Innovative Technologies and Private Sector Involvement in Sierra Leone

**UNDAF Outcome(s):** By 2018, targeted Government institutions, the private sector, and local communities manage natural resources in a more equitable and sustainable way.

UNDP Strategic Plan Environment and Sustainable Development Primary Outcome: Expanding access to environmental and energy services for the poor

UNDP Strategic Plan Secondary Outcome: Strengthened national capacities to mainstream environment and energy concerns into national development plans and implementation systems; and Countries develop and use market mechanisms to support environmental management

**Expected CP Outcome(s):** 3. Access to sustainable energy and livelihoods for remote Chiefdoms (sub-districts/blocks) improved

**Expected CPAP Output (s):**

3.1: Adequate policies on renewable energy in place, strong institutional linkages established, and knowledge, awareness and capacities of stakeholders improved (policy makers, financiers, suppliers and end-users);

3.2: Effective and affordable renewable/alternative energy technologies for remote Chiefdoms supported through demonstration projects and private sector participation.

**Executing Entity/Implementing Partner:**

United Nations Development Programme
