OFFICE OF THE PRESIDENT AND CABINET
PRIVATE BAG 301
LILONGWE 3**

Ref.No.OPC/PSRMU/05/1

16th February, 2011

Resident Representative
UNDP
P.O. Box 30135
Lilongwe 3.
Attention: Venge Nkosi

Dear Sir,

**2011 ANNUAL WORK PLAN FOR CAPACITY DEVELOPMENT
PROGRAMME FOR PUBLIC SERVICE MANAGEMENT**

Find attached signed copies of the 2011 Annual Work Plan for your records.

Yours faithfully,

A handwritten signature in black ink, appearing to read "Luckie K. Sikwese".

Luckie K. Sikwese

**For: SECRETARY FOR PUBLIC SECTOR
REFORMS MANAGEMENT**

2011 Annual Work Plan

Country: **Malawi**

Project Title:

Public Sector Capacity Development Program (PSCDP)

UNDAF Outcome(s):

UNDAF Outcome 5: Good governance, gender equality and rights based approach to development enhanced by 2011

Expected CP Outcome(s):

Improved national capacity to formulate policy, manage, monitor and deliver services to protect the rights of vulnerable groups.

Expected Output(s):

5.1 Strengthened capacity of central and local government to formulate policies and strategic plans, deliver services and be more visibly accountable to the populace.

Implementing Partner:

Office of the President and Cabinet

Other Partners:

Accountant General, Auditor General, Department of Human Resources Management, Ministry of Agriculture and Food Security, Ministry of Economic Planning and Development, Ministry of Education, Science and Technology, Ministry of Finance, Ministry of Health, Ministry of Information and Civic Education, Ministry of Irrigation and Water Development, Ministry of Local Government and Rural Development, National Audit Office, Office of the Director of Public Procurement

Narrative

The Public Sector Capacity Development Program (PSCDP) aims at "creating an effective public service able to deliver the goals of the National development Framework, currently the Malawi and Growth Development strategy (MGDS)". Its purpose is to "strengthen capacity in public sector management and administration for sustained performance improvement in service delivery". The design of the Programme is also consistent with the five outputs identified under the 2008-2011 UNDP Country Programme Action Plan that feed into the achievement of UNDAF Outcome 5.2 of "improved national capacity to formulate policy, manage, monitor and deliver services to protect the rights of vulnerable groups by 2011".

Six thematic areas have been identified and deemed as crucial for the development of the public service in Malawi. These are: (a) human resource management and development; (b) financial management; (c) audit; (d) project and programme management; (e) procurement; and (f) information and communication technology. In terms of management, the Office of the President and Cabinet (OPC) will coordinate and supervise all capacity development activities under the Programme. Other key partners include: Ministries of Finance; Development Planning and Cooperation; Health; Education; and Agriculture and Food Security on the Government side and UNDP and other government and development partners on the donors' side.

1. This document is a joint agreement between the Office of the President and Cabinet and UNDP. It specifies the terms and conditions under which UNDP will support the Government of Malawi in its efforts to implement the agreed reforms. The Government of Malawi and UNDP commit themselves to work together to achieve the agreed objectives.

2. The Government of Malawi and UNDP agree to work together to ensure that the agreed reforms are implemented in a timely and effective manner, and to monitor and evaluate their implementation.

3. The Government of Malawi and UNDP agree to work together to ensure that the agreed reforms are implemented in a timely and effective manner, and to monitor and evaluate their implementation.

I. SITUATION ANALYSIS

I.I Background

The Public Sector Capacity Development Program (PSCDP) aims at creating “*an effective public service able to deliver the goals of the National Development Framework, currently the Malawi Growth and Development Strategy (MDGS)*”. Its purpose is “*to strengthen capacity in public sector management and administration for sustained performance improvement in service delivery*”. Specific objectives of the Programme include:

- Improving the public sector leadership and management for implementing MDGS;
- Improving planning and managing of development projects; and
- Increasing public sector accountability.

The Programme has six thematic areas. These are: (i) human resource management and administrative common service; (ii) public financial management; (iii) audit; (iv) project and programme management; (v) procurement; and (vi) information and communication technology.

The design of the Program is also consistent with United Nations Development Assistance Framework (UNDAF) Outcome 5.2 of “*improved national capacity to formulate policy, manage, monitor and deliver services to protect the rights of vulnerable groups by 2011*”.

III. 2011 ANNUAL WORK PLAN

The 2011 AWP builds on achievements made in 2009 and 2010. However, while the past two years were largely devoted to reviewing and updating policies, legal frameworks and procedures, 2011 AWP focuses on assessing results. For example, in the area of external and internal audit, UNDP will support the National Audit Office expand its audit coverage – both in terms of total national budget audited as well as physical presence – from the current 55% to 65%. A total of 10 key parastatals will be audited namely Lilongwe Water Board, Blantyre Water Board, Central Region Water Board, Northern Region Water Board, Southern Region Water Board, Air Malawi, Malawi Broadcasting Corporation, Malawi Communications Regulatory Authority and Malawi Housing Corporation.

