

## UNITED NATIONS DEVELOPMENT PROGRAMME

Country: Tajikistan

### ANNUAL WORK PLAN 2013

<b>Project Title:</b>	Strengthening the supportive environment and scaling up prevention, treatment and care to contain HIV epidemic in the Republic of Tajikistan
<b>UNDAF Outcome:</b>	<b>Outcome 4.3.</b> There is greater access for the most vulnerable to quality health care services and an improvement in health behaviors, thereby preventing and reducing communicable diseases
<b>Expected CP Outcome:</b>	<b>Outcome 2</b> – Sustainable and efficient multi-sectoral response structures are established to halt the spread of HIV/AIDS and TB epidemics and eliminate Malaria by 2015 in line with MDGs
<b>Expected Output(s):</b>	<b>Output 2.1</b> - To scale up HIV prevention, treatment, care and support interventions in Tajikistan among high risk groups and the general population, including building government capacities for response
<b>Implementing Agency:</b>	United Nations Development Programme in Tajikistan
<b>Responsible Agencies:</b>	Republican AIDS Centre, Republican Scientific Blood Centre, National Centre for Dermatology and Venereal Diseases, Ministry of Labour and Social Protection of the Population, Department of Penitentiary Affairs of the Ministry of Justice, National Centre of Narcology, Committee on Youth, Sport and Tourism, Central Military Hospital of Ministry of Defence, International non-governmental organization <i>AIDS Foundation East-West (AFEW)</i> , International Organization for Migration (IOM), World Health Organization (WHO), United Nation's Children's Fund (UNICEF), Community-based Organizations (CBO)

### Brief Description

Round 8 HIV Grant *Strengthening the supportive environment and scaling up prevention, treatment and care to contain HIV epidemic in the Republic of Tajikistan*, is a five-year project that intends to reach highly at-risk and vulnerable groups of population by HIV prevention and harm reduction program in Tajikistan. The current project is at the Phase 2 of GFATM Round 8 period (October 2011 – September 2014). The key goal of the project is to provide universal access to HIV services, and lay the foundation for stabilizing the country's epidemic.

The project is based on the outcome 2 of the CPAP for 2010-2015 and is focused on scaling up of treatment, care and support to vulnerable groups and health system strengthening interventions. It will also keep contributing to national health care reform through building and improving technical and managerial capacities of health professionals, promoting participation of civil society in the response to the epidemic, and enhancing the cooperation of NGOs with the public health sector. In addition, the current HIV project intends to continue supporting a variety of service delivery points for IDUs, SWs, MSM, prisoners, ex-inmates, migrants, vulnerable women and other high-risk groups. The project remains the only source of funding for strengthening VCT services in the country; expanding the program to prevent the transmission of HIV from mother-to-child; improving the system of monitoring and evaluation; and providing treatment for ARV therapy and opportunistic infections.

Programme Period: **2011-2014**

Key Result Area: **Poverty Reduction and Achievement of MDGs /Health**

Atlas Award ID: **58593**, Project ID: **72826**

AWP Start date: **01.01.2013**

AWP End Date: **30.09.2013**

LPAC Meeting Date: **2 November 2011**

Management Arrangements: **DIM**

2013 AWP budget: **USD 4,385,378.00**

Total resources required: **USD 4,385,378.00**

Total allocated resources: **USD 4,385,378.00**
