Dear colleagues

I would like to invite you all to participate in a virtual Internal Pre-Project Appraisal Committee (Pre-PAC) of the '*Support to the preparation of the NDP 2015/16-2019/20*' NIM Project (SPNDP Project), which we are about to start with the National Planning Authority (NPA) (See attached draft Project Document). As you will see, the project seeks to provide technical and financial support to the preparation of Government of Uganda's National Development Plan (NDP) 2015/16-2019/20 (i.e. NDP-II) in a number of selected areas.

The project is part of a wider effort by NPA to produce the NDP-II document by the end of 2014. As such, our support is directed to areas where we believe UNDP has a clear comparative advantage vis-à-vis other development partners. Other development partner, including UNCT agencies, are expected to support NPA in other relevant areas throughout this NDP-II preparation exercise.

Your comments on the project document would most welcome. We would appreciate if you could submit these by email in whatever format suits you best by 12pm noon, Monday 11th November. Please make sure you copy both Josephine and myself in your emails. Some of you have already submitted extensive comments to this draft project document. We will incorporate these at the end of this Pre-PAC appraisal, together with the rest of the comments we receive.

Best regards

Alex
