Brief Description

The CMP Multi-Donor project aims to complement a larger EU funded and UNDP implemented programme of support to the Committee on Missing Persons in Cyprus.

Support to the Committee on Missing Persons' Project on Exhumation, Identification and Return of Remains of Missing Persons in Cyprus was handed over from UNDP Bratislava Regional Centre to UNDP-Partnership for the Future Programme in Cyprus in July 2011 (today UNDP PMO in Cyprus). Ever since, UNDP Cyprus in full synergy with the overall mandate of the Committee of Missing Persons in Cyprus, is responsible for the day-to-day administrative, financial and procurement implementation of the project.

The overall objective of the project is to close, without further delay, a painful chapter in the history of the island and contribute to the process of rapprochement and reconciliation between the Greek Cypriot and Turkish Cypriot communities. This important objective will be further encouraged and promoted through the participation of bi-communal scientific teams in all stages of the process.

Through the CMP Multi-Donor initiative UNDP PMO in Cyprus aims to channel other international entities' and local authorities' financial support to the CMP to support ad-hoc funding needs identified by the three members. Activities under this project will be planned and carried out in full complementarity with the larger EU funded initiative hence contributing to the overall confidence building process by bringing the two communities to work together, reducing the number of missing, increasing awareness and building local capacities. The primary target group is the families of missing persons from both communities of the island.
