IV. LEGAL CONTEXT

This document together with the CPAP signed by the Government and UNDP which is incorporated by reference constitute together a Project Document as referred to in the SBAA and all CPAP provisions apply to this document.

Consistent with the Article III of the Standard Basic Assistance Agreement, the responsibility for the safety and security of the implementing partner and its personnel and property, and of UNDP's property in the implementing partner's custody, rests with the implementing partner.

The implementing partner shall:

- a) put in place an appropriate security plan and maintain the security plan, taking into account the security situation in the country where the project is being carried;
- b) assume all risks and liabilities related to the implementing partner's security, and the full implementation of the security plan.

UNDP reserves the right to verify whether such a plan is in place, and to suggest modifications to the plan when necessary. Failure to maintain and implement an appropriate security plan as required hereunder shall be deemed a breach of this agreement.

The implementing partner agrees to undertake all reasonable efforts to ensure that none of the UNDP funds received pursuant to the Project Document are used to provide support to individuals or entities associated with terrorism and that the recipients of any amounts provided by UNDP hereunder do not appear on the list maintained by the Security Council Committee established pursuant to resolution 1267 (1999). The list can be accessed via <http://www.un.org/Docs/sc/committees/1267/1267ListEng.htm>. This provision must be included in all sub-contracts or sub-agreements entered into under this Project Document".

V. ANNEXES

Annex 1

Project Risks

| | |
|----------------|--|
| FINANCIAL | <ol style="list-style-type: none">1. Inadequate project funding leaving many priority activities unimplemented. This remains a major project risk |
| OPERATIONAL | <ol style="list-style-type: none">1. Difficulties in coordinating the large number of participating government institutions.2. The sudden departure of the Project manager and many senior project staff that negatively impacted on project implementation. |
| ORGANIZATIONAL | <ol style="list-style-type: none">1. Inadequate technical capacity at the state level (especially) to coordinate implementation of project activities |
| POLITICAL | <ol style="list-style-type: none">1. Political fragility at the state level, that sometimes leads to changes in the political leadership and discontinuity in project implementation.2. Increased political activity in the lead up to the national elections in April this year and the referendum next year that is distracting political leaders from participating effectively in project activities. |
| STRATEGIC | <ol style="list-style-type: none">1. Government implementing partners do not provide political leadership to produce desired results |
| SECURITY | <ol style="list-style-type: none">1. Recurrent tribal clashes/confrontation in some states significantly slows down project implementation as the leadership of the affected states focus on resolving the conflict |
| X_OTHER | <ol style="list-style-type: none">1. The onset of the electoral season could delay project activities as the civil servants become reluctant to make decisions that could have political ramifications for their political bosses |

II. MANAGEMENT ARRANGEMENTS

The project will be managed by UNDP under UNDP's Direct Implementation (DIM) modality in close collaboration with the designated counterparts in GoSS ([names of GoSS partners]). A Project Board will be established, chaired by Ministry of Presidential Affairs, which will typically meet on a quarterly basis.

The overall project organisation structure is as follows:

Inputs to be provided by Partners

The Project Board:

The project board was formed in April 2009. Chaired by the GOSS Ministry of Presidential Affairs, the role of the Project Board is to: (i) provide overall guidance and direction to the project manager, (ii) review and approve the annual work plans/budget, (iii) ensure effective implementation of the project, (iv) review project annual progress report and other relevant reports, (v) raise emerging risks with the project manager, (vi) address project issues raised by the project manager; (vii) set project tolerances for the project manager; and (viii) consider and decide on the actions recommended by the project manager to address specific issues. The membership of the Project Board consists of representatives from the institutions mentioned in the organisation structure above.

AP

UNDP

UNDP will provide some funding (especially for the project overhead costs) and the technical expertise needed to successfully implement the project. Led by the Project Manager, the project team in Juba will provide technical guidance and support to the field teams as well as take care of their logistical requirements. The Juba project team will also serve as the secretariat for the project board. The Juba project team will make quarterly field trips to interact with the project beneficiaries in order to ensure quality delivery of project outputs. The Juba project team is co-located with the staff of the State Affairs desk, Directorate of Inter-governmental affairs Ministry of Presidential affairs for purposes of backstopping their work. UNDP also has field teams in all ten states grouped into three teams: Planning, budgeting and Financial Management; State Legislative Assembly Strengthening; and Urban Management and Public Infrastructure Management. All field staff are also co-located with their state government counterparts to ensure continuous mentoring and coaching as required.

UNDP will also play the oversight and project assurance role, monitoring and evaluating the project as objectively and independently as possible.

Beneficiaries

The beneficiaries (at GOSS and State level) as identified in the organization structure above provide office for the project staff that are co-located in their ministries. The beneficiaries will also provide some funds for incidental expenses during the sessions conducted by project staff.

Donors

The project is funded by the African Development Bank, and the Joint Donor Team. Besides providing the funds needed for activity implementation, the donors will also provide general oversight through their presence on the Project Board. Donor representatives will also be invited to accompany project staff on field visits where possible.

Collaborative Arrangements with related Projects

The project scope relates to the work being undertaken by the Local Government Recovery Project (LGRP) and the Support to Economic Planning (SEP) project. Project reports will be shared with the management of these projects to ensure that they are kept up-to-date with the progress and challenges. The project management of these two projects will also be invited as observers to project, as well as undertake joint field trips to the states where possible to ensure coordination and synergy in project implementation.

Audit Arrangements

Project Accounts will follow the standard UNDP procedures. For funds that will be transferred to implementing partners through letters of agreement (LOAs), auditing will follow the normal procedures required of those organizations.

III. MONITORING FRAMEWORK AND EVALUATION

In accordance with the programming policies and procedures outlined in the UNDP User Guide, the project will be monitored through the following:

Within the annual cycle

- On a quarterly basis, a quality assessment shall record progress towards the completion of key results, based on quality criteria and methods captured in the Quality Management table below.
- An Issue Log shall be activated in Atlas and updated by the Project Manager to facilitate tracking and resolution of potential problems or requests for change.
- UNDP will conduct a risk analysis, after which a risk log shall be activated in Atlas and regularly updated by reviewing the external environment that may affect the project implementation.
- Based on the above information recorded in Atlas, Project Progress Reports (PPR) shall be submitted by the Project Manager to the Project Board through Project Assurance, using the standard report format available in the Executive Snapshot.
- a project Lesson-learned log shall be activated and regularly updated to ensure on-going learning and adaptation within the organization, and to facilitate the preparation of the Lessons-learned Report at the end of the project
- a Monitoring Schedule Plan shall be activated in Atlas and updated to track key management actions/events

Annually

- **Annual Review Report.** An Annual Review Report shall be prepared by the Project Manager and shared with the Project Board and the Outcome Board. As a minimum requirement, the Annual Review Report shall consist of the Atlas standard format for the QPR covering the whole year with updated information for each above element of the QPR as well as a summary of results achieved against pre-defined annual targets at the output level.
- **Annual Project Review.** Based on the above report, an annual project review shall be conducted during the fourth quarter of the year or soon after, to assess the performance of the project and appraise the Annual Work Plan (AWP) for the following year. This review will be driven by the Project Board and will involve other stakeholders as required. It shall focus on the extent to which progress is being made towards outputs, and that these remain aligned to appropriate outcomes.
