

Regional Bureau for Arab States Project Document Water Governance Programme for Arab States

Narrative

The goal of the Water Governance Programme for Arab States is to improve the effective use and management of scarce water resources in Arab countries. It aims at supporting the achievements of the MDG 7 particularly with respect to improved water supply and sanitation, by promoting an integrated approach to water resources management in the Arab Region. It is envisaged to act as a catalyst for effective water governance through the provision of technical and policy support, capacity building and seed funding for activities in the areas of 1) Integrated Water Resources Management; 2) Local management of water resources, water supply and sanitation; 3) Capacity building and institutional strengthening; and 4) MDG-7 water targets monitoring and State of the Water Report for the Arab Region. In addition, the project will be addressing some cross-cutting dimensions such as adaptation to climate change, transboundary water management, gender mainstreaming and awareness raising
