

GRN- UNDP: Annual Review
Reporting Results Achieved in 2018
by Ministry of Environment and Tourism

Date: October 2018

Annual Review Meeting on Annual Work Plan 2018

Targeted Outcomes and Outputs

- UNPAF Outcome 8: By 2018, Namibia is implementing effectively and in a coordinated manner policies and strategies to reduce poverty and vulnerability which are informed by evidence on the causes of poverty and vulnerability
- CPD Outcome 19: By 2018, policies and legislative frameworks to ensure transparency, accountability, effective oversight and people's participation in the management of public affairs are in place and are being implemented.

NC4: 3 Key Achievements in 2018

1. Key Achievement – National Greenhouse Gas (GHG) Inventory (1994-2014) undertaken
 - Data collection from key stakeholders
 - Data entry into software to generate emissions
 - Quality Assurance (QA) and Quality Control (QC) Workshop 09-13 July 2018
 - Report writing
 - Training and validation workshop 9 – 11 September 2018
 - A stand alone National GHG Inventory for the years 1994 to 2014 produced
2. Key Achievement – Vulnerability and Adaption to Climate Change
 - Inception meeting and report produced on the methodology and approach to conducting V&As
 - Training workshop undertaken with V&A working group 20 to 23 August 2018 and workshop report produced
3. Key Achievement – Mitigation Assessment
 - Workshop held with the Mitigation working group to collect information on on-going and planned mitigation actions 09 to 11 September 2018
 - Mitigation report produced

NC4: 2 Main Challenges in 2018

1. Staff turn-over in the Working Groups
2. Lack of capacity amongst working group members
3. Lack of activity data especially for undertaking GHG Inventory

For each main challenge, please describe:

1) How/when the challenge occurred

- Since project inception

1) Countermeasures that were taken

- We normally encourage stakeholders to nominate more than one staff members to save on the working group
- On going trainings to deal with the capacity issues
- In some cases where there is no data expert judgement has been used

1) Results of countermeasures

- The measure of having more than one staff members have worked in some cases whereby one leaves for greener pastures at least another one stays on continues with the work
- The trainings have yielded some results in some sectors like energy, stakeholders have become familiar with guidelines and softwares

NC4: 3 Key Priorities in 2019

1. National GHG Inventory covering the year 1990 to date produced
2. Mitigation assessment completed
3. Vulnerability and Adaptation Assessment completed
4. Fourth National Communication (NC4) Report submitted to the UNFCCC

For each key priority, please describe:

- 1) GHG Report
- 2) Mitigation Report
- 3) V&A Report
- 4) NC4 Report
