TERMS AND ACRONYMS USED IN THIS PROGRESS LIPDATE AND DISBURSEMENT REQUEST HAVE THE MEANING GIVEN TO THEM IN THE GRANT AGREEMENT RELATING TO THE ABOVE GRANT

Section 1: Programmatic and Financial Progress Update A. PROGRAM PROGRESS

| I. Program Objectives | Ives |
|-----------------------|--|
| Objective No. | Objective Description |
| , | Strengthen community action to maintain low HIV prevalence particularly amongst populations most at risk and vulnerable |
| N | Reduce morbidity and mortality through improved access to treatment, care and psycho-social support to those infected and affected |
| 3 | Reinforce capacities, partnerships, coordination, monitoring and evaluation of the national response in line with the three ones |
| Select | |

| it impact / Outcome Indicators | THE PROPERTY OF THE PROPERTY O | Baseline | Intended | | Actual |
|---|--|----------|----------|-------|----------------|
| impact / Outcome | Indicator Description | Value Ye | Year | Yea | |
| Impact | % of young women and men aged 15:24 who are HIV infected | N/A | NA | 2 | <1% N/A for Y1 |
| mpact | % of adults and children with HIV still alive 12 months after initiation of antisetrovial therapy (extend to 2, 3, 5 years as program matures) | NIA | N/A | 7 | 70 N/A for Y1 |
| Outcome | % of injecting drug users who have adopted behaviors that reduce transmission of HIV | NIA | N/A | an an | 5 N/A for Y1 |
| Outcome | % of adults and children who are still on treatment after 1 year from the initiation of treatment | N/A | Ä | çe | 80 N/A for Y1 |
| Outcome | % of people expressing accepting attitudes towards PLWHA, of all people surveyed aged 15-49 | N/A | NA | Ŋ | 20 N/A for Y1 |
| Select | | | | | |
| Ge en | Note: Operational research will be carried targeting injecting Drug users (UNODC led), Sex Workers/women under sexual exploitation (UNIFEM led), Youth and children-KAPB survey (UNICEF led). Additionnally, a BSS+ (WHO led) is planned, a vulnerability assessment (UNFPA led) as well as a behavioral survey in prisons. This will help in mapping risks and vulnerabilities as well as improve national surveillance systems. An Operational Research working group was established to harmonize and align all the research and assessment related activities, Details of all proposed research additing were observed among all SRs, SSRs and PR and were validated by the NAC. Final concept papers detailing the proposals with the detailed budgets were expected to be submitted to the PR in December 2009. No funds were disbursed by the PR until those details were known. The operational research budget represents 10% of the overall budget, hence the need in harmonizing all methodologies to avoid duplication and allow for efficency gains. The minutes of the Operational Research working group meeting are available upon request. | | | | |