Another area of focus will be making follow-ups on audit recommendations. The National Audit Office has been very weak in following-up audit recommendations. Such initiatives will assist in improving public service delivery.

A major activity under human resource management will be the development of the Public Administration and Human Resource Management Strategy and the Action Plan. The Strategy and the Plan is expected to guide the implementation of MGDS II in terms of public sector reform and capacity development initiatives.

The Government will also continue conducting Public Sector Administration (PSA) Courses in collaboration with the Malawi Institute of Management (MIM). As a way of underscoring its commitment, in 2011, the Government has allocated \$360,000 in the domestic budget to carry out these courses. Plans are to increase this budget every

fiscal year. According to the Chief Secretary, PSA Courses will form the basis for accelerating civil servants into leadership positions.

As regards public procurement, support will be given to the Office of the Director of Public Procurement (O/DPP) undertake procurement audit exercise to establish the extent to which procurement entities are compliant with procurement rules and procedures. This exercise is a follow-up to a similar exercise done in 2007/2008.

The following are the major expected results that will be monitored the implementation of 2011 AWP:

- Result 1: % staff trained in leadership and management skills increased at central and district levels, with emphasis on women.
- Result 2: Public Administration and Human Resource Management Strategy in place informing MGDS II.
- Result 4: Audit coverage increased from 55% (2010) to 65% (2011).
- Result 5: PEs rated “moderate” and “good” increase from 60% (2006/7) to 70 % (2010/11).
- Result 6: Number of PIUs/PMUs mainstreamed into national implementation.
- Result 7: GWAN coverage increased from <30% to 35% (2011).

IV. Estimated Budget

The 2011 estimated annualized budget is \$2,000,000, down from last year's actual budget of \$2,630,000. Of this amount, \$1,000,000 is from TRAC resources and \$360,000 has been made available by the Government of Malawi largely in support of leadership and management training activities. A total of \$640,000 remains unfunded and will have to be mobilized. The reduction in TRAC resources reflects general declining trends globally. In addition, the reduction in the 2011 budget is consistent with the fact that most of the major procurement requirements for the Program have now been finalized. The budget is distributed as follows:

| | |
|---|--------------------|
| • Program Coordination | \$ 302,341 |
| • Administrative Common Service (Leadership and Management) | \$ 360,000 |
| • Human Resource Management | \$ 169,000 |
| • Information Communication and Technologies | \$ 212,888 |
| • Public Financial Management and Audit | \$ 400,500 |
| • Program and Project Management (Economic Common Services) | \$ 124,459 |
| • Public Procurement | \$ 325,812 |
| • Young Professionals Program | \$ 105,000 |
| Total | \$2,000,000 |

| Total Estimated Annual Budget | \$2,000,000 |
| Total Unfunded | \$640,000 |

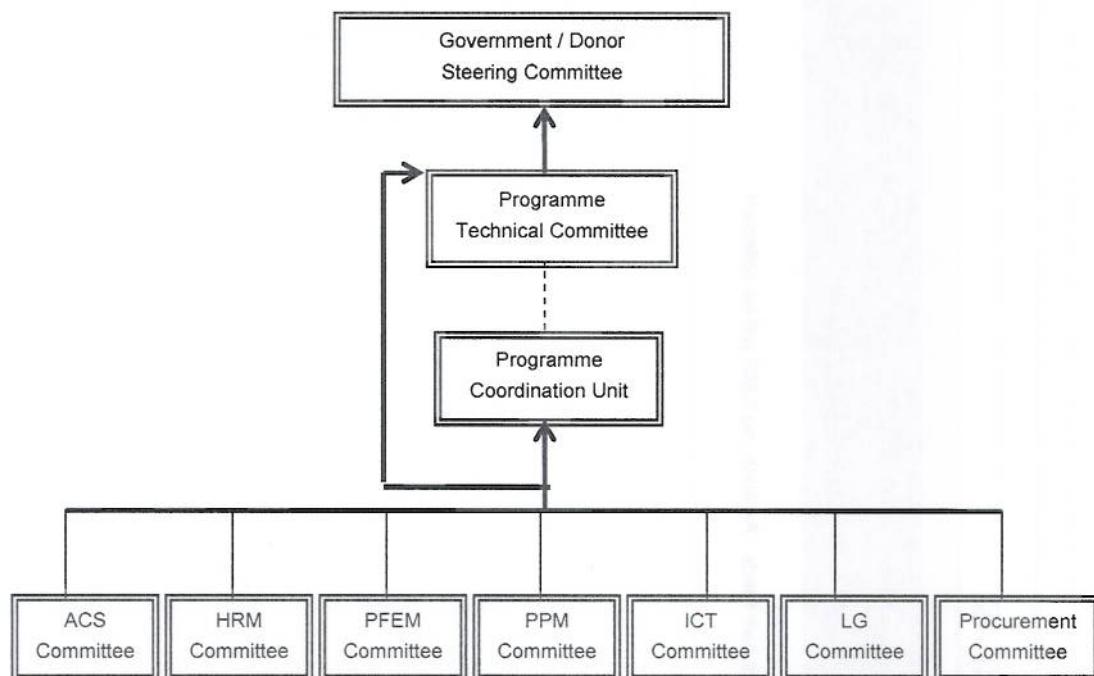

Note: 1./ The Government will manage its own funds. As such, no GMS will be collected.

