The purchase order for TB Fixed-dose combination drugs (FDCs) was submitted to UNICEF Supply Division early February and delivery is expected to take 3-4 months. The fixed dose regimen was included in the essential drug list-which was updated late December 2010-early January 2011. No stock out of FDCs was reported in none of the 15 MoH districts. The TB drugs are supplied by the central drug stores (in Ramallah and Gaza) to the Central Primary Health Care Centras in the main districts upon request and need. The Central PHCs then distribute drugs to the peripheral centers.	One lab technician from UNRWA received training in lab and diagnosis related issues - organized by the Central Laboratory of the MoH, Gazza. Furthermore, 113 health staff received training on improving detection rate in Gazza in 19 facilities in North and South of Gazza. As for the MoH, the training abroad could not take place due to visa problems.	The three districts in the West Bank and the two districts in Gaza Strip (UNRWA) involved in the Global Fund programme reported timely on their TB activities. From the Ministry of Health, 15 central health facilities from 15 districts out of 15 submitted timely reports.	7 supervisory visits were conducted in West Bank and 10 supervisory visits in Gaza Strip by UNRWA. (total of 17 visits) Supervision forms and protocols were updated and harmonized - a reporting training day involving TB stakeholders from the MoH and UNRWA took place late January 2011 and will be reported in Q5 PUDR. A technical assistance mission from WHO, on M&E related issues will take place around the same time as the training event.	7 contacts of smear positive TB patients were screened, by UNRWA, for TB and they were all negative. 42 contacts were screened in Q4 by MoH. Cumulatively a total of 135 were screened.	125 TB suspects among refugees in Gaza strip and 49 in West Bank were examined by the UNRWA. Only one case was detected positive for TB. 50 TB suspects among refugees were screened by the MoH. Four of them showed positive results for TB.	UNRWA detected one case of TB during this quarter. The MoH detected 4 new cases during this quarter.	This represents the treatment success rate of 2 smear positive cases registered two quarters ago (Q2 of the grant) (as 6 months treatment is required in order to determine treatment success and outcome.)	Reasons for programmatic deviation and any other comments

PROGRESS UPDATE PERIOD

Grant number:	PSE-809-G02-T			
Progress Update - Reporting Period:	Cycle:	Quarter	Number:	4
Progress Update - Period Covered:	Beginning Date:	1-Oct-2010	End Date:	31-Dec-2010
Progress Update - Number:	4			

iv. Overall evaluation of performance

The Implementation of the TB Grant in Quarter 4 was still mainly focused on policy development and on the establishment of training and procurement plans. National guidelines on TB diagnosis, care and treatment were updated and validated through participatory process (at the Jordan-Dead Sea meeting that took place in September 2010). The updated guidelines were expected to be fully endorsed by the MoH late January 2011, through the National TB Conference. Subsequently, training on the modules and forms were planned for Q5 and will be reported in the Q5 PUDR. This explains the overall rather low financial delivery rate as all events to be organized need to follow the updated guidelines. Accelerated implementation is expected in 2011.

