II. PURPOSE

Strengthening Capacity and Service Delivery of Local Administrations (GPAR SCSD) project was officially launched on 03 February 2012. This project is being implemented in alignment with other projects of the National GPAR Programme. The overall objective of this project is increased capacity in the local administration, leading to better delivery of services which improve the lives of the poor, especially in rural areas of Lao PDR. The strategy is to build around a series of interrelated outputs that take forward proven results and innovations to realise the overall outcome. These include the introduction of district level performance assessments and performance based Block Grants (capital and recurrent) that will provide incentives for improved overall performance linked to the local administration mandate, the project seeks to improve local MDG-targeted service delivery through increased capacity and long term reform.

Target: 1.3 Review and support drafting and/or update regulations/instructions on local administration	<ul style="list-style-type: none"> Support to 6 specialist support teams led by MoHA, for nation-wide capacity development workshops, in support of PM Order (16/2012) on mandates and plans for strengthening sub-national administrations, for all 17 Provincial Administrations and 51 participating District Administrations, including 105 selected Villages. Participants numbered 2,140 people, from the leadership of Provinces and Districts and senior sector management, divisions and offices. 	16/2012).
Target: 1.4 Review block grant formula for both capital and recurrent expenditures & MTEF	<ul style="list-style-type: none"> Preparatory work on equity focused block grants for capital and recurrent (operational expenditures) begun under previous related project (GPAR SBSD) and finalized internally by GPAR SCSD. 	<ul style="list-style-type: none"> Target achieved: District Development Fund (DDF) block grant formula, which are a proven mechanism to promote effective use of resources for local administration and service delivery, have been reviewed and updated. The new DDF system introduces a Performance Based Grant System for district administrations, which provide a basis to monitor and analyse in coming years, comparative district performance across 21 indicators addressing key institutional performance areas of planning, financial
Target: 1.5 Establish a system for Performance Based Grant allocation		
Target: 1.6 Analysis and develop institutional performance standards /measures (Linked to above)	<ul style="list-style-type: none"> Mission undertaken to Review of Operational Expenditure Block Grant (OEBG) and Options for the Future. Mission undertaken to support establishment of (DDF) Performance based Grant 	

III. PROJECT PERFORMANCE AND RESULTS

1. Contribution to the strategic goals

Outcome: Improved capacity in the local administration helps deliver services that improved the lives of the poor, especially in rural areas.
Related UNDAF Outcome(s): By 2015, the poor and vulnerable benefit from the improved delivery of public services, an effective protection of their rights and greater participation in transparent decision making.
Progress towards achieving outcome: Activities have progressed, in all strategic areas including policies and frameworks for more effective local administration, and related local capacity building, design and introduction of a performance based district block grant that will encourage improved public service delivery, participatory and transparent prioritisation of local service interventions for District Development Fund block grants across, preparation for expansion of district One Door Services and to 11 government offices from the CADEM in support of strategic innovations in Public Administration reforms.

2. Update on implementation of the Vientiane Declaration and its Action Plan

- DDF use of government systems, procedures and officials represents a clear working example of alignment with national systems, greater national ownership and an effective method for sustainable development
- The Project operates as an integral part of the national GPAR programme and participates, along with its sister NGPS project, in the Governance Sector Working Group, and two Sub Sector Working Groups and Secretariat operational.

3. Update on partnerships

- Close partnership with provincial and district administrations on capacity development
- Partnership with Ministry of Planning and Investment & Ministry of Finance and local authorities on DDF Implementation
- Collaboration with UNICEF around DDF-OEBG and enhanced local-level targeting/planning, beginning in Sing District, Luang namtha

4. Update on gender mainstreaming

- The SCSD project design, outcomes and targets are well regarded as being gender sensitive. SCSD project also includes mainstreams affirmative action and specifically identifies impacts on women and girls.
- The DDF system design and implementation ensures transparent and gender sensitive local planning and inclusion, thus helping to incorporate a gender focus and awareness within the local administration officials and participating communities.

5. Update on audit recommendations

- Project was signed in February 2012 and on completion of legal and funding agreements with development partners, began to undertake operations and activities thereafter. Project will undergo its first audit of 2012, scheduled for April 2013, in accordance with UNDP standard procedures and timetable.

IV. ADDITIONAL ACTIVITIES WHICH CONTRIBUTE TO OUTCOME AND/OR OUTPUTS

Provide information about any activities undertaken by the project that were NOT envisaged in the work plan but which contributed to the outcome and/or outputs? E.g. advocacy and policy dialogue.

The MAF (Millennium Acceleration Framework) sub-project was implemented by SCSD during 2012,

but funded by non-project budget expenditure of \$97,167. Some 52 local MDG priority activities in health and education were undertaken with a total investment of \$48,054 in block grants delivered through the OEBG block grant mechanism, a DDF grant facility. Lessons from the development of practical problem analysis tools and recommendations for improvements to the use of operational expenditure supports will contribute to the future outputs and outcomes of the SCSD project.

V. FUTURE WORK PLAN

4. What are the priority actions planned for the following year to overcome constraints, build on achievements and partnership, and use of the lessons learned during the previous year?

Priority steps to overcome constraints:

- Follow up support for the further clarification, and focused capacity support for programme-based implementation.

Steps to build on current achievements:

- Continue support to the "3 Builds" pilot devolving greater authority to sub-national levels.
- Collaborated with Ministry of Natural Resources and Environment (MONRE) around Climate Change adaptive living initiatives, through the mechanism of the District Development Fund.
- Continue emphasis on sub national capacity development to ensure that benefits reach people

Steps to build on partnerships:

- Collaborated with Ministry of Natural Resources and Environment (MONRE) around Climate Change adaptive living initiatives, and related Global Environment Facility (GEF) and UNCDF's LoCAL¹ system that ensures the efficient and effective use of Climate Change block grants by local authorities.

Use of lessons learned:

- Lessons learned from design and implementation of MAF-OEBG sub project will inform improvements to the DDF block grants system within SCSD.
- Lessons provide shared body of knowledge used by Government and development partners
- Stakeholders from national and sub-national level contributing valuable insights and lessons

5. List major adjustments in the strategies, targets or key outcomes and outputs planned.

1. Policy framework for more effective local administration at province and district

Continue support to the "3 Builds" pilot devolving greater authority to sub-national levels.

3. Estimated total budget required for the following year: \$3,680,392
