3. Were the project's targeted groups systematically identified and engaged, with a priority focus on the discriminated and marginalized, to ensure the project remained relevant for them?

- 3: Systematic and structured feedback was collected over the project duration from a representative sample of beneficiaries, with a priority focus on the discriminated and marginalized, as part of the project's monitoring system. Representatives from the targeted groups were active members of the project's governance mechanism (i.e., the project board or equivalent) and there is credible evidence that their feedback informs project decision making. (all must be true)

5. Was the project sufficiently at scale, or is there potential to scale up in the future, to meaningfully contribute to development change?

- 3: *There was credible evidence that the project reached sufficient number of beneficiaries (either directly through significant coverage of target groups, or indirectly, through policy change) to meaningfully contribute to development change.*
- 2: While the project was not considered at scale, there are explicit plans in place to scale up the project in the future (e.g. by extending its coverage or using project results to advocate for policy change).
- 1: The project was not at scale, and there are no plans to scale up the project in the future.

**Evidence:**

El proyecto alcanzó resultados cuya implementación responden a una cobertura nacional, como la aplicación realizada para la Corte de Constitucionalidad en materia de notificaciones y el expediente digital incorporado a la Cámara de Amparos del OJ. Ambos, ahora se encuentran disponibles en sitios web a través de los cuales se puede acceder desde cualquier punto gracias a la conectividad. Por otro lado, en la PDH se aprobó la Guía de Atención Específica de Casos de Corrupción que violentan Derechos Humanos, la cual también es una política institucional con alcance nacional.

**Management & Monitoring**

**Quality Rating: Satisfactory**

9. Was the project's M&E Plan adequately implemented?

- 3: The project had a comprehensive and costed M&E plan. Baselines, targets and milestones were fully populated. Progress data against indicators in the project's RRF was reported regularly using credible data sources and collected according to the frequency stated in the Plan, including sex disaggregated data as relevant. Any evaluations conducted, if relevant, fully meet decentralized evaluation standards, including gender UNEG standards. Lessons learned, included during evaluations and/or After-Action Reviews, were used to take corrective actions when necessary. (all must be true)
- 2: *The project costed M&E Plan, and most baselines and targets were populated. Progress data against indicators in the project's RRF was collected on a regular basis, although there was may be some slippage in following the frequency stated in the Plan and data sources was not always reliable. Any evaluations conducted, if relevant, met most decentralized evaluation standards. Lessons learned were captured but were used to take corrective actions. (all must be true)*
- 1: The project had M&E Plan, but costs were not clearly planned and budgeted for, or were unrealistic. Progress data was not regularly collected against the indicators in the project's RRF. Evaluations did not meet decentralized evaluation standards. Lessons learned were rarely captured and used. Select this option also if the project did not have an M&E plan.

**Evidence:**

El proyecto estableció un plan de monitoreo, con indicadores que incluyeron una línea de base y una frecuencia trimestral de recolección de información. Se le dio seguimiento a este plan de M&E en el sistema Atlas.

10. Was the project's governance mechanism (i.e., the project board or equivalent) function as intended?

- 3: The project's governance mechanism operated well, and was a model for other projects. It met in the agreed frequency stated in the project document and the minutes of the meetings were all on file. There was regular (at least annual) progress reporting to the project board or equivalent on results, risks and opportunities. It is clear that the project board explicitly reviewed and used evidence, including progress data, knowledge, lessons and evaluations, as the basis for informing management decisions (e.g., change in strategy, approach, work plan.) (all must be true to select this option)
- 2: *The project's governance mechanism met in the agreed frequency and minutes of the meeting are on file. A project progress report was submitted to the project board or equivalent at least once per year, covering results, risks and opportunities. (both must be true to select this option)*
- 1: The project's governance mechanism did not meet in the frequency stated in the project document over the past year and/or the project board or equivalent was not functioning as a decision-making body for the project as intended.

**Evidence:**

Se realizó una Junta de Proyecto de cierre del proyecto, en la cual se presentaron los resultados alcanzados al Organismo Judicial y la Corte de Constitucionalidad y se reflexionó sobre las lecciones aprendidas del proyecto.

11. Were risks to the project adequately monitored and managed?

- 3: The project monitored risks every quarter and consulted with the key stakeholders, security advisors, to identify continuing and emerging risks to assess if the main assumptions remained valid. There is clear evidence that relevant management plans and mitigating measures were fully implemented to address each key project risk and were updated to reflect the latest risk assessment. (all must be true)
- 2: *The project monitored risks every year, as evidenced by an updated risk log. Some updates were made to management plans and mitigation measures.*
- 1: The risk log was not updated as required. There was may be some evidence that the project monitored risks that may affected the project's achievement of results, but there is no explicit evidence that management actions were taken to mitigate risks.

**Evidence:**

Se realizó un monitoreo de los riesgos con frecuencia trimestral, actualizando las actividades de mitigación en el sistema Atlas.

- 3: The project had a procurement plan and kept it updated. The project quarterly reviewed operational bottlenecks to procuring inputs in a timely manner and addressed them through appropriate management actions. (all must be true)
- 2: *The project had updated procurement plan. The project annually reviewed operational bottlenecks to procuring inputs in a timely manner and addressed them through appropriate management actions. (all must be true)*
- 1: The project did not have an updated procurement plan. The project team may or may not have reviewed operational bottlenecks to procuring inputs regularly, however management actions were not taken to address them.

14. Was there regular monitoring and recording of cost efficiencies, taking into account the expected quality of results?