- plans, the 1B sponsored programme managed to make significant achievements across ten indicators. The two indicators that relate to EQA External Quality Assurance are not showing any improvement due to the fact that their implementation is conditioned to regional technical support from the WHO which unfortunately is not available at all times. The MoH was put on the WHO list for technical assistance which process will be launched in April 2011. The issue of EQA can only be fully resolved through the accreditation by WHO of the referral laboratories in Gaza and Ramallah, with priority on the Central Laboratory in Ramallah. Interim measures in the meantime are being discussed between WHO regional and the MoH to ensure the Despite all the challenges with mobilizing resources, technical assistance, finding ways to transfer funds to Gaza (required for implementation), the establishment of a programme management unit at the MoH and the approval of the PSM and M&E
- There is a demonstrated (and verified) continuous improvement in SRs reports as a result of prior and post review meetings and capacity building on programme planning, M&E and financial issues
- The WHO medical officer's position is not fulfilled yet (expected in April 2011 upon reception of the GFATM HIV Phase 2 related funds). In the meantime, the WHO senior Public Health Adviser assures the interim.
- · Non-medical equipment, such as IT or furniture, was procured and delivered to TB management units in the WB and Gaza in December 2010 and January 2011
- requisitions and all related documents were raised and finalized, signed and sent to UNDP/Procurement Support Office which will supports UNDP/PAPP with the TB-related medical/drug procurement process, through their long term agreements with regulations, UNDP was unable to launch the medical procurement process until this plan was approved. The actual purchase took place as soon as the UNDP financial system and budgets for 2011 were set up into ATLAS early February. The necessary • The medical procurement process started as soon as the Procurement and Supply Management plan (PSM) was approved by the GFATM mid December 2010 – after a rather lengthy process of clarifications and finalization. As per the GFATM
- The anti-TB drugs are expected to be delivered in May 2011 and the medical equipment in July 2011. Payment will occur upon reception of the goods hence a rather low financial delivery rate at the UNDP's level responsible for all procurement under
- The review of the submitted Quality Assurance and Quality control tenders was finalized. UNDP is in the process of awarding the contract to a WHO accredited laboratory in India. The process will start upon reception of TB drugs
- with UNDP, had organized (late January 2011) a large scale M&E training workshop in West Bank and Gaza on updated reporting procedures, forms, guidelines, standards and surveillance systems • The Monitoring and Evaluation plan was approved on 5 January 2011 also after a lengthy process of clarifications and finalization. At the time of drafting the present report, the MoH with strong technical and financial support from WHO, in collaboration
- process with WHO regional level however, such process is expected to take few months. Interim measures in the meantime are being discussed between WHO regional and the MoH to ensure the performance of a full EQA • The issue of EQA - External Quality Assurance - can only be fully resolved through the accreditation by WHO of the referral laboratories in Gaza and Ramallah, with priority on the Central Laboratory in Ramallah. The MoH initiated the accreditation

v. Planned changes in the program, if any.

- The revised budget for the TB grant is enclosed to the PUDR 4 to reflect the slight changes in the SRs work plans (done at the time of signing agreements), to reflect the PR updated work plan after the PSM approval and the approved reallocations since the signature of the grant agreement (and all approved by the LFA/GFATM). Additional reallocation letters are also attached to the PUDR 4. UNDP wishes to support the new proposed reallocations (details are enclosed in the cover letter to PUDR) in order to accelerate implementation and increase performance delivery rate. The proposed 'new' reallocations are not reflected in the enclosed revised TB budget
- The purchase of TB drugs planned in year 1 of the programme is no longer valid anymore thus the budget will be allocated to cover for the deficit in the medical equipment related costs
- Due to access problems and the imposed restrictions by the Israeli Authorities on delivery of equipment to Gaza, the PR decided to proceed with the procurement of non-medical equipment from the local market in Gaza through the UNDP Procurement

vi. Other program results, success stories, issues or lessons learned

- The national TB guidelines, national strategic plan, reporting and recording forms are now available in English as final drafts awaiting the approval of the Director General of the Public Health Directorate.
- The National TB conference was conducted in WB and GS in January 2011 with the participation of UNRWA, WHO and UNDP and will be reported in PUDR 5.
- In November 2010, a large scale quarterly TB coordination meeting was held to share programmatic and financial updates with regard to the TB grant. This meeting was video linked with partners in Gaza. The minutes of the meeting are enclosed to PUDR 4.
- It is worth mentioning all visa issues faced by the national MoH staff affecting their ability to attend several training abroad.
- A mission by an EMRO WHO TB expert took place in January 2011 will be reported under Q5 PUDR. The training focused on:

 SOPs for data management
 WEB TBS user guide
- o supervision checklists (general and lab) and report template o M&E list of indicators
- o Reporting and recording forms

