

3 February 2012

Dear Mr. Pham,

Subject: Annual Work Plan 2012 for MAFIPP Joint Programme

The attached requests your concurrence to the AWP 2012 for this Inclusive Finance project, which includes a funding gap for the year of \$352,000. While some gap in funding was already anticipated for this year, the amount rose in December due to an across the board reduction in ASL for all UNCDF projects, the effect of which was to reduce the contribution from UNCDF core for Lao PDR by \$200,000 to \$400,000. With the UNDP contribution, the total ASL for 2012 will be \$460,000 while approx \$600,000 was anticipated.

The project has scaled back the activities in this budget by approximately \$200k to reduce the gap to its current level while retaining critical programme initiatives. It is our assessment, any further cut back to the AWP 2012 may affect the smooth working relationship with the Bank of Lao PDR. In addition, we believe that donor funding at this level is achievable in this year. We have received a preliminary expression of interest from Luxembourg and will further define our funding strategy for the year at the upcoming UNCDF regional retreat in Bangkok next week. While we have no assurances at this time, we are optimistic that this gap can be closed with donor commitments. In addition, in cooperation with BOL we will be prioritizing programme activities this year to attract donors as well as to ensure that critical activities and commitments continue to be met.

Given the slow start this project has already experienced since signing in July 2010, it is essential to proceed with planned activities while concurrently seeking donor commitments to close the gap. It is agreed among our team that in 2012, fundraising will take priority over most programme activities, with a goal of closing the \$352k gap allowing us to implement 100% of our deliverables.

We appreciate your support and welcome your advice as we solicit donor participation in the MAFIPP joint-programme this year.

Yours sincerely,

Feisal Hussain

Annual Work Plan 2012 Lao PDR

Project Title	Making Access to Finance more Inclusive for Poor People
Project Number	00076452
UNDAF Outcomes:	UNDAF OUTCOME 1: The livelihoods of poor, vulnerable and food insecure populations are enhanced through sustainable development
Joint Programme Outcome:	Increased access to financial services by low-income households and micro-entrepreneurs.
Expected Joint Programme Outputs:	<ul style="list-style-type: none"> 1. Policy makers more able to improve the policy and regulatory environment in line with operational realities of financial service providers nationally and accepted good practice internationally. 2. The financial sector development infrastructure more capable to meet the needs of financial service providers. 3. Financial service providers more responsive to the financial service needs of poor households and micro-entrepreneurs.
Implementing Partner:	Department of Financial Institution Supervision; Bank of The Lao PDR (BOL)
Responsible Parties:	Various stakeholders

Narrative

Achievement of MDGs generally and improving opportunities for current and future generations is critically dependant on significantly increasing people's access to finance. Increasing access and thereby improving opportunities for the majority will require a sector based approach to transform the ability of financial markets to respond to demands for financial services for those without access.

This joint programme, nationally implemented by the Bank of the Lao PDR (BOL) on behalf of the Government of the Lao PDR (GOL), will contribute to improved and equitable access to land, markets and social and economic services, as well as to an enabled environment for economic growth with equity. It will specifically increase access to financial services by low-income households and micro-entrepreneurs on a sustainable basis from 30,000 active clients in 2010 to over 140,000 active clients by 2014. The joint-programme will give practical expression to the 2006 Vientiane and Paris Declaration on Aid Effectiveness by establishing a pooled funding mechanism to facilitate donor coordination, providing a framework for more coherent programming.
