Implementing Partner:	Department of Correctional Services (DCS)

Brief Description

Children/juveniles in conflict with the law have special needs, which cannot be met in institutions equipped and staffed for adults. It is important that the new youth remand facility at Metcalfe has the necessary capacity to provide programmes that allow for education, training and the enhancement of social reintegration prospects of wards of the state. This includes the work needed to allow for the delivery of work/training programmes to provide youths with alternatives upon release.

The project will support the DCS in the acquisition of inputs in the form of tools, equipment, materials and limited technical support to facilitate initiatives aimed at giving juvenile remandees access to a healthy, safe, secure and caring environment. Through this intervention UNDP and USAID hope to assist the DCS in counteracting the likelihood of remandees being drawn into a vicious cycle of poverty, violence and exclusion.
