A. QUARTERLY SUMMARY OF ACTIVITIES

Deliverables of the Migration Profile (EMP) have been received and reviewed by the Migration Policy Project Unit (MPU) with feedback provided to the consultants. The first draft of the EMP was submitted at the end of December 2011 as outlined in the consultant's work plan. This will be reviewed by the National Working Group on International Migration and Development (NWGIMD) and feedback transmitted to the consultants by the end of the first week in January 2012.

A Strategic Planning Meeting to discuss and revise the proposed sub-themes of the National Policy on International Migration and Development was held on November 18 involving PIOJ and IOM, Kingston. During this meeting a list of the following 8 proposed sub-themes including guidelines was developed:

1. Labour Mobility and Development
2. Diaspora and Development

3. Remittance and Development
4. Human Rights and Social Protection
5. Governance and Policy Coherence
6. Data, Research and Information Systems
7. Return and Reintegration of Migrants
8. Family Migration and Development

Terms of Reference (ToRs) were prepared for the Sub-committees, International Experts and the Policy Development Consultant. The sub-committees are projected to begin work in early January 2012. The consultant and International Experts are expected to begin February-March 2012.

B. CHALLENGES/ CONSTRAINTS

The consultant team experienced delays in finalizing and submitting the drafts of the Migration Profile which have stemmed from the difficulties obtaining information from key stakeholders. As a temporary measure, the MPU forwarded data that has been published in the Economic and Social Survey of Jamaica (produced by the PIOJ) and other unpublished information to the consultant team to minimize the delay.

Activities in the quarter were affected by impending general elections being held in the month of December. Several aspects of the National Policy and Plan of Action were re-scheduled pending the outcome of the elections. The recruitment of the Policy Consultant and International Experts for the sub-committees was delayed due to the impending elections which caused a lull in state agencies' activities island wide. The ToRs were, however finalized and shared with the NWGIMD and the Project Board. The ToRs will also be shared with the International Development Partners (IDPs) represented on the Project Board. The positions will be advertised locally and internationally, a strategy employed by the MPU to increase the pool of applicants as the area is fairly new in Jamaica.

The former chairperson of the NWGIMD Senator the Honourable Marlene Malahoo Forte, demitted office prior to the general election. As a result, the PIOJ will continue as technical co-chair until a new Chair is appointed by the Ministry of Foreign Affairs and Foreign Trade.

As a follow-up to initial discussion between the MPU and UNDP Jamaica about the possibility of an extension for the project, a virtual meeting was held with Ms Sarah Rosengaertner of the GMG, the main representative of the donor. The meeting discussed the overall project and the extension of the GMG component. Ms Rosengaertner recommended that the request be included in the Annual Progress Report. This will be discussed at the next meeting of the Project Board, scheduled for January 2012.

The meeting discussed the time implications for the project of the delay caused by the bureaucratic issues over the past few months. A no cost extension was proposed for 3 additional months. This was made in light of the effect of the delay in accessing funding. The Project Board recommended that the request be made in writing to UNDP through the Country Office. Members also agreed on the QWP, an alternate work plan that was presented and the project tolerance for the quarter was set at 20%.	Project Board meetings held.	Project Board meetings held.

The consultancy was due to begin by the end of July, but started on September 1. This was due to the consultant seeking clarification on the scope of the study in relation to the TOR and the summary of main actions, timelines and deliverables. E. IMPLEMENTATION CONSTRAINTS, RISKS AND LESSONS LEARNED

Implementation Constraints	Significance	Response/Action
First draft of Implementation plan for Migration Profile and rapid assessment to identify migration and development sub-themes were not satisfactory	Medium ⁶	<ol style="list-style-type: none"> Meeting held with Consultancy team to clarify expectations Sample implementation plans forwarded to the Consultancy Team as a guide Strategic meeting between PIOJ and IOM Kingston was held to revise sub-themes
Migration Profile consultant advised that an analysis on the relationship between Migration and Development cannot be included in the MP	Medium	Decision made for a Situational Analysis to be conducted as part of the development of the National Policy Consultancy.

⁶ The levels of significance are rated accordingly: High = 3, Medium = 2 and Low = 1 on a Likert scale, where 1 represents the least likelihood to impact the projects activities, objectives and outputs and 3 has the most likelihood of impacting

Risks	Response/Action
The delay in the commencement of the Extended Migration Profile will have implications for the timeline within which the National Policy and Plan of Action will be developed	Care will have to be taken to recruit and contract an expert team of consultants who can work effectively with competing priorities and within timelines for the development of the policy and plan of action.

LESSONS LEARNED:

- The challenges in data collection faced by the consultant team for the Migration Profile will inform the approach taken with the stakeholder consultation to be conducted by Policy Development Consultant. Contact will be made with stakeholders to sensitize about the policy as well as a strategy will be formulated to ensure information is requested in a structured and timely manner.
- The decision to not recruit a consultant to draft the TOR for sub-committees, but for the MPU to draft the TOR has saved money and mitigated against further delay in establishing the sub-committees.
- Due to the delay in the commencement of the Migration Profile study as a result of revising the TOR for better clarification, it has been learned that since Migration and Development is a new area, all TOR's relating to the project must be explicit about what is required regarding the linkages between Migration and Development
