Revision Type: General Revision 3

Brief Description:

The purpose of the current budget revision is to:

- 1) Add new Activity 2.3.2. to support Scientific-Practical Conference of MES planned in Issyk-Kul;
- 2) Shift Activity 4.3.1. to 2014, since the main directions will be identified only based upon upcoming Regional Conference in October;
- 3) Shift some leftover of Naryn ABD back to DRMP (fund owner) due to non-existence of DAO lines of Naryn ABD Project;
- 4) Make other internal reallocation (e.g. due to completion of Activity 1.1.2. the leftover in the amount of \$ 3,291.00 shifted to Activity 1.1.1.)

State authorities and organizations: National Statistical Committee, Secretariat of the National DRR Platform, Scientific Research Institutes, Institutions of Higher Education.

Local level partners: local state administrations, local self-governments, Civil Protection Commissions.

BRIEF DESCRIPTION

Within the framework of UNDAF 2005-2011 UNDP has made important contributions in disaster prevention and recovery through mainstreaming disaster risk management into decentralized policy-making (as recommended by a mid-term outcome evaluation) and in strengthening disaster response and coordination frameworks. Past cooperation and lessons learned show that articulation of sustainable development of disaster-poverty-environment nexus is uneven and has not yet been internalized throughout sectoral policies and practices. In line with these recommendations, this Project Document makes stronger emphasis on: a) integrating Disaster Risk Reduction (DRR) into sustainable development programming b) strengthening of national disaster risk assessment and monitoring capacity c) building local level DRR capacity d) strengthening regional cooperation and making DRR gender and age sensitive. The centrepiece of this Project Document is to assist in shifting the focus of national and local DRR policies and practices from post-disaster response and recovery to comprehensive disaster risk reduction, which is synergetic with climate change, poverty reduction, good governance, gender equality and other interrelated dimensions, so to increase human security and safety.
