

PROCUREMENT AND RECRUITMENT PLAN FOR 2019

Year: 2019

Project: Energy Access SMEs Development Project

Project ID: SVK10/00106776

EXPECTED OUTPUTS	PLANNED ACTIVITIES	TIMEFRAME				RESPONSIBLE PARTY	Funding Source	Planned procurement/recruitment in 2019
		Q1 2019	Q2 2019	Q3 2019	Q4 2019			
Output 1. Energy Access Regional (00107355)								
<p>Component 1: Enabling policy framework for capacity development for green energy</p> <p>Component 2: Access to finance enabled and business models for green energy SMEs and energy service users piloted</p> <p>Component 3: Access to sustainable energy services in remote rural areas provided</p>	<p>Activity 1.1 Develop and implement enabling policies and regulations for energy access for SMEs</p> <p>Activity 2.1 Establish the Energy Access Funding Platform (EAPF)</p> <p>Activity 3.2 Support energy access in 20 public buildings in Tajikistan and Kyrgyzstan</p> <p>Activity 3.3 Support installation of 8 mini-grids in selected villages in Tajikistan</p>	X	X	X	X	UNDP IRH	OFID	Consultancy services to support COs in the following areas: (i) development and implementation of enabling policies and regulations for energy access; (ii) establishing the energy access funding platform; (iii) identifying rural public buildings for provision of green energy solutions; and (iv) conducting feasibility surveys to locate and install mini-grids.
Output 2. Energy Access Tajikistan (00109263)								
<p>Component 1: Enabling policy framework for capacity development for green energy</p>	<p>Activity 1.1 Develop and implement enabling policies and regulations for energy access for SMEs</p> <p>Activity 1.2 Build capacity for local stakeholders</p>	X	X	X	X	UNDP CO Tajikistan	OFID	Consultancy services and services of companies to assess enabling policies and regulations for energy access for SMEs, as well as for building capacities of local stakeholders.
<p>Component 2: Access to finance enabled and business models for green energy SMEs and energy service users piloted</p>	<p>Activity 2.1 Establish the Energy Access Funding Platform (EAPF)</p> <p>Activity 2.2 Enable individual consumers to purchase their own energy access technology</p> <p>Activity 2.3 Provide support to SMEs</p>	X	X	X	X	UNDP CO Tajikistan	OFID	Consultancy and IT services for establishment of the Energy Access Funding Platform, as well as services of companies to develop financial products and to identify/test innovative business models.

<p>Component 3: Access to sustainable energy services in remote rural areas provided</p>	<p>Activity 3.1 Support green energy access in 5,000 households</p> <p>Activity 3.2 Support energy access in 7 public buildings in Tajikistan</p> <p>Activity 3.3 Support installation of 5 mini-grids in selected villages in Tajikistan</p>	X	X	X	X	UNDP CO Tajikistan	OFID	<p>Consultancy services and services of companies to provide access to sustainable energy technologies in remote areas, including production of visibility materials.</p> <p>Procuring and distributing energy efficient cooking and heating stoves.</p> <p>Grants to support energy access in public buildings and conducting tenders for procurement and installation of mini grids in rural villages.</p>
<p>Output 3. Energy Access Kyrgyzstan (00109264)</p>								
<p>Component 1: Enabling policy framework for capacity development for green energy</p>	<p>Activity 1.1 Develop and implement enabling policies and regulations for energy access for SMEs</p> <p>Activity 1.2 Build capacities of local stakeholders</p>	X	X	X	X	UNDP CO Kyrgyzstan and Public Fund "Center for Renewable Energy and Energy Efficiency Development"	OFID	<p>Consultancy and IT services for assessing policies and regulations for enabling energy access for SMEs.</p> <p>Grants for selecting green energy technologies with support on installation and maintenance.</p>
<p>Component 2: Access to finance enabled and business models for green energy SMEs and energy service users piloted</p>	<p>Activity 2.1 Establish the Energy Access Funding Platform (EAPF)</p> <p>Activity 2.2 Enable individual consumers to purchase their own energy access technology</p> <p>Activity 2.3 Provide support to SMEs</p>		X	X	X	UNDP CO Kyrgyzstan and Public Fund "Center for Renewable Energy and Energy Efficiency Development"		<p>Consultancy and IT services for establishment of the Energy Access Funding Platform, as well as services to identify/test innovative business models, including production of visibility materials.</p>

<p>Component 3: Access to sustainable energy services in remote rural areas provided</p>	<p>Activity 3.1 Support green energy access in 5,000 households</p> <p>Activity 3.2 Support energy access in 20 public buildings in Kyrgyzstan</p>	X	X	X	X	<p>UNDP CO Kyrgyzstan and Public Fund “Center for Renewable Energy and Energy Efficiency Development”</p>		<p>Consultancy services and services of companies to provide access to sustainable energy technologies in remote areas.</p> <p>Grants to support energy access in public buildings and procurement of small-scale energy efficient/green energy technologies.</p>
