## Project Summary

under this project. Overall, the expected outcome of this CTP project is enhanced national institutional capacity for conflict management, prevention, and resolution with processes. Finalization of the development of the national conflict early warning and early response system, together with the NSC website are also critical undertakings in August 2010 following a peaceful referendum. It therefore, leverages the successes gained from this peaceful referendum and builds on them with a view to align the be able to effectively address the potential and real conflicts in Kenya. In this regard, the project takes cognizance of the fact that Kenya promulgated a New Constitution armed violence in order to nurture peace and enhance development opportunities in Kenya. The project acknowledges the need for strengthened peace structures that will support to policy formulation and implementation and formulation of community peace agreements. Finally, the project will be keen on integrating monitoring and evaluation in peacebuilding and conflict management Monitors to enable them play an important role in the operationalization of County Peace For a and District Peace Committees; support for community civic dialogue national conflict analysis and mapping together with community scans in select communities with a view to inform interventions; Continued facilitation of Peace This is a national project whose overall objective is to strengthen the capacity of national and community peace structures to effectively prevent and reduce levels of the establishment and reconstitution of peace structures; strengthening the skills base of the various peace actors through training and sensitization; facilitating the peace structures to the new constitutional dispensation. Key areas of focus that the project will focus on in order to achieve the expected outputs and outcomes include
