Narrative

Project background and objective

Since joining the Association of Southeast Asian Nations (ASEAN) in July 1997, Lao PDR has emphasized the importance of full integration into ASEAN through active participation in economic, political, security and socio-cultural affairs. Economic cooperation, in particular, and the inclusion in the ASEAN Free Trade Area (AFTA) is seen as crucial for the development of the country.

However, full integration poses various challenges for Laos. Among the most significant include: increasing the capacity of the GoL to manage the process of integration; analyzing the impacts of AFTA and other Free Trade Agreements currently under negotiation and finding ways to achieve maximum benefits from ASEAN economic integration and other aspects of ASEAN integration; increasing understanding among local officials, business leaders and the general public in order that they are able to benefit from AFTA and other aspects of ASEAN integration.

A three-year cooperation project is designed to promote human development, trade and economic growth in Lao PDR through integration in ASEAN. This will be achieved through delivery of the following outcomes:

- Increased national commitment to the process of ASEAN integration.
- Improved capacity to coordinate ASEAN affairs within the Government of Lao PDR.
- Enhanced national capacity to assess policy implications of regional integration.