V. MANAGEMENT ARRANGEMENTS

V.I Programme Management and Institutional Arrangements

Currently, OPC is the lead implementer of the Program with other implementing partners being responsible for the implementation of development strategies for each functional area. Since the Program is yet to be finalized, the management is done by the Project Management Team (PMT). However, as per the organizational structure below, the Programme will be managed by a Government-Donor Steering Committee comprising, at the highest level, the Chief Secretary or Deputy Chief Secretary, Solicitor General and Secretary to the Treasury from the Government side with UNDP and other key donors. The Committee will be responsible for: (i) providing policy direction; (ii) approving the AWP's and budgets; (iii) review of the Programme report; and (iv) monitoring and evaluation of the programme. The schema below shows the Program Organizational Structure.

Programme Organisational Structure

However, considering that the Program cuts across many sectors, in 2011, an evaluation will be done to see if there is need for redesigning the Program. Recommendations from this evaluation are likely to affect both the management and institutional arrangements of the Program.

V.II Financial Arrangements

For 2011, the Program activities will be funded from UNDP TRAC (\$1,000,000) and Government resources (\$360,000) leaving unfunded balance of \$640,000. It is expected that the unfunded balance will be met through One UN Funds as well as other resource mobilization efforts. The UN Agencies are still discussing with UN Headquarters on the possibility of accessing One UN Funds. Also, efforts are underway to bringing other development partners into cost-sharing implementation of activities under the Program .

VI. MONITORING FRAMEWORK AND EVALUATION

VI.I Monitoring and Evaluation

As currently designed, it has been observed that most program indicators are "activity-oriented" as opposed to being "results-oriented". The 2011 AWP has been developed with these shortcomings in mind. As such, the indicators are more "results-oriented". These indicators will be tracked through: (i) field visit reports, quarterly; (ii) performance assessment reports; (iii) quarterly progress reports; (iv) quarterly board meetings; and annual progress report.

The Program will be evaluated in 2011 to see its relationship with other sectors and if there is any need to redesign and change direction.

ANNEX I: RISK LOG

| # | Risk Description | Type | Impact & Probability Scale 1 (low) to 5 (high) | Countermeasures/ Management response | Owner | Last Update | Status of risk |
|---|--|-----------|--|--|-----------------------------|-------------|----------------|
| 1 | Lack of collaboration between Ministries | Strategic | Risk occurring would have a serious negative impact hampering achievement of the Programme outcomes. | OPC to impress upon Ministries the imperative to collaborate and coordinate across the Programme. TWG to ensure sharing of information across Ministries. Ministry PSs will ensure Directors coordinate and collaborate across Ministries. | OPC TWG PS of Ministries | | |
| 2 | Lack of coordination between this Programme and other public sector development programmes | Strategic | Probability: 3 Impact: 4 Risk occurring may result in inefficient allocation of resources and/or duplication of activities within the public service and an increased burden on GoM in Programme management. | Steering Committee, OPC and UNDP to ensure information is shared across public sector programmes, whether GoM or donor funded initiatives. | Steering Committee OPC UNDP | | |
| 3 | Insufficient funding from donors | Financial | Probability: 2 Impact: 3 Insufficient funding may suggest low donor confidence in the Programme. This would have a serious negative impact on the pace and scope of programme implementation. | Steering Committee, OPC and UNDP to lobby donors for collaborative funding approach. | Steering Committee OPC UNDP | | |
| 4 | Insufficient funding from Government | Financial | Probability: 2 Impact: 4 Insufficient funding would suggest limited ownership by Government. This would have a marked negative impact on the pace and scope of programme implementation. | Steering Committee and OPC to lobby GoM for appropriate funding and in-kind contributions. | Steering Committee | | |
| 5 | Basket fund disbursement too | Financial | Probability: 2 Impact: 3 If donors fail to adhere to agreed payment schedules for their contribution, or if there are mechanism and disbursement | UNDP to endure the financing OPC | | | |

| | | | | |
|---|---|--|--|--|
| | slow | internal delays in the UNDP system, then implementation of the Programme will be delayed. | process are supported with appropriate resources for efficient management. | UNDP |
| 6 | Insufficient high-level support to champion and lead implementation | Organisational Probability: 2 Impact: 2 Risk occurring will lead to ineffective and inefficient implementation of Programme activities. Probability: 2 Impact: 4 | Ministry PSs and Directors will own and drive implementation of their respective Programme Components. | PS and Directors of Ministries (Component Leaders) |
