**Country: Guyana**  
**Initiation Plan**

**Project Title:** Assessment and Monitoring of Land Degradation, and the Promotion of Sustainable Land Management Practices in the Natural Resources Sector

**Expected SP Outcome(s):** (Outcome 1) - Growth and development are inclusive and sustainable, incorporating productive capacities that create employment and livelihoods for the poor and excluded

**Expected CP Outcome(s):** (Outcome 3) - Improved Functional Capacity of Key Natural Resources and Disaster Risk Management Institutions

(Those that are linked to the project and extracted from the CPAP)

**Initiation Plan Start Date:** May 1, 2015

**Initiation Plan End Date:** January 31, 2016

**Implementing Partner:** UNDP

**Brief Description**

The United Nations Development Programme (UNDP) is providing assistance to the Government of Guyana to prepare a GEF Project Document for a medium-sized project (MSP) entitled "Assessment and Monitoring of Land Degradation, and the Promotion of Sustainable Land Management Practices in the Natural Resources Sector", and to facilitate the development of policy options for the Guyana Green Economy Initiative (GGEI). These interventions will assist the Government of Guyana to develop and implement strategies, policies and plans for economic growth on the sustainable use of natural resources and the environment to generate long-term jobs and wealth that are needed to help develop the country and its people. Through this MSP, Guyana will address capacity building of persons in natural resources and regulatory agencies to promote sustainable land management (SLM) practices during its interaction with and administration of permits to land users. Through the GGEI, Guyana will focus on investment in the sustainability of ecosystem services, as well as developing and implementing strategies, policies and plans for economic growth on the sustainable use of natural resources and the environment to generate long-term jobs and wealth. Together, these initiatives will build capacity and strengthen public policies with respect to land use and that will contribute to reduction in land degradation.

<b>Programme Period:</b>	2012-2016	Total resources required	USD 98,000

## **I. PURPOSE**

Allows for the preparation of GEF MSP on "Assessment and Monitoring of Land Degradation, and the Promotion of Sustainable Land Management Practices in the Natural Resources Sector". This in turn is expected to lead to the approval and implementation of a medium-sized project (MSP) for address capacity building of persons in natural resources and regulatory agencies to promote sustainable land management practices during its interaction with and administration of permits to land users.

Facilitates the development of the policy framework and policy options in support of inclusive green growth for all sectors of the Guyana economy.

Together, these initiatives will build capacity and strengthen public policies with respect to land use and that will contribute to reduction in land degradation.

---

## **II. EXPECTED OUTPUT**

The Final GEF Project Document for MSP on "Assessment and Monitoring of Land Degradation, and the Promotion of Sustainable Land Management Practices in the Natural Resources Sector" submitted to the GEF Secretariat for approval. This will require sufficient co-financing to be identified in accordance with GEF guidelines. Accordingly, a plan to mobilise resources will also be devised.

A policy framework and policy options to support inclusive green growth for all sectors of the Guyana economy.

---

## **III. MONITORING**

The following will be the monitoring structure for the preparation of the Project Document and study report:

- Progress will be continually monitored by the UNDP Guyana to ensure that any issues potentially delaying the final completion and submission of the Project Document and Guyana Green Economy Initiative Policy Framework will be flagged and corrective action will be proposed.
- Quality of the Project Document will be assured by the Regional Technical Advisor of the UNDP/GEF Unit in Panama Regional Service Centre and assessed in July 2015 through the submission of a draft Project Document to the GEF Secretariat. This stage will allow for feedback, comments and suggested modifications to be made before delivery of the Final Project Document.

ANNUAL WORK PLAN

Year: 2015

<b>Output 2.</b> A policy framework and policy options to support inclusive green growth for all sectors of the Guyana economy.	<b>Activity Result:</b> Final Policy Report and State of Environment / Country Environmental Profile Report submitted to the Ministry of Natural Resources and the Environment	UNDP	TRACI	71200 - International Consultants	12,000
	<b>Baseline:</b> No policy framework and policy options to support inclusive green growth for all sectors of the Guyana economy. Dated state of environment/country environmental profile report (2006)			71300 – Local Consultant	3,000
