GUY-MINISTRY OF INDIGENOUS PEOPLE'S AFFAIRS

Brief Description:

Guyana's Low Carbon Development Strategy (LCDS) emphasizes the importance of protecting Indigenous land rights and opening windows of opportunities for Amerindians, especially those who depend on the forest resources as a means of livelihood. The objective of this project is to facilitate the Amerindian Land Titling process. Amerindians comprise 9.1 percent of Guyana's population and currently own approximately 13.9 percent of the land, up from 6 percent in the early 1990's. The Government of Guyana has set the policy objective of addressing all Land Titling issues by 2015, for Amerindian villages where two thirds of the adult population request this to be done based on the principles of free, prior and informed consent. Historically, high cost has been a barrier to achieving this policy objective. The Government intends to allocate substantial funding from the Guyana REDD+ Investment Fund (GRIF) via this project to remove this barrier. Through engagement and consultation and based on requests from villages or communities, the project seeks to enable Amerindians to secure their lands and natural resources with a view towards sustainable, social and economic development. It is expected that titling of communities will strengthen land tenure security and the expansion of the asset base of Amerindians, enabling improved long term planning for their future development. It is also expected to enhance the opportunities for villages to 'opt-in' to the REDD+ and the LCDS, should they wish to do so.

Agreed by Ministry of Indigenous People's Affairs:

Date: 20/09/16

Alfred King, Permanent Secretary

PERMANENT SECRETARY
MINISTRY OF INDIGENOUS AFFAIRS

Agreed by UNDP:

Date:

Shabnam Mallick, Deputy Resident Representative
