Trip Report

Reporting to:	*Secretary, Iva Reimers Roberto* *UNDP*
Travel dates:	*December 3 to December 10*
Atoll visited:	*Likiep Atoll*
Program(s):	*Ridge to Reef Project*
Organizer(s) & Member(s):	*Ministry of Natural Resources and Commerce* *-Foster Lanwe* *-Ruby Tojar* *-Daffodil Silver Wase*
Program Objective(s):	A team comprised of 3 from MNRC visited Likiep Atoll for the purpose of: 1. Introduction of R2R Project to Likiep Community. 2. Plant targeted seedlings into designated sites. 3. School Outreach 4. Train Site Coordinator and Extension Agent on Propagation methods. 5. Distribution of seedlings to Melan and Jebal community. 6. Develop a schedule for Site Coordinator and Extension Agent to maintain designated sites.
Program Description:	NRC conducted a one week long training on the following: 1. Community consultation on the Likiep R2R Project. 2. Cleared and planted 150 swamp taro seedlings into Taro patch. 3. Consultation on importance of Agroforestry to Likiep Elementary School (Grades 6,7,8). 4. Trained students on planting 115 banana, 85 cassava, and sweet potato seedlings into school garden. 5. Distribute 6 *Mafala Breadfruit* seedlings to Likiep Elementary School, Melan Elementary School, and Jebal Elementary School (2 per school). 6. Trained Site coordinator and Extension Agent on Propagation methods: Air layering, root cutting, stem cutting. 7. Develop a working schedule for site coordinator and extension agent to maintain sites: watering schedule; weeding schedule.

|	
Problems Encountered:	• During the community consultation, time was very limited because there were 2 other visiting teams; • There were not many tools available to work on site. • Site coordinator and Extension agent need more training on plant propagation, air-layering, and composting • Extension agent need to be more understand on extension service • Site coordinator need to work closely with local government leadership • Community engagement need to be improved
Follow Up Action:	1. Extension Agent and Site Coordinator to check up on papaya and pumpkin seedlings on school grounds. 2. Extension Agent and Site Coordinator to distribute seedlings to community if seedlings are ready. 3. Extension Agent and Site Coordinator biweekly report on sites.