B. PR COMMENTS ON THE FULFILLMENT OF CONDITIONS PRECEDENT AND/OR SPECIAL CONDITIONS UNDER GRANT AGREEMENT

The disbursement by the Global Fund or use by the Principal Recipient of Grant funds for the procurement of Health Products is conditional upon the approval by the Global Fund of the PSM Plan.	Second Disbursement: the written approval of the Global Fund of the Updated M&E Plan and Revised Program Budget (the latter only being applicable if condition c. of this sub-section is applicable).	Second Disbursement Delivery by the Principal Recipient to the Global Fund of a revised budget for the period beginning with the Program Starting Date and ending with the Program Ending Date (the "Revised Program Budget") if the amendments incorporated into the Updated M&E Plan necessitate amendments to the budget that was approved by the Global Fund as of the effective date of this Agreement	Second Disbursement: Delivery by the Principal Recipient to the Global Fund of an updated plan for monitoring and evaluating Program activities that incorporates the recommendations made by Program stakeholders upon completion of the Monitoring and Evaluation Systems Strengthening Tool	Second Disbursement: Delivery by the Principal Recipient to the Global Fund of a completed version of the Monitoring and Evaluation Systems Strengthening Tool	Conditions Precedent and/or other special conditions
Yes	Partially	Yes	Yes	Yes	Fulfilled? (Yes/No)
The PSM Plan was approved by the GFATM on 15 December 2010. Accordingly, the PR has already placed the order for the purchase of equipment and pharmaceuticals. Delivery is expected to take 3 months for pharmaceuticals and 6 months for equipment.	The M&E plan was approved by the GFATM in January 2011 (Q5). However, the revised program budget is submitted along with this report and is pending approval.	The PSM Plan was approved by the GFATM on 15 December 2010. The PR submits with this report the revised budget including the updates following the approved PSM plan and reflecting the changes done in the SRs' work plans.	The updated monitoring and evaluation plan was finally approved by GFATM was received in January 2011.	The MESST workshop took place in February 2010 including all relevant partners - workshop during which the MESS tool was finalized and endorsed by all partners. The completed MESS tool along with the final M&E plan and proposed action plan was shared mid August 2010.	PR Comments

ant letter from the GFATM received on 15 February 2011, this condition is now satisfactory to the WHO's work plan (to ensure quality control mechanism with the incentives' beneficies or payment after verification. This follows the dinistry of Health where no staff receives incentives that exceed 25% of their salary, entives were paid, however, Q5 PUDR will include all incentives for Q3 up to Q5 and will provid the paid per staff. Tough the HIV grant, a supply chain management officer also responsible for putting in place oration with the MoH mitted in August 2010, was finally approved in January 2011 (Q5) and with all SRs and first disbursements (for two quarters) were processed.	The Principal Recipient acknowledges and understands that the Global Fund has entered into this Agreement with the Principal Recipient in reliance on the representation by the West Bank and Gaza UN Theme Group that the funds provided under this Agreement do not constitute more than 65% of the funds for the national tuberculosis program in the West Bank+A58 and Gaza. If the Principal Recipient becomes aware that the funds provided under this agreement are in fact or are anticipated to be materially higher than this amount, the Principal Recipient shall promptly notify the Global Fund. The Principal Recipient shall promptly notify the Global Fund of the sub-recipient, the Principal Recipient shall notify the Global Fund of the selection of the Sub-recipient. In the case of a Sub-recipient that is not a UN agency, the Global Fund of the an assessment with the main SR - MOH which conclusions were shared informally with the PR With regard to such	Not later than 90 days after this Agreement enters into force, a plan for monitoring the Program, is replaced with the condition for second disbursement in Section B.2 above. The M&E plan initially submitted in August 2010, was finally approved in January 2011 (Q5) and the condition for second disbursement in Section B.2 above. Prior to disbursement of grant funds to a Sub-Recipient, the Principal Recipient shall have executed an agreement with such Subrecipient that is consistent with this Agreement, including the required representations regarding anti-terrorism and appropriate performance frameworks and budgets. The Principal Recipient acknowledges and understands that the Global Fund has entered into this Agreement with the Principal Recipient in reliance on the representation by the West Bank and Gaza UN	By no later than 15 February 2010: documentation detailing the proposed levels for the incentive scheme for the Sub-recipient, National TB Program, which shall be in line with the incentives provided by cother donors/international partners for similar programs. The Principal Recipient shall ensure that appropriate systems for the management, monitoring and oversight of the health product supply chain are implemented for products products products products products products products and oversight. GHAIM. This part was shifted to the WHO's work plan (to ensure quality control mechanism with the incentives beneficies) - names and mechanisms are provided every quarter to WHO which is responsible for payment after verification. This follows the policy of incentives adopted by the Ministry of Health where no staff receives incentives that exceed 25% of their salary. During Q3 and Q4, no incentives were paid, however, Q5 PUDR will include all incentives for Q3 up to Q5 and will provide the summary of all amounts paid per staff. The PR has appointed, through the HIV grant, a supply chain management officer also responsible for putting in place tracking systems in collaboration with the MoH	recipient reporting As per the Q3 Management letter from the GFATM received on 15 February 2011, this condition is now satisfactory to the