| approaches, fargets, messages). Such strategy is part of the NAC work plan and expected output memoral price by UNFPA. Discussions to reach sustainable and institutionalized mechanisms for condom distribution are taking place with the MoH, facilitated by UNFPA. | 3. Furthermore, a consultant was recruited by the NAC to review available condom programs and develop the Condom Distribution National Strategy (Incational | 2. The PSM Plan was only approved by the GFATM Secretariat in October 2008 – following this approval, the PR gave green light to UNFPA to place an order to buy the necessary condoms based on quotation received. | 1. Condoms stocks are available at the Ministry of Health (as part of reproductive health strategy) and will benefit indirectly the HIV programme. Furthermore, messaging around condoms use for HIV prevention is taking place which may include the purchase of condoms packaged and marketed with specific target groups. It was recently decided that UNFPA will purchase 300,000 condoms for the two year GFATM sponsored programme as per discussions between the GFATM Secretariat, UNDP-PR, UNFPA and the MoH. The condom related indicator and target is "tied" meaning that reporting against condom distribution can only take place if purchased through GFATM funding. | 6. Participation of UNICEF, UNFPA and selected NAC members in 2 workshops: first on PMTCT (Cairo) and one on Youth and HIV prevention (Tunisla). | Is "legalistions around a proposed tour in Tel Aux's drop in centers and needle syringe exchange programmes took place. The Palestinian Authorities have agreed to this suggestion and UNODC has been negotisting with the Israel counterparts. The negotistions were finally settled for a proposed visit mid October to involve 20 participants from the PNS different institutions and Palestinian NGOs. Details for the study four on Harm reduction in prisons for the Palestinian NGOs. Details for the study four on Harm reduction in prisons for the Palestinian Nash care service providers scheduled for October Q4, were fine tuned as well as the PNs participation (3 people) to the "International Health in Prisons Conference" taking place on 20-31 October in Martie (the conference focuses on addressing what works in the prevention and control of major communicable diseases in prison and the health problems related to major communicable diseases in prison including HIV and TB). | 4. ToRs for the assessment among drug users was prepared by UNODC and shared with the Ministry of interior, it was agreed that Patestinan Central Bureau of Statistics shall conduct the assessment and UNODC to provide technical assistance. Also, a provision for training to the investigators of the Central Bureau on conducting trainings on HIV and drug use assessments takes part in this activity. Discussions were hed among the Operational Research Group and particularly with WHO to fine tune the details of the proposed drainialve research which will come as a natural complement of the BSS survey to be left by WHO. The proposed research will help determine the characteristics, HIV vulnerabilities, available services, and needs and barriers to health care access of IDUs in oPt. | The campaign in the West Bank was prepared for implementation early Q4 by the Palestinian Football Association (Ramadan). The campaign feature will be a three days event feath event featuring a drug use and HIV session followed by a football match). The larget group will include youth from vulnerable areas and refugee camps in Ramalain. The Football reams will include. Jerusalem and Ramalain heams to byy at Fasai EI Husseiny stadium in Jerusalem. Qarqylia and Tukram teams and finally Bethiehem and Hebron feaths that will pay in the West Bank. An expert on drug use will provide the drug sessions while a medical doctor from the National AIDS Committee will participate as HIV expert. IEC materials were distributed in the campaign. | 3. Under the leadership of UNODC, awareness raising on HIV and drug use among vulnerable and refugee youth have started, initially in Gaza (through a NGO identified in the Gaza Strip) and followed in the West Bank early Gd, through the Footbal Federation as suggested by the Ministry of Interior, as a strategy to promote sports, healthy pactices and therefore against risky behaviors potentially leading to STIPHIV transmission. The awareness raising campaign on HIV and drug use among vulnerable youth, families and drug uses was completed in Gaza, where EEC materials were also distributed, 512 people were trained by peer educators, and the presence and support of religious leaders was remarkable. | As mentioned above, UNFPA has eigned agreements with the MoH, NAC and MoSA, UNIFEM and UNRWA in which activities under this SDA have been clarified. Implementation has not yet started but is to be completed before the end of year 2009 (Quarter 4). | 1. Preparatory work for peer education programs targeting women (UNFPA/UNIFEW), IDUs (UNODC), Youth (UNICEF), | 8. UNFPA has been working with "Keef Asha" Magazine (a magazine that is directed to raising awareness on health issues among the Palestinian people) for the occasion of World AIDS Day. Few articles were to be written by the PR and SRs, UNFPA has started along with the Abol- the preparations for the WAD event where a poster funded through the Global Fund will be produced in addition to awareness raising sessions with the different line ministries. All SRs, SRRs and PR contributed to the design of the Poster. | 7. MOH and the Ministry of information has prepared for the training of 2 groups of journalists on HIV and AIDS using UNODC's guide on HIV and drugs issues as a reference. | 8. The Health Education Promotion Committee has set ToRs for the communication strategy which will be linked to all IEC programs. | 5. Implementation of activities shall be accelerated in October -Q4 | Furthermore, two comprehensive NAC meetings were organized to define roles and timeline for implementation of each line ministry involved in prevention activities (UNFPA signed MoUs with the MoH, the NAC, and the Ministry of Social Affairs, defining the prevention activities to be undertaken.) | A prevention working group was established to ensure the harmonization of prevention activities, messages and strategies. The minutes of the prevention working group meetings are available upon request. UNFPA and the Department of Health Education of the Mort are challing the working group, which involves all SRs, SSRs and the PR. | BCC and mass media activities have started through the NAC (National AIDS Committee) and its line members including ministries and NGOs. | 1. Implementation has started | Reasons for programmatic deviation and any other comments | |

