

Annual Work Plan (2019)

Project: Enhancement of Municipal Audit

Country: Serbia

UNDAF Outcome(s):

By 2020, governance institutions at all levels have enhanced accountability and representation to provide better quality services to people and the economy

Expected Output(s):

(Those that will result from the project and extracted from the CPAP) Management of public funds is improved at all levels

Implementing Partner:

State Audit Institution

Other Partners (i.e. Responsible Parties):

Ministry of Finance, UNDP CO Serbia

The overall objective of the project is to establish a network between the Central Harmonization Unit and cities representing the seat of regional centers in order to enhance the system of Financial Management and Control across local self-government units and ensure that the internal audit function in local government is in place, fully functional and supported and demanded by the municipal leadership. It further seeks to develop the interface between internal and external municipal audit in municipalities, for the purpose of increasing the audit effectiveness, given more responsibility for the financial audit towards internal auditors and increasing the external auditors focus on performance audit. The project will enable more frequent and higher quality municipal audits by SAI within the budget cycle and to establish good practice in sub national PFM reform enforcement. Finally, good public finance management practices will be recorded by civil society and media and promoted widely.

Throughout the year the project component shall support the State Audit Institution (SAI) in development of relations between external and internal audit in order to promote internal audit and internal financial controls at the local level. One of the major activities in 2019 shall be communicating State Audit findings and most common irregularities in Public spending to municipal officials, promotion of Internal Audit and trainings for State Auditors.
