Dear Pascale,

Thank you for having shared the quarterly progress report (2Q2019) on the UN Haiti Cholera Response MPTF JP – [CLH6 - 2nd phase of the Community Assistance](#).

Here attached is the review, which include few comments to be addressed before uploading the final document on the project-page of the Gateway. Please note that since this is a JP with UNOPS, we need to receive a consolidated report on the activities. If this 1st phase mostly focuses on the community consultation process mainly led by UNDP, kindly note this info in the Narrative section of Updates and Key Achievements. In addition, UNOPS needs anyway to include the key information in the cover page of the consolidated report (see comments).

Thank you in advance for your support with the finalization of the report and please, do not hesitate to let me know should you have any questions.

With kind regards,
Cristina