| 1. A total of 8 preparatory meetings took place between the NAC and UNFPA to plan the related activities. Negotiations with the NAC are underway and implementations to foressend during CA. Similarly between UNDOC and the NACMOH to prepare for advocacy vortisatops among governmental bodies, police focus and policy decision makers. Internal activities to engage and full national ownership around HN issues. UNDOC is undergoing preparations for the advocacy workshop among policy makers from the law enforcement on harm reduction and it is perceived to take the place in QS. 2. UNIOCEF is regoliating an agreement with UNRWA for possible support for training of religious leaders in refugee camps. 3. Through the workplan of PARS (an NGO SR to UNFPA), major activities on stigma reduction are to be implemented including sensitization workshops for religious leaders. Also, the MoH through the Ministry of Revigous Affais will oganize 3 workshops for religious leaders on HIV prevention. | 0 | œ | 2007 | 30 | | Yes | community, religious leaders and police/armed services attending sensitization workshops on HIV/AIDS and | 3.1. | | | | | | | | | | | | | | | | | 1. As part of the Civil Socialy Enhancement Strategy on HIV, a mapping of Civil Society Organizations working on HIV and AIDS related programs is to be conducted as a first step for the creation of national network of MOCs working on HIV for the scaling up of HIV community prevention and care services. UNDP has circulated ToRs for the national civil scelety network of MOCs together on HIV interventions with UNDP are envisaging the possibility of forming a committee including partners from each party and which will serve as a supervisor to the network formation process. All parties are giving efforts in indexfying the best consultant do the mapping in cooperation with the formed committee. UNDP has identified a potential NGO to conduct the mapping among the civil society. A consultant do the mapping in questionnaire was developed and the mapping results are expected to be presented early 2010. 3. Once mapping committee, UNDP has identified a potential NGO to conduct the mapping among the civil society. A consultant was recruited, a actional network (regional technical assistance from UNDP HAXPPAS on civil society strengthening is also planned for January 2010-such technical assistance should have happened in October 2009 but had to be postponed for late January in the light of visa restrictions issues). 4. Once the exercise completed among grants will be provided to assist COOs in their HIV prevention programs. Furthermore, women NGOs will be provided with grants to mainstream HIV prevention programs which their process of prevention and sigma reduction. UNFPA has conducted a mapping arrong women NGOs will be provided to assist COOs in their HIV prevention prompty among women NGOs to implement the HIV prevention programs. Furthermore, women NGOs are programs of reproductive health and of selection of women NGOs to implement the HIV prevention programs. Five NGOs were selected to mainstream HIV writin their programs of reproductive health and | 2. Two technical working groups were established: 1) Prevention chaired by UNFPA and the MoH and 2) Operational Research, chaired by WHO and the MoH to align and harmonize strategies and activities. A situation analysis on (i) status of national policies and strategies. (ii) people living in the oPt with HV and AIDS, there origin, and the MoH and 2) Operational Research, chaired by WHO and the MoH to align current teathment and other Issues. (iii) current capacities for Itelahment and oare of HIV and AIDS, (iv) availability of data and information on HIV and AIDS is in progress (coordinated by WHO). 3. Short term assistance was provided by WHO to prepare the Behavioral Surveillance Survey (BSS). Such BSS exercise will be part of a wider interagency perational research agenda coordinated by who recruided an expant to advise on the flexibility of conducting behavioral studies among MARPS in oPt. The consultant proposed a research and recommendations to overcome them, the report is available upon request. 4. All operational research activities will staff in January 2010. All final proposals were to be submitted by all SRs to PR in December following the extensive consultation and harmonization which took piece during QS. 5. Negotiations with UNLFEM, as SRR to UNFPA) are still underway to shape the action strategy regarding operational research on sex work/women under sexual exploitation and participations with the strategy of the GRR workshop was supposed to take place earlier but debys in example the National MoHVMA for preventional availability of scallators, visual proposals of the GRR workshop was supposed to take place earlier but debys are done in the selectionavailability of scallators, visual applications, horrowork preparations of the workshop which were worked preparations for the workshop which were worked proposed at the MBE strategy for the GRR to the SRR in the sightly edited reporting template due in the selectionavailability of scallators, visual applications, horrowork preparations for the work |

PROGRESS UPDATE PERIOD

| 2009 End Date: 30-Sen-2009 | Beginning Date: 1-Jul-2009 | Progress Update - Period Covered: |
|----------------------------|----------------------------|-------------------------------------|
| | | |
| or Number: 3 | Cycle: Quarter | rivgress update - Reporting Period: |

iv. Overall evaluation of performance

1. As reported comprehensively in Quarter 1 and Q2, the start of implementation was severely affected by a number of factors including the war in Gaza (Late December 2008-early January 2008) which diverted the PR and SRs attention from GFATM programming to humanitarian assistance, budget and work plans correction and validation, signature of letters of understanding and establishment of working model ties between partners, etc.

