It is clear how results achieved by relevant partners will contribute to outcome level change complementing the project's intended results. If relevant, options for south-south and triangular cooperation have been considered, as appropriate. (all must be true to select this option)*
- 2: Some analysis has been conducted on the role of other partners where the project intends to work, and relatively limited evidence supports the proposed engagement of and division of labour between UNDP and partners through the project. Options for south-south and triangular cooperation may not have not been fully developed during project design, even if relevant opportunities have been identified.

1: No clear analysis has been conducted on the role of other partners in the area that the project intends to work, and relatively limited evidence supports the proposed engagement of UNDP and partners through the project. Evidence**Management Response**

El PNUD tiene una trayectoria de trabajo con la DIGEPRES desde el año 2012 en la que se han podido constatar las capacidades de gestión financiera de la contraparte en base a lo cual se eligió la modalidad de implementación de Pagos directos (en algunos casos por procesos realizados por el PNUD en otros casos por el gobierno). Esto además responde al hecho de que el proyecto anterior fue auditado financieramente en múltiples ocasiones mostrando resultados altamente positivos e igualmente se realizó una microevaluación para evaluar la capacidad financiera de la institución. Por esta razón catalogamos a esta institución como de riesgo bajo.

Evidencia:

- Microevaluación. (ver documento adjunto a la pregunta n°13)
