Annual Project Review

Project Name Project #

Annual Targets: Year:

> 84642 2014 Clima-East: Conservation and sustainable management of peatlands in Belarus to minimize carbon emissions and help ecosystems to adapt to climate change

Completed tenders and signed contracts on equipment for peatland biomass harvesting and processing.
 Developed plan on monitoring vegetation at Zvanets peatland and mapped Zvanets vegetation associations.

3. Estimated quantities of indicated bird species at Zvanets peatland and at harvesting area of Sprovo peatland.