2. The UNDP PMU Team got strengthened with the appointment on a full time basis of a Programme Officer and the selection of an M8E officer who would also look at PSM issues (to start in Q4). The position for Finance and Administration officer had to be re-advertised as the selected candidate finally declined the offer and no other candidate were found suitable during the recruitment process to hold such position. The management unit at the SR level was also strengthened by an international HIV medical officer at WHO and a field coordinator at UNFPA.

3. However, under Quarter 3 the overall performance of the program is likely to be considered still in-adequate. But all activities for implementation were fine tuned during Q3. With the Ramadan and Eld vacation, there might have been a slower pace in achieving results and getting all partners on board but this was overcome through dedication of a small numbers of key implementers.

4. All procurement activities were prepared (quotation, bidding, tendering and evaluation took place while finalizing/waiting for the official approval of the PSM) to allow immediate orders by UNIDP to all suppliers

5. All operational research activities were discussed at length between PR. SRs, SRRs and the national partners to allow for harmonized approaches. The outlines of proposals wate drafted by all SRs (UNFPA, UNICEF, WHO and UNICOC and UNIFEM) and endorsed by the NAC

6. The UNDP PMU Team got strengthened with the appointment on a full time basis of a Programme Officer and the selection of an M&E officer who would also look at PSM issues (to start in Q4). The position for Finance and Administration officer had to be re-advertised as the selected candidate finally declined the offer and no other candidate were found suitable during the recruitment process to hold such position.

7. Through the national AIDs committee (NAC), the national response strategy is under development, in addition to needs assessment that will be conducted among NAC members to assess their knowledge of the HIV epidemics. Based on this light assessment, training will be conducted among NAC members and their line ministries to enhance knowledge of the basic HIV facts. Twelve district multidisciplinary teams were formed as continuation for NAC strategies and activities. Those learns will receive sensitization training on HIV prevention.

9. Preparations for World AIDS Day have started with as an example 7,000 red ribbons have been ordered by UNICEF and 1,500 by UNDP to be distributed to partners for awareness raising campaigns. As part of the support for Life Skills Based Education in 133 youth clubs and learning centers throughout the West Bank and the Gaza Strip, the Life Skills Based Education included communication and negotiation skills, conflict resolution, smoking and drug prevention and reproductive health, including HIV and AIDS information. 8. An action plan for HIV activities in refugees' settings in the West Bank was finalized (details with regard to Gaza will be available in Q4). This exercise led to the signature of a MOU between UNFPA and similarly between UNICEF and UNFWA. The UNICEF-UNFWA work plan includes trainings for youth facilitators and religious leaders as well as an awareness campaign for World AIDS Day.

10. Other achievements include the development of IEC materials, mainly focused on HIV and drug use:

HIV brockure developed with UNAIDS Regional Support Team and technical inputs from the Palestinian National ALDS Committee (2,000 copies in WB and 2,000 professore week-poped by UNCOC Vienna in Aubit (2,000 profess in WB and 2,000 profess i

v. Planned changes in the program, if any.

The budget will be re-aligned in Q4 following the approval of the PSM plan

Other program results, success stories, issues or lessons learned

In the very special context in WBG there are several key lessons learned that we would like to highlight, thus to draw special consideration in the design of any future investment in the area of HIV: Improvement with regard to coordination:

WBG is a non CCM country, experiencing the absence of the overall guiding body that promotes true partnership development and multi-sectoral programmatic approach. Thus the PR is also taking leading role in fulfilling the essential functions of the CCM, leaving additional burden on progress making. PR led coordination meetings take place every 3 weeks (SRs only + UNIFEM and UNRWA), prevention and operational research working groups have been initiated to ensure alignment of related activities. The UN thematic group responsible for the oversight of the grant (in close collaboration with the NAC) meets on a quarterly basis (although there might be a need for more frequent meetings since this is a time of accelerated implementation).

