Annex [1]. Social and Environmental Screening Template

The completed template, which constitutes the Social and Environmental Screening Report, must be included as an annex to the Project Document.

Project Information Project Title Project Number Location (Global/Region/Country)	

Part A. Integrating Overarching Principles to Strengthen Social and Environmental Sustainability

QUESTION 1: How Does the Project Integrate the Overarching Principles in order to Strengthen Social and Environmental Sustainability? Briefly describe in the space below how the Project mainstreams the human-rights based approach

The project is based on Human right approach. The main goal of the project is to further develop and strengthen the capacity of HNEC to prepare for and administer inclusive

Briefly describe in the space below how the Project is likely to improve gender equality and women's empowerment

" Promote increased public participation, particularly of women, youth, and minorities, in electoral process through effective civic and voter education The project is designed around four key outputs where output 2 is focusing on women's participation during Libya election events.

Briefly describe in the space below how the Project mainstreams environmental sustainability

The project will not have any impact on environmental sustainability as the project has no rehabilitation works. The project is mainly capacity building and intuition

Part B. Identifying and Managing Social and Environmental Risks

	QUESTION 6: What social and environmental assessment and management measures have been conducted and/or are required to address potential risks (for Risks with Moderate and High Significance)?	Description of assessment and management measures as reflected in the Project design. If ESIA or SESA is required note that the assessment should consider all	impacts and risks. Continuous analysis of developments, project planning in place for different security scenarios. Project coordinates	with Divisivill security and UNDSS	-21		Comments					Comments	N/A	N/A	N/A
