

Project Document

Country: Mongolia

UNDAF Outcome 3:	A holistic approach to environmentally sustainable development is promoted and practiced for improving the wellbeing of the rural and urban poor;
Expected CP Outcome 5:	Environmental governance improved for effective management of natural resources, and, better access to priority environmental services;
Expected Outputs 5.1 and 5.2:	National capacity to coordinate, implement and monitor policies and legislation towards achieving the country's commitment to United Nations Conventions such as CBD, FCCC, and CCDD strengthened; Role and capacity of local governments and communities enhanced in natural resource management (pasture, water, forest)
Implementing partners:	Ministry of Food and Agriculture and Ministry of Nature and Environment
Responsible parties:	Ministry of Construction and Urban Development United Nations Development Programme

The overall goal of the project is to combat land degradation and desertification in Mongolia in order to protect and restore ecosystems and essential ecosystem services that are key to reducing poverty. The principal objective of the project is to strengthen the enabling environment for sustainable land management (SLM) by building capacities in appropriate government institutions and user groups and demonstrating good practice in SLM through on-ground interventions that are integrated with national economic and social development policies.
