National & local capacity for sustainable environmental and natural resources management enhanced

Expected CPAP Output(s)/Indicator(s):

National and local capacities for implementation of local and global commitments enhanced

Implementing Partner:

Ministry of Environmental Protection and Natural Resources of Georgia

Revision description

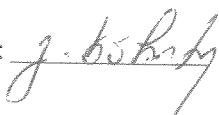

This substantive revision is to add a "Regional Climate Change Impact Study for the Caucasus Region" (RCCISSCR) project to the Climate Change Convention Enabling Activities Programme as the second output-project. The objective of the RCCISSCR is to enhance regional capacity for dealing with climate change risks in the Caucasus region. The implementation of RCCISSCR project and preparation of regional adaptation plan includes four activities: 1. Stocktaking exercise and identification of common issues; 2. Establishment of regional climate change scenario; 3. Vulnerability assessment; and 4. Development of regional CC study report.

The total budget of the UNFCCC EA Programme is US\$487,120, with US\$420,000 allocated to SNC output-project and US\$67,120 – to RCCISSCR output project. The overall duration the programme is five years (2005-2010) with the first national component (output-project) operationally completed in 2009 and with the second regional component (output project) to be commenced with the signature of this revision and to be completed by the end of 2010.