- 3: There is evidence that the project regularly reviewed costs against relevant comparators (e.g., other projects or country offices) or industry benchmarks to ensure the project maximized results delivered with given resources. The project actively coordinated with other relevant ongoing projects and initiatives (UNDP or other) to ensure complementarity and sought efficiencies wherever possible (e.g. joint activities.) (both must be true)
- 2: *The project monitored its own costs and gave anecdotal examples of cost efficiencies (e.g., spending less to get the same result,) but there was no systematic analysis of costs and no link to the expected quality of results delivered. The project coordinated activities with other projects to achieve cost efficiency gains.*
- 1: There is little or no evidence that the project monitored its own costs and considered ways to save money beyond following standard procurement rules.

**Evidence:**

El proyecto siguió los procedimientos administrativos, financieros y de adquisiciones del PNUD por lo que se buscó el mejor proveedor por el mejor costo. Según las instituciones beneficiarias, la calidad de los insumos recibidos así como la calidad técnica de los consultores fue altamente valorada por ellas.

15. Was the project on track and delivered its expected outputs?

- Yes
- No

**Evidence:**

El proyecto entregó los productos esperados y alcanzó en un 100% las metas establecidas al inicio del proyecto. Se fortaleció la capacidad de la Corte de Constitucionalidad, el Organismo Judicial y la Procuraduría de Derechos Humanos para promover y facilitar procesos de gobernanza inclusiva y responsable a través de la incorporación de soluciones innovadoras como lo fue el diseño e implementación de una aplicación móvil dentro del sistema informático de expedientes de la CC que permite a los notificadores registrar en tiempo real el resultado de las notificaciones realizadas. Esto ha agilizado y optimizado el trámite de dichas actividades pasando de 400 expedientes con retraso en el escritorio de notificadores a 100 expedientes con retraso al finalizar el proyecto.

16. Were there regular reviews of the work plan to ensure that the project was on track to achieve the desired results, and to inform course corrections if needed?

- 3: Quarterly progress data informed regular reviews of the project work plan to ensure that the activities implemented were most likely to achieve the desired results. There is evidence that data and lessons learned (including from evaluations /or After-Action Reviews) were used to inform course corrections, as needed. Any necessary budget revisions were made. (both must be true)
- 2: *There was at least one review of the work plan per year with a view to assessing if project activities were on track to achieving the desired development results (i.e., outputs.) There may or may not be evidence that data or lessons learned were used to inform the review(s). Any necessary budget revisions have been made.*
- 1: While the project team may have reviewed the work plan at least once over the past year to ensure outputs were delivered on time, no link was made to the delivery of desired development results. Select this option also if no review of the work plan by management took place.

#### Evidence:

El proyecto tuvo una vigencia de 12 meses, por lo que al inicio del mismo se estableció un Plan de Trabajo Anual el cual fue monitoreado de manera periódica para asegurar la efectiva ejecución en el plazo establecido. Se realizó una revisión presupuestaria al inicio del año 2020.

17. Were the targeted groups systematically identified and engaged, prioritizing the marginalized and excluded, to ensure results were achieved as expected?

- 3: The project targeted specific groups and/or geographic areas, identified by using credible data sources on their capacity needs, deprivation and/or exclusion from development opportunities relevant to the project's area of work. There is clear evidence that the targeted groups were reached as intended. The project engaged regularly with targeted groups over the past year to assess whether they benefited as expected and adjustments were made if necessary, to refine targeting. (all must be true)
- 2: *The project targeted specific groups and/or geographic areas, based on some evidence of their capacity needs, deprivation and/or exclusion from development opportunities relevant to the project's area of work. Some evidence is provided to confirm that project beneficiaries are members of the targeted groups. There was some engagement with beneficiaries in the past year to assess whether they were benefiting as expected. (all must be true)*
- 1: The project did not report on specific targeted groups. There is no evidence to confirm that project beneficiaries are populations have capacity needs or are deprived and/or excluded from development opportunities relevant to the project area of work. There is some engagement with beneficiaries to assess whether they benefited as expected, but it was limited or did not occurred in the past year.

### QA Summary/Final Project Board Comments

Los resultados alcanzados a raíz de la implementación de estas estrategias han contribuido a la agenda de desarrollo del país, específicamente al Plan Nacional de Desarrollo “Nuestra Guatemala 2032” en eje “Estado como garante de los derechos humanos y conductor del desarrollo”. Asimismo, contribuyó a Prioridad Nacional de Desarrollo “Crear instituciones eficaces, responsables y transparentes a todos los niveles”. A nivel de la Política General de Gobierno 2020- 2024 se contribuyó al pilar estratégico “Gobernabilidad y Seguridad en Desarrollo” así como a la Agenda de los ODS, en específico al ODS 16: “Paz, Justicia e Instituciones Sólidas”. En este marco, la transversalización del enfoque de igualdad de género y étnico se incorporó en cada una de las fases de la presente iniciativa para promover la prestación de servicios más efectivos, incluyentes e integrales, así como de las capacidades de auditoría social de la ciudadanía y de las organizaciones de la sociedad civil. Al respecto, se fortaleció la capacidad de la Corte de Constitucionalidad, el Organismo Judicial y la Procuraduría de Derechos Humanos para promover y facilitar procesos de gobernanza inclusiva y responsable a través de la incorporación de soluciones innovadoras como lo fue el diseño e implementación de una aplicación móvil dentro del sistema informático de expedientes de la CC que permite a los notificadores registrar en tiempo real el resultado de las notificaciones realizadas. Esto ha agilizado y optimizado el trámite de dichas actividades pasando de 400 expedientes con retraso en el escritorio de notificadores a 100 expedientes con retraso al finalizar el proyecto.
