

**Project number:** 00082539

**Project title:** Realizing the inclusive and sustainable development in the BCLME Region through the improved ocean governance and the integrated management of ocean use and marine resources

Funded by the Global Environment Facility (GEF), the Project titled: "Realizing the inclusive and sustainable development in the BCLME Region through the improved ocean governance and the integrated management of ocean use and marine resources" was a Project Preparation Grant (PPG) that aimed to compile a Project Document for a project titled: "Improving Ocean Governance in the Benguela Current Large Marine Ecosystem" (BCLME III). The Full Sized Phase project, the BCLME III is being implemented by the Benguela Current Commission (BCC) in partnership with the United Nations Development Programme (UNDP).

As a PPG, the main outcome was merely a Project Document for the BCLME III Project. Therefore since no technical activity was implemented, there was no need for evaluation before closure.
