Revision Type: Project Extension

Brief Description:

The Project at hand aims to assist the Government of Turkey (GoT) in the formulation of a coherent and comprehensive National Action Plan for IDP service delivery, by replicating the participatory, context-specific and multi-stakeholder consultation approach adopted in the preparation of the Van Action Plan, which resulted in a provincial level pilot project for service delivery to IDPs. To this end, in October 2008, the project activities started with the mobilization of relevant stakeholders and social partners at the provincial level. Due to the delay in the signature process of the project document, the local elections in 2008, increase in tension and security problems in the region the project duration is agreed to be extended to 3 years by the project partners. The budget revision at hand is for the extension in project duration from 1 to 4 years. The Project will be completed in October 2012.

Agreed by Ministry of interior:
