Approval of Programme

16 August 2021

Dear Mr. Poinsoot,

Reference is made to the programme proposal titled "Integrated support for the management of local development, the promotion of peaceful societies and human security in the Gbêkê region, in particular the four localities of Béoumi, Bottro, Bouaké and Sakasso".

It is my pleasure to inform you that this programme has been approved for financing from the United Nations Trust Fund for Human Security (UNTFHS).

We very much look forward to the successful implementation of the programme under your leadership and, in particular, the application of the human security approach in developing and implementing comprehensive and integrated strategies that better respond to the needs of local communities and promote their engagement in the recovery and rebuilding process towards enhanced social cohesion, development and stability in the longer-term in Côte d'Ivoire.

Yours sincerely,

Mehrnaz Mostafavi
Chief

Human Security Unit