The principles of performance based funding are still relatively new to all implementing partners, implying the need for on-going training and explanations which should be supported by the GFATM and the LFA

The importance of a flexible approach for the oPt (very volatile and political context, as well as in phase of starting brand new HIV programming requiring to put first and as a priority all systems and the relevant policies). Overall, in fragile areas experiencing policy vacuum and possibility of sudden eruptions, the design flexibility in planning and budgeting is critical, as is the ability to monitor progress and results. This flexible approach should also be considered for procurement strategy

In addition, the country is challenged by the absence of the overall guidance and management from the UNAIDS Secretariat. A great challenge that facing leverage of respective organizational mandates and resources to work collectively to deliver results. Thus, such complex situation is leaving its impact on the performance. The PR continues to strive for increased efficiency and effectiveness in the response to AIDS, and to demonstrate the added value of coherence in the UN system and its

PR and NAC should prepare a plan to define the modalities of their working relationship (including periodic communication and minuted meetings) Grants Disbursement to NGOs: Only upon assessment of the NGO by PR and/or SR, and selection process is transparent and documented The PR should have, by 31 Dec 08, recruited a Program Manager, a Finance Analyst and an M&E Officer Procurement of Health Products: Disbursement to be requested upon submission of PSM Plan by the PR and the receipt of GF's written approval on the PSM Plan the PR finalizing M&E and PSM Plans Second Disbursement: PR to submit a revised program budget, if applicable after Second Disbursement: PR to provide a revised plan for the M&E of the program including all stakeholders Second Disbursement: PR to provide evidence of conducting the M&E workshop including First Disbursement: PR to to submit a letter confirming the authorized representative of First Disbursement: PR to deliver a statement confirming bank account results and recommendations ions Precedent and/or other special conditions In Progress In Progress In Progress In Progress Partially Select Yes/No) No Yes Yes A letter of Exchange was signed between UNDP, UNFPA acting as the UN Theme Group Chair and the NAC and UNDP (shared in previous progress update). The MoU describing further the partnership modalities between the PR and the NAC/MoH has been finalized as planned. As described in section 1A (2), grants will be provided to NGOs/CSOs for HIV community prevention and care upon completion of mapping of NGOs involved in the HIV response in the oPT and national civil Furthermore, UNDP/PAPP is in process of recruiting Supply Chain and Medical Procurement Officer Finance/Admin Officer (re-advertised position). The contracts are to be issued in December 2009 At the time of writing the consolidated Q3 report (November 2009), UNDP is reviewing the CVs for the society consultation expected to take place in Q4. been reviewed by the UNDP PSO and UNDP local procurement department position to be financed from UNDP resources. Term of reference is ready for advertisement after it has board in Q4). The revised proposed management structure is attached to the present report basis), a Procurement/Monitoring and Evaluation officer (on board in Q4), a Gaza Project Coordinator (on Programme Manager (recruited in December 2008), a Programme Associate (confirmed on full time the GFATM funded activities, has set up a programme management unit which comprises of: a PSM Plan has been approved by the GFATM Secretariat in November (at the time of preparing this UNDP/PAPP will be finalizing the plan in February in 2010, after completion of the M&E national workshop UNDP, in its quality of Principal Recipient and overall responsible for coordination and management of progress update). HIV expert (WHO). The budgets are expected to change in relation to drug procurement budget lines, PSM plan has been revised after the GFATM Secretariat Mission to oPt (August 2009). Forecasting for the ARV Drug needs has been rather complicated, but recently eased with the arrival of an international 2009 but due to visa challenges for one facilitator and the last minute drop out of the second one, the Submitted to the GFATM during grant negotiation Submitted to the GFATM within the initial face sheet of Grant Agreement severely under estimated. workshop preparations themselves, it was decided in close collaboration with the GFATM to postpone the At the time of submitting the Q3 report, UNDP/PAPP has set the dates for the workshop to be January 2010 after agreement with the GFATM Secretariat. The workshop was originally planned for November workshop for January 2010. PR Comments
