

Project Title: Governance Beyond Recovery. Responding to Strengthen Ukraine's Resilience in the Face of COVID-19 Epidemic (RESURFACE)
Project Number: 00134007
Implementing Partner: UNDP Ukraine
Start Date: 01.03.2021 **End Date:** 01.03.2022 **PAC Meeting date:** 04.03.2021

Brief Description

The **Governance Beyond Recovery. Responding to Strengthen Ukraine's Resilience in the Face of COVID-19 Epidemic (RESURFACE)** Project builds on **a)** approaches tested in the weeks following Ukraine's initial exposure to the pandemic through the UNDP Crisis Coordination and Management in Ukraine (CCMU) Project, **b)** results of the high-level dialogue between the UNDP Administrator and the Minister of Foreign Affairs in the summer of 2020, and **c)** in-depth dialogue between government counterparts that received initial support from UNDP as the pandemic started affecting Ukraine. The RESURFACE Project will work to **(1)** support internal (Office of the Prime Minister / SCMU) and external (MFA) crisis coordination capacity and **(2)** extract replicable lessons learned from institutional crisis adaptation to be replicated by other government entities for better performance and resilience (Ministry of Culture and Information Policy). The Project will also have three themes that penetrate all activities: **(a)** gender equality and strengthening protections for the most vulnerable first, leaving no one behind; **(b)** information security and strong communications that go well beyond immediate project priorities; **(c)** digital transformation culture and eliciting approaches that may further transform Ukraine's governance bodies, even as the in-country epidemic subsides (Ministry of Digital Transformation).

Contributing Outcome (UNDAF/CPD, RPD or GPD):
 UNDAF Outcome 1.1. By 2022, women and men, girls and boys participate in decision-making and enjoy human rights, gender equality, effective, transparent and non-discriminatory public services;
Indicative Output(s) with a gender marker
 Output 1.2. National institutions, systems, laws and policies advance the equitable realisation of human rights, especially among vulnerable groups;
Gender marker: GEN 2

V. Results Framework

Intended Outcome, as stated in the UNDAF/Country [or Global/Regional] Programme Results and Resource Framework: UNDAF OUTCOME: Outcome 1.1. By 2022, women and men, girls and boys participate in decision-making and enjoy human rights, gender equality, effective, transparent and non-discriminatory public services;						
Outcome indicators, as stated in the Country Programme [or Global/Regional] Results and Resources Framework, including baseline and targets: 1.1. Share of the population satisfied with recent use of public services, by sex and age (SDG). Baseline (2017): N/A. Target (2020): 40%						
Applicable Output(s) from the UNDP Strategic Plan: 1.3.1 National capacities and evidence-based assessment and planning tools enable gender-responsive and risk-informed development investments, including for response to and recovery from the crisis

EXPECTED OUTPUTS	OUTPUT INDICATORS	DATA SOURCE	BASELINE		TARGET	DATA COLLECTION METHODS & LIMITATIONS
			Value	Year	2022	
Output 1 The Government of Ukraine and the target Ministries have better capacity to provide a more coordinated, efficient and inclusive response to the COVID-19 national crisis	1.1 Number of PAUs established, incorporated into the regulatory documents of the relevant ministry or agency, and having a relevant action plan	Project records, document review	0	2020	3	To be counted towards the indicator, each PAU should have a relevant action plan that details PAU priorities for the year.
	1.2 Number of policy advice papers, reports or sets of recommendations produced	Project records	0	2020	15	To be counted towards the indicator, the relevant policy advice papers, reports or sets of recommendations should be submitted to the relevant host-agency either through an official letter or be presented to the agency leadership at a working meeting, seminar, round table or a different event.
	1.3 Number of people reached through communications / awareness-raising products produced with the assistance of PAU experts (women/men)	Project records, measurements done by the government partners	0	2020	>100,000 (proportion of women and men TBD based on campaign goals)	To measure the reach of communications efforts produced with the help of PAU experts, the government counterparts will have to conduct the necessary calculations. In an ideal scenario, sets of indicators for behavioural change communications as recommended by the World Bank are considered for application: https://openknowledge.worldbank.org/handle/10986/20227
	1.4 Number of digital solutions tested by government counterparts with the assistance of PAU experts	Project records	0	2020	2	Ukraine's regulations for design, certification and proper deployment of electronic systems and processes, which are quite lengthy, will likely prevent UNDP from claiming successful, full-scale deployment of solutions designed by the 12-month project. Yet, testing may be performed and completed in time to claim the initial results.
	1.5 Number of public officials passed training on disinformation	Project records	0	2021	50	To measure capacity development of the of public officials on disinformation the government counterparts will conduct the necessary calculations. Center for Strategic Communications and Information Security with the support of the project will deliver training sessions and will provide information about amount of public officials who passed the sessions.
