## ISIC Rev.4 Implementation Project

Classification Manual with ISIC Rev.4 codes and migration of data

by Ahmad AlMohammad

June 18<sup>th</sup>, 2017

## Detailed Plan to Migrate Data to ISIC Rev.4

by using combination of Company-level Mapping and Activity-level Mapping

Item	Detailed work
<b>Migration of 7,761 Companies and Government Contract with 25+ employees to ISIC Rev.4 and ISIC Rev.3</b>	Companies and government contracts with 25+ employees are mapped to ISIC Rev.4 and ISIC 3.1 using Company-level mapping process in order to correct their economic activity classifications ,create a transitional ISIC2 – ISIC Rev.4 mapping table, calculate the real impact of changing kuwaitization policy and define the best plan and procedures to ISIC Rev.4 Adoption
<b>ISIC Rev.4 Classification Manual</b>	The Manual is created in refence to the Gulf classification of economic activities and by maintaining the compliance to the 4 <sup>th</sup> level of ISIC Rev.4 standard classification
<b>PAM ISIC Rev.2 to ISIC Rev.4 Mapping Table</b>	The Mapping Table is created using Activity-level mapping exercise ,and one to one economic activity mapping between ISIC2 and ISIC Rev.4
<b>Migration of Data to ISIC Rev.4</b>	PAM will initiate a one time migration exercise to update economic activity of all companies and government contracts from ISIC2 to ISIC Rev.4 classification using <b>ISIC Rev.2 to ISIC Rev.4 Mapping Table</b> and in cooperation with <b>PAM specialized team</b> to validate and correct wrongly classified companies and government contracts