Management of Sub-Recipients

Gestion de Récipiendaires Sécondaires

Country / Pays:	West Bank and Gaza Strip
Grant number / Numéro du Grant	PSE-809-G02-T
Principal Recipient / Récipiendaire Principal:	UNDP/PAPP
Currency / Monnaie:	USD

Explanatory notes /Notes explicatives

Budget: Please insert the amount of the yearly budgets that had been allocated to single SRs. The yearly budgets should be in accordance with the PR-SR agreement. Budget: Veillex indiquer as budgets amount of the yearly budgets.

Perfode: Please indicate the actual reporting period. In general, reporting is by quarter or semi-annually. Perfode: Yeuliez inserer la période du repport actuel. En général, le rapport est du par trimestre ou par semestre.

SR Disbursements: Please insert the amount that had been disbursed by the PR to the SR in the reporting period.
Decalissements au RS Veuillez indiquer le montant total qui est décalissé par le RP au nom de RS dans le trimestre / semestre actuel.

SR expenditures: Please insert the total amount of expenditures that had been justified by the SB (i.e. original invoices, vouchers, mission reports, list of participants, etc.) and accounted for in the accounting system of the PR. Advanced payments and committed amounts of not represent SRs' expenditures. Advanced payments and committed amounts need to be accounted for as "accounts payable and not as expenditures in the accounting system of the PR.

Dépenses de RS: Veuillez indiquer le monant total des dépenses effectives et justifiées par le RS (i.e. facture originale, pièces justificatives, rapport de missiojn, list de partoipants, etc.) de la période actuel le Les avances ne represent pas de dépenses effectives. Tous les avances contre comme créances dans la compitabilité du RP.

Variance The "Variance" is calculated automatically and shows how much the SR has spent out of the amount provided by the PR Ideally, the "Variance" should be "0" which means that the funds provide by the PR had been fully opent and all reterrant vocables have been presented by the SR, verifical and accepted by the PR. A negative "Variance" of SR nesses that the SR has spent more funds than the PR had percised. A positive "Variance" means that the SR of clinic spent all be funds that verse provided by the PR.

Variance: In "Variance" set calcular successful and one spent all be funds that verse provided by the PR.

Variance: In "Variance" set calcular successful add one spent all be funds that verse provided by the PR.

Variance: In "Variance" set calcular successful add one spent all be funds that verse provided by the PR.

Variance: In "Variance" set calcular successful add one spent all be funds that verse provided by the PR.

Variance: In "Variance" set calcular successful add one spent all be funds to the SR of contains that the SR of the SR of
